SAN FRANCISCO, Aug. 5.—The latest advices from northern ports verify statements heretofore made to the effect that the salmon catch this year will be light. Dispatches received to-day from the Columbia river, state that a ean vas of all the canneries shows a total pack of 324,460 cases, this being 100,000 less than put up last year, 200,000 less than in 1885 and 300,000 less than in 1884. The pack on the Sacramento river is too light to note. Advices from Fraser river, British Columbia, continue discouraging. The Alert bay fisheries have been a failure One canner who contracted to de liver 10,000 cases of salmon has only been able to put up 3,000. On the pack of Alaska much now depends. Eastern Alaska bas reported a fair pack to date. Western Alaska is too remote to hear from yet. The Alaska pack will probably amount to 100,000 cases the largest amount ever produced by that territory. All dealers are oversold on Columbia river salmon and none is to be had to fill orders. Quotation for Oregon brands is \$1.55; Alaska, \$1.40 to

A Feasible Scheme.

SEATTLE, W. T., Aug. 5 .- News comes from Port Townsend, W. T., to-day to the effect that a great scheme is now under way by San Francisco, Sacramento and Washington territory capitalists to send, on Puget Sound, to the mouth of the Columbia river, and probably to Portland. Oregon A build a railroad from Port Townprobably to Portland, Oregon. A company is to be incorporated with a capital of \$3,000,000. Terminal property on Port Townsend bay has already been favorably looked upon. It is supposed that Central Pacific people are backing the scheme. The country to be passed through is rich in tillable land, timber and mines.

It is estimated that there are 3,000,000 working women in Engand, about one-half of whom are in domestic employment. Fur-ther, that half the working class families of the land are maintained by the work of women's hands at extremely low wages.

CRUCIBLE

About twenty years ago I discovered a west ore on my cheek, and the doctors proit cancer. I have tried a number of physics but without receiving any permanent benefit Among the number were one or two The medicine they applied was like fire to the sore, causing intense pain. I saw a statement in the papers telling what S. S. S. had done for others similarly afflicted. I produced some at once. Before I had used the second bottle the neighbors could notice that my cancer was healing up. My general health had been bed for two or three years-I had a hacking cough and spit blood continually. I had a severe pain in my breast. After taking six bottles of S. S. S. my cough left me and I grew stonter than I had been for several years. My concer has healed over all but a little spot about the size of a half dime, and it is rapidly disappear ing. I would advise every one with cancer to give S. S. S. a fair trial.
