J. E ROSS. Corner Squemoqua and Hamilton streets, east of C. H. Cooper's. Land Grant Wagon Roads.

The official investigation into the Oregon land grant wagon roads began at Salem in this state on Wednesday. The commissioners appointed by secretary Lamar are: John B. McNamee of Cleveland, O., and Gabriel C. Wharton they did remarkaly well, and this of the general land office. There year Mr. D. estimates that he will was quite a large attendance of have nearly 30,000 pounds of as attorneys and officers of the differ-ent wagon road companies. The As the best hops are at present investigation will occupy some time, and there can be hardly any doubt in the minds of people who have traveled over these so-called wagon roads, that some of them, at any rate, should forfeit their land grants for not having honestly earned them. The commissioners will hold their next session at The Dalles, traveling over that road, then over the Albany road, and er by the 1st of September .next over the Eugene road. It is to be hoped that they will also make an examination of the Coos bay road, which is one of the most palpable frauds upon the government that was ever perpetrated.—
Portland Journal of Commerce.

An Awful Orime-

In Los Andes, Chili, lived a man who hated a family that resided near him. When small pox appeared in the province recently he secretly obtained a number of dried pustules, and these he placed inside a plug of tobacco, which he threw away in a place where the people he hated were likely to see it. One of the children picked up the tobacco and gave to her parents, who made eigarettes from it and smoked them. A few days afterward small pox broke out in the house, and with such virulence that not one of the family escaped. The criminal, however, was attacked with the disease a few days afterward and died after confessing his crime.

Wrong Kind of Immigrants.

A recent dispatch from Wash ington says that the commercial agent at New Caledonia, South Pacific ocean, has reported to the Fine Billiard Tables: Best of Wines department of state that convicts in the colony are being liberated with an understanding that they must not settle in any English or French colony, and, as a consequence, a majority are going to San Francisco. He also says that a proposition is now before the local parliament to appropriate \$1,000 for landing in San Francisco all the worst of these men, as they will not be received in Tahiti or elsewhere. The French government, he also says, are offering Agent for the Thingvalla Steamship Line a subsidy of £120 per month for a steamer to run between Nesume and Tahiti, and thence to San Francisco, for the purpose of assisting these immigrants to

Pioneer Hop Grower.

Southern Oregon grows a most superior article in the hop line, so says our pioneer hop grower, J. S. Denise. He has ten acres of hops on the Applegate, which were put in three years ago. Last year worth 18 cents per pound it can be seen at a glance that those ten acres will pay a nice profit. Allowing a very liberal figure for expenses, we could still count on \$200 profit per acre, which certainly is not a result to be despised. Mr. Denise grows the variety known as English cluster, and he expects they will be ready to gath-Courier.

A novel sight was witnessed at Indianapolis recently as the result of the high temperature of the past three weeks. Sometime ago a firm received a consignment of eggs packed in boxes after the usual manner. The eggs were placed in storage and the other day the consignee had reason to open the cases. When the lid was removed the low call of chicks sounded in his ears. One entire layer of eggs was found to be hatching out. In a few minutes after the eggs were brought to the light, fifteen well developed "orphans" pieked their way through the shell. Another layer began to hatch out about noon, and it began to look as though the entire consignment would hatch.
