Health officer Estes was in Portland this week and told the newspaper men that Astoria was the healthiest city on the northwest coast, a fact that is readily conceded.

One thousand extra copies of the WEEKLY ASTORIAN are published this morning. It contains a full report of the proceedings of the Waterway Convention held in this city this week.

It takes considerable digging and grading and the removal of a large quantity of material to secure suitable foundation for the brick building to be erected on corner Main and Chenamus streets.

A two-inch tube well is being driven at Fort Stevens. At last accounts it was about 70 feet deep and yielding a very fair quality of water. Two dollars a foot is the price charged for driving it.

The "musical convention" and "choral union" gentlemen were not appreciated and left in disgust. They flooded the town with circulars, and thought Astoria yearned for them, but the yearn was all on their side.

The papers of the state are commenting editorially on the pardon of Robeson. Their verdict is that it was a case of mistaken clemency on the part of the executive. It is a matter on which there is great diversity of opinion.

Astoria has been the recipient of many deserved compliments from visitors during the week, and all who have been here have departed with a friendly feeling for the place and the people. This is one of the direct benefits of such visits and gatherings of representative men.

It will be remembered that at the time of the Frischkorn trouble, which resulted in the discharge of the defendants, Julius Udby, was indicted by the grand jury, convicted at the January term of the circuit court and sentenced to the penitentiary. Gov. Fenner has pardoned him out.

Among the items connected with

the salmon industry on the Columbia, the one of labels is important. There are about 30,000,000 labels sold in this city every year. Thirty million labels is a good many labels. They are supplied from New York, Boston and Philadelphia, at an average price of \$1.35 a thousand.

At their meeting last Thursday evening Alert H. & L. No. One, nominated L. W. Holt for the office of chief engineer to be voted for at next Monday's election. The company made no nominations for first or second assistants. The question now arises which of the two gets the most votes for chief engineer at Monday's election.

Last Thursday G. W. Nutter's scow was rounding Smith's Point with a load of wood when rude breezes made her list to leeward, some of her cargo slipping overboard. The crew shortened sail and the Electric coming along beached the craft near the oil works, with considerable of her cargo gone, but not in a wholly unseaworthy condition.

There was a fire alarm at 12:50 P. M. yesterday, and the cry was raised that Devil's cannery was on fire. The apparatus was got up there as speedily as possible, but to the great relief of everyone it was found that the cause of the alarm was of a more trifling nature. A small fire had caught in a house between the cannery and the Clatsop mill, and was quickly put out by the employes.

Capt. J. H. D. Gray desires it stated that the thanks of the committee of the Columbia Waterway Convention, tendered for free transportation, etc., were intended by the committee and should have been tendered to the Ilwaco Steam Navigation Co., who through their president, Mr. L. A. Loomis, tendered the use of their steamers to the Astoria Chamber of Commerce to assist them in entertaining their distinguished visitors.

A man who works all night and sleeps late in the morning writes to the Seattle Times of the 2nd, asking if something can't be done to stop the wandering of cows jingling cowbells in front of his house, and complains that he can't get needed sleep. Serves the blamed fool right for working nights. Let him go to bed at 7 in the evening. What in the world do people want to work at night for, anyhow? Have cows no rights in Seattle that newspaper workers are bound to respect? Give the cows a chance!

Hon. J. H. Slater, of the railroad commission, says that a large number of complaints are made verbally to the members of the commission by persons who decline to make their charges and specifications in writing, for fear that they would be punished by the roads. Same here: there isn't a day that someone doesn't want some body else "gone after," but declines to take hold of the matter themselves. When it is suggested that if the circumstances are as alleged they go ahead and make complaint and get the facts in shape, the usual reply is, "Oh, it wouldn't do for me to be known in the matter."

In one of his noble poems Tennyson pays just tribute to a man who thrice had plucked a life from the dead sweep of the down-streaming sea.

There are many on the Columbia river who in this and other seasons, in darkness and storm and surf, have held aloft their stricken comrades and borne them in safety, under circumstances of great personal peril, from the grasp of the tumultuous waves. They should have just and honorable recognition and suitable testimonial from the government that is always ready to recognize merit and bravery when proper representation is made of the facts.

Funeral of May Leinenweber.

The funeral of May Leinenweber took place from the residence of the parents at ten o'clock yesterday morning. Rev. E. W. Garner, LL. D., conducted the funeral services; the pall bearers were Chas. Brown, G. A. Charnock, J. T. Ross, Lee Levings, Fred Barker and Frank Young. After the conclusion of the services the body was conveyed on board the boat and accompanied by a large concourse of mourning friends, conveyed to the old cemetery at Clatsop, where all that was mortal of the beloved daughter was laid beside the remains of her grandfather and grandmother. Rev. F. T. McCormac conducted the funeral services at the grave.

Shed not for her the bitter tear, Nor give the heart to vain regret! 'Tis but the casket that lies here, The gem that filled it sparkles yet!

Monday's Fire Officers Election.

In addition to what has previously appeared regarding Monday's election for officers of the fire department, the usual notice of which has not been published, is published the following, being sec. 18 of chapter III. of the charter:

Judges and clerks of election must possess the qualifications of voters in the ward where they act as such, but a mistake, or error, in this respect, or a failure to give the notice required by sec. 14, shall not invalidate any election otherwise legal.

Sec. 14 refers to giving ten days' notice.

All difficulties are being adjusted satisfactorily to both sides and there are no additional failures reported to-day.

BEN IS CORRECT. BOSTON, Aug. 5.—During the recent convention of colored veterans in this city it was stated in the discussions that the first colored troops enlisted in the late war came from Massachusetts. Gen. B. F. Butler to-day publishes a letter in which he states this is a mistake. He asserts that in 1862, he enlisted three regiments of colored troops in New Orleans, and had them in action long before any other colored soldiers were used elsewhere. He writes the letter, he says, to correct an error in history.

NO LONGER FRIENDS. MILWAUKEE, Aug. 5.—A special to the Evening Wisconsin from Barab, Wisconsin, says E. K. Cowles of that city has been indicted by the grand jury at Sika, Alaska, for perjury and libel. Cowles made an affidavit and circulated it widely, charging governor Swineford with being guilty of pocketing the funds appropriated by the government to be employed in making a proper Alaskan exhibition at the New Orleans exposition; hence the proceedings against him. Governor Swineford and Cowles were once warm friends and considerable curiosity is manifested as to the cause of the present bitterness between them.

Give Them a Chance! That is to say, your lungs. Also your breathing machinery. Very wonderful machinery it is. Not only the largest air-passages, but the thousands of little tubes and cavities leading from them.

When these are clogged and choked with matter which ought not to be there, your lungs cannot do their work. And what they do, they cannot do well.

Call it cold, cough, croup, pneumonia, catarrh, consumption or any of the family of throat and nose and head and lung obstructions, all are bad. All ought to be got rid of. There is just one sure way to get rid of them. That is to take Boschee's German Syrup, which any druggist will sell you at 75 cents a bottle. Even if everything else has failed you, you may depend upon this for certain.

Fall of Honors.

It is said that Hon. Joe Simon holds the positions of police commissioner, state senator, president of the republican state central committee, and secretary of the Oregon Improvement company. To these might be added "Knifer of J. B. Waldo," the regular republican nominee for supreme judge at the last election. A man should have all the honors that belong to him.—Salem Sentinel.

BABY HUMORS

And all Skin and Scalp Diseases Speedily Cured by CUTICURA.

Our little son will be four years of age on the 25th inst. In May, 1885, he was attacked with a very painful breaking out of the skin. We called in a physician who treated him for about four weeks. The child received little or no good from the treatment, as the breaking out, supposed by the physician to be hives in an aggravated form, became larger in blotches, and more and more distressing. We were frequently obliged to get up in the night and rub him with soda in water, strong liniments, etc. Finally, we called other physicians, until no less than six had attempted to cure him, all alike failing, and the child steadily getting worse and worse, until about the 25th of last July, when we began to give him CUTICURA RESOLVENT internally, and the CUTICURA and CUTICURA SOAP externally, and by the last of August he was so nearly well that we gave him only one dose of the RESOLVENT about every second day for about ten days longer, and he has never been troubled since with the horrible malady. In all we used less than one half a bottle of CUTICURA RESOLVENT, a little less than one box of CUTICURA, and only one cake of CUTICURA SOAP.

SCROFULOUS HUMORS. Last spring I was very sick, being covered with some kind of scrofula. The doctors could not help me. I was advised to try the CUTICURA RESOLVENT. I did so, and in a day I grew better and better, until I am as well as ever. I thank you for it very much, and would like to have it told to the public. EDW. HOFMANN, South Attleboro, Mass.

SKIN DISEASE CURED. Mr. Frank McClosky says that your CUTICURA RESOLVENT cured his boy of a skin disease after several doctors had failed to help the boy. He spent over one hundred dollars with doctors. CUTICURA RESOLVENT cured him. J. E. TIFFANY, Pleasant Mount, Pa.

CUTICURA, the great skin cure, and CUTICURA SOAP prepared from it, externally, and CUTICURA RESOLVENT the new blood purifier, internally, are a positive cure for every form of skin and blood disease from pimples to scrofula.

Send for "How to Cure Skin Diseases," PINPLES, Blackheads, Skin Rash, etc., and Baby Humors, use CUTICURA SOAP.

A Word About Catarrh. It is the mucous membrane, that wonderful semi-solid envelope surrounding the delicate tissues of the air and food passages, that Catarrh makes its stronghold. Once established, it eats into the very vitals, and renders life but a long-drawn breath of misery and disease, dulling the sense of hearing, trammeling the power of speech, destroying the faculty of smell, tainting the breath, and killing the refined pleasures of taste. Insidiously, by creeping on from a single cold in the head, it assaults the membranous lining and envelopes the bones, eating through the delicate coats and causing inflammation, stinging and death. Nothing short of total eradication will secure health to the patient, and all alleviations are simply procrastinated sufferings, leading to a fatal termination. SANFORD'S RADICAL CURE, by Inhalation and by Internal Administration, has never failed; even when the disease has made frightful marks on delicate constitutions, bearing smell and taste have been recovered, and the disease thoroughly driven out.

SANFORD'S RADICAL CURE consists of one bottle of the RADICAL CURE, one box CATARRHAL SOLVENT, and one IMPROVED CATHARTIC, neatly wrapped in one package, with full directions; price, \$1.00.

Unnecessary Misery. Probably as much misery comes from habitual constipation as from any derangement of the functions of the body, and it is difficult to cure, for the reason that no one likes to take the medicines usually prescribed.
