

The Daily Astorian. ASTORIA, OREGON: FRIDAY, AUGUST 5, 1887

Yesterday was about as near a warm day as it ever gets in Astoria.

How tame the flies are! They don't seem to be afraid of anything.

A \$500 pair of diamond earrings, in Hansen's window attracts considerable attention.

No. 27, held by Mrs. J. C. Trullinger, drew the prize at Carnahan & Co.'s yesterday afternoon.

The Wahkiakum county delinquent tax list contains only ten names, which is a very good showing for that county.

The funeral of the late May L. Leinenweber will be from the parents' residence at ten o'clock this morning.

The schooner Geo. C. Perkins leaves San Francisco on the 10th, followed by the bark Sereno, to load at the Clatsop mill.

In the justice court yesterday Gabriel Pakk, convicted of a charge of putting his hand in Alfred Enquest's pocket, was given 30 days in the county jail.

G. A. Charles, an Indian known as "Charley," was drowned from his boat at Gray's harbor about ten days ago. Last Wednesday the body was recovered, and given interment yesterday.

It is thought owing to the demand by canners and others for blackberries this year the price of that fruit will be high all through the season. At present they retail at three boxes for two bits.

J. C. Ross has gone on a four weeks' sojourn in California, accompanied by his assistant, Eddie Hansen. They go by way of Yaquina bay. During his absence Frank H. Surprenant will attend to the undertaking business for him.

On the 2nd inst., at Pillar Rock, Washington territory, there died Joseph Laferty, an old Hudson Bay employe, who had attained the great age of ninety-nine years, coming to this country in 1825, nearly two generations ago.

It is to be distinctly borne in mind that "Progress and Poverty," by Henry George, and "Progress and Necessity," by M. C. George, are two distinct and totally different emendations. The latter, being, in the opinion of many, much the more practical and beneficial of the two.

The steamer Boscawen at San Francisco from Skeena river, reports that the salmon pack of the north has been fairly good this year. On Skeena river it has been much better than ever before, companies having put up 12,000 cases each. At Albert the run has been fair, and at River's Inlet, poor.

After adjournment of the convention yesterday, about fifty members of the convention accepted the invitation of the Ilwaco Steam Navigation company to visit the jetty and the fortifications at the mouth of the river. The whole afternoon was spent on what proved to be a most delightful excursion. The party returned at 7 p. m.

This week Astoria has had a large delegation of prominent men; among them two governors, two United States senators, two ex-United States senators, a representative to congress, an ex-representative, and all of them friends of Astoria and favoring her future and development in common with her sister cities of Oregon and Washington.

In Brief, And to the Point.

Dyspepsia is dreadful. Disordered liver is misery. Indigestion is a foe to good nature.

The human digestive apparatus is one of the most complicated and wonderful things in existence. It is easily put out of order.

Greasy food, tough food, sloppy food, bad cookery, mental worry, late hours, irregular habits, and many other things which ought not to be, have made the American people a nation of dyspeptics.

But Green's August Flower has done a wonderful work in reforming this sad business and making the American people so healthy that they can enjoy their meals and be happy.

Remember—No happiness without health. But Green's August Flower brings health and happiness to the dyspeptic. Ask your druggist for a bottle. Seventy-five cents.

LATEST NEWS BY TELEGRAPH

PORTLAND, Aug. 4.—The Oregon fish commission desire it stated to all concerned that owing to rumors of violations of the fishing laws, cannermen and fishermen are notified that all complaints made to the commission or any of its members will be given to the prosecuting attorney who will proceed against them.

KENTUCKY ELECTIONS. LOUISVILLE, Ky., Aug. 4.—Latest estimates on election: seventy-eight counties have reported so far, leaving forty-one to report. The figures are taken from most reliable dispatches, and agree with returns received at both Republican and Democratic headquarters. The average Republican gain per county from reports so far received is 325. In the same ratio the net Republican gains in the whole state will be 38,675.

DEATH OF A U. S. CONSUL. ST. THOMAS, Ontario, Aug. 4.—Alban Francis, United States consul, who was struck by a horse cart at the recent railway disaster here and badly injured, died suddenly this morning. Francis was over 73 years of age, and for over twenty years United States consul at St. Thomas and Port Stanley. His family reside at Victoria, and none of his relatives were at his bedside when he died. He was made United States consul at Victoria, B. C., by president Lincoln. One of his daughters is the wife of B. Z. Holmes, Portland, Or.

CRACKER BAKERY BURNED. BALTIMORE, Aug. 4.—A large cracker bakery burned this morning. Loss, \$500,000. One man was burned to death.

A TERRIBLE ACCIDENT. GREEN BAY, Wis., Aug. 4.—A beer kettle in Raper's brewery exploded last night, scalding seven men, six of whom died during the night. They are August Delforge and two sons, J. B. Herbe, John Beimet and George Herbe. Delforge and Beimet leave families. The kettle held 700 barrels of boiling water, which poured over the victims, literally cooking their flesh.

ON THE WARPATH. ATKIN, Minn., Aug. 4.—One hundred Indians in war paint are encamped near this city trying to secure release of squaws arrested yesterday for committing depredations. Citizens near camp are preparing for a fight, as serious trouble is feared.

DEATH OF A POPULAR ROMAN. ROME, Aug. 4.—The funeral of the late prime minister, De Pretz, took place to-day at Stradella. Twenty thousand people were present. King Humbert and others sent wreaths to be placed on the coffin. There was no religious ceremony, clergymen having been ordered to refuse rites of the church, owing to the fact that De Pretz died without having received the last sacrament.

THE FISHERIES DISPUTE. TORONTO, Aug. 4.—A cablegram from London says: Fresh proposals for settlement of the fisheries dispute have been submitted to the government by authorities at Washington. They were approved at Ottawa and have been favorably received by the imperial government, but are still under consideration. Details are not known, but it is understood that a more popular view of a possibility of a speedy settlement is now taken at the White house.

WILL KEEP AN EYE ON THEM. DUBLIN, Aug. 4.—The United Ireland publishes a copy of a circular which it asserts has been issued to the police directing that watch be kept upon movements of members of the house of commons belonging to the National League.

Section 2, of ordinance 212, says there shall be an election annually on the second Monday in August for chief engineer of the Astoria fire department and two assistants, and that the election shall be called by a newspaper notice ten days beforehand. This year the prescribed notice was not given, which, it is thought, would invalidate the election, were any held next Monday, the 8th, the day set by the ordinance. As the present incumbent will, doubtless, be re-elected anyhow, the omission will not be likely to occasion any trouble, except as to the matter of electing first and second assistants, should different candidates from those now occupying those positions be chosen, and even in that case, the matter can be very easily and harmoniously adjusted.

THE WATERWAY CONVENTION.

Committees, Resolutions and General Proceedings.

The Next Meeting to Be Held at Portland, in October, 1888.

The convention reassembled at ten o'clock yesterday morning.

President E. L. Smith announced the following committees:

Executive Committee—J. F. Halloran, Astoria, chairman; A. S. M. Alston, The Dalles; W. B. Daniels, Vancouver; E. D. McKee, Portland; J. S. Dement, Walla Walla.

Statistics—Jas. Young, Portland, chairman; B. S. Huntington, The Dalles; E. C. Holden, Astoria; W. T. Barney, Oregon City; Caleb Waters, Centerville; W. P. Gray, Pasco; W. T. C. H. Warner, Colfax; D. H. Stearns, La Camas; J. W. Smith, Arlington; J. W. Van Name, Kalama; Editor News, Wardner; R. O. Dunbar, Goldendale; Chauncey Barbour, Walla Walla; O. C. White, Dayton; Richard Monroe, Lewiston, I. T.

Committee on Progress and Necessities—M. C. George, Portland, chairman; J. Q. A. Bowby, Astoria; E. B. McFarland, The Dalles; H. S. Chapman, Walla Walla; Newton Clark, Wood river.

Committee on Killin resolution.—B. Killin, Portland, W. W. Parker, Astoria, Z. F. Moody, The Dalles, H. P. Isaacs, Walla Walla, J. W. Geoghegan, of Vancouver.

Committee on Canby Suggestions—Jas. K. Kelley, Portland, chairman; Geo. Pope, Portland; J. T. Gray, Astoria; Robt. Mayo, The Dalles.

The committee on memorial and resolutions submitted the following MEMORIAL.

To the Honorable, the Senate and House of Representatives of the United States.

Your memorialists, the Columbia waterway association, a body composed of delegates from the various boards of trade, and kindred organizations of the cities, towns and counties of the state of Oregon and territory of Washington, along the great valley of the Columbia river, at its third annual convention, would again most respectfully call your attention to the increasing necessity for an early completion of the canal and locks at the Cascades in said river. The great importance, indeed, the absolute necessity, of that improvement has been heretofore represented to you by this association, and it is also clearly and fully stated in the report of the senate committee on transportation routes to the seaboard, at the second session of the 49th congress (Report No. 1,775), and the facts therein stated we most respectfully reiterate and recall to your attention.

As shown by that report, the Columbia river drains an area of 245,000 square miles, and the wheat traffic alone along the Columbia river at the time of the investigations of that committee was over 20,000,000 bushels per year, and the traffic for the present year will, in the judgment of your memorialists, be fully one-third greater. In addition to the wheat traffic should be considered the large quantities of wood, the products of the mines, the stock ranges and other industries of this vast region, which is so rapidly developing, the only outlet for which is by way of the Columbia river. And until such time as the natural obstructions to the free navigation of that river, at the Cascades and The Dalles, shall be overcome, the producers of this fertile and productive region must remain wholly at the mercy of the railroad corporation which parallels the river and exacts a toll for freight transportation which approaches prohibition of production, and must not only retard the settlement and development of this important region but continually depress the industries now there in progress.

We therefore most earnestly represent to your honorable body the great importance of pushing the work of constructing the canal and locks to a speedy termination, and, in the opinion of your memorialists, not only does the increasing demand for these and the other improvements herein referred to require that appropriations commensurate with the importance of the work and sufficient to carry them forward uninterruptedly should be made but economy also dictates such a policy.

We would further represent, in order to make the river free for navigation and to enable the producers to enjoy the benefits of the construction of the canal and locks at the Cascades, it is necessary that a canal or boat railway should be constructed at The Dalles and Collio Falls, and it is the opinion of your memorialists that the most feasible plan for this improvement is a boat railway, and we most earnestly request that a sufficient sum to make surveys with the view of constructing such works be immediately made by congress.

What we have said of the importance of the above improvements applies also to the work already begun by congress for the improvement of the entrance to said river, as it is necessary to have a safe and secure entrance to this river which is the natural outlet and highway for a commerce already great and destined to become immeasurably greater proportions, for the cost of transportation in vessels depends on the size of the vessels that can enter the harbor, and the rate of insurance, which greatly depends on the safety of the entrance.

We therefore earnestly represent the importance of carrying the work forward without interruption in accordance with the adopted plans.

Your memorialists further pray that more adequate appropriations be made for the purpose of keeping an open river between Portland and the sea, as heretofore, by reason of the insufficient appropriations for that purpose, the citizens of Portland have been compelled to raise largess by private subscriptions, to carry on the work.

F. K. ARNOLD, HOLLOS PARKER, C. W. FULLER, F. A. McDONALD, W. F. GRAY.

On motion the report was adopted by the convention.

The following resolutions were passed:

Resolved, That the thanks of this association are due to the members of the senate and house of representatives of the last session of congress who favored the appropriations for the rivers and harbors of the northwest contained in the river and harbor bill of that session, and that it was with sincere regret that we learned of the failure of the bill to become a law.

Resolved, That the thanks of this association are especially due to our senators and representative in congress from Oregon and delegates from Washington and Idaho for their earnest, able and untiring efforts to secure appropriations for the improvement of the rivers and harbors of the northwest.

Resolved, That the president, secretary and treasurer of this convention be continued until their successors are elected, and that they be and are hereby constituted ex officio members of the executive committee.

Resolved, That the executive committee be requested to endeavor to secure the sum of \$2,000 for the purpose of collecting statistics and securing a complete description of the value of the produce, wheat, wool, cereals, lumber, and other products of the territory tributary to the Columbia, and that the executive committee be authorized to employ a competent statistician to travel and secure this information.

Resolved, That the executive committee may appoint suitable persons and they be authorized to solicit honorary membership in accordance with article four of the constitution, and that said committee, with the secretary, procure suitable lithographic certificates and an appropriate seal.

Resolved, That the following words be added to article 4 of the constitution, "and that the names of all honorary members be printed in each published report of this association."

On motion, a judiciary committee of five was appointed, as follows: C. H. Page, Astoria, chairman; W. B. Daniels, Vancouver; B. Killin, Portland; B. S. Huntington, The Dalles; W. H. Upton, Portland.

The following resolution was passed:

Resolved, That this convention respectfully calls the attention of congress to the fact that by reason of the condition of the bar at the mouth of the Columbia river, nine tenths of the foreign exports from the region drained by the Columbia and its tributaries are carried under foreign flags, to the detriment of the American shipbuilding industry and the serious hampering of the development of this region, and this can largely be remedied by completing the works now in progress for deepening the entrance to the river, as the foreign vessels are of light draft, while the American vessels, on account of their greater draft, being usually in excess of 22 feet, are virtually prohibited from entering the river, thus imposing a direct tax on the half million tons of grain now ready for shipment out of said river, as by reason of the said conditions the cost of freight and insurance are largely increased.

On motion it was ordered that 2,500 copies of the reports of the proceedings of the convention be printed.

On motion it was decided that the next meeting of the association be held in Portland during the October session of the Mechanics' Fair in Portland in 1888.

On motion a copy of the proceedings of the convention was ordered sent to each of the members of the committee on rivers and harbors.

On motion the thanks of the convention was cordially voted the Astoria chamber of commerce, the Odd Fellows Lodge, Capt. J. H. D. Gray of the U. S. N. Co., the press, and the people of Astoria for the courtesies extended.

On motion the convention adjourned.
