The English Ge-Cart.

Of all the silly imitations of English customs, perhaps the sillies is the use of the clumsy, teetering, unsafe and uncomfortable English two-wheeled go-cart in place of the easiest, lightest and handsomest vehicle in the world, the American buggy. The merits of the American construction are recognized in England if not here, as witness the following paragraph from a recent number of the London Field: "These American wagons are fast coming into favor in this country among people who like to travel fast, and yet do not care to run the risks always entailed upon two-wheeled traveling. The American wagon, though it has four wheels, is safe, weighs less, andruns more easily than any two-wheeled trap in England." This is doubtless true; and it ought to make both Englishmen and Americans laugh at anybody who for a fashienable whimsy discards a good buggy and takes up a poor cart.—[Buffalo Express.
