It is easier to develop a boom than to manufacture one. This continues to be repeated because it cannot be improved, and the force of the remark lies in its application.

Jno. T. Flynn, an enterprising real estate dealer, went to San Francisco on yesterday's steamer. He proposes to swing through southern California and steer some of the boom this way.

Vessels going from the sound to San Pedro will in future be searched for unstamped opium, small lots of that lethal drug having been on several occasions found in the forecastle.

The Yaquina *Post* says: From the formidable preparations to catch salmon here this season, we are confident the output will astonish the natives this fall, or else the salmon won't put in an appearance. If they ever come in they are goners.

The government vessel *McArthur* has completed the survey of the entrance to Shoalwater bay, and will now work off-shore about fifteen miles, until Gray's Harbor is reached, which will then be surveyed. About the middle of October she will return to San Francisco.

The fourth annual convention of the Young Men's Christian Associations of Oregon, Washington territory and British Columbia will be held in The Dalles, Sept. 22nd to 25th. E. C. Frost, chairman of the executive committee, Portland, will give all particulars.

Capt. Charles F. Powell says work at the Cascade locks is progressing fairly, and as the river recedes the force of men is increased. The employes are now engaged in excavating, cutting stone for the masonry, laying paving on the slope of the canal above the lock and quarrying stone for the concrete.

Mrs. Lilly, mother of W. W. Lilly, of Oysterville, fell from the rear Pullman car of the Northern Pacific train twelve miles west of The Dalles on the 5th inst. She struck on her head and was badly stunned. She was brought to St. Mary's hospital in this city, and slowly sank away, dying at 10:30 last night.

Fifty dollars a side was put up last night for a race to-morrow afternoon by the sloops *Rambler* and *Uncle Ed*, over the same course sailed by the fishing boat race last Fourth of July. Wallace Stuart, of the *Rambler*, bets Dan Rodway, of the *Uncle Ed*, that the former will beat the latter three minutes over the course.

While engaged in painting the inside of his new building, yesterday afternoon, our venerable townsman, Wm. H. Gray, fell from a scaffolding a distance of eight feet, fracturing the bone in his right thigh and also his right wrist. Drs. Baker and Fulton were summoned and all possible done to alleviate his suffering. He was resting easily yesterday evening.

The 5th of September, the anniversary of Geronimo's surrender to Gen. Miles, has been set as the day for presentation of a sword to him. The sword was made by Tiffany & Co., of New York, and cost $1,000. Over 2,000 people contributed from all sections of Arizona. The presentation ceremony will be at Tucson, and is expected to be the grandest occasion ever witnessed in Arizona.

Trouble on board the sloop *Rambler* lying at Kinney's dock yesterday afternoon resulted in an employe named Olaf Quam being knocked insensible by a blow from behind. Wallace Stuart, the captain of the craft, was arrested on complaint of Quam, charged with assault and battery, and promptly gave bail for his appearance before justice Cleveland at seven o'clock this evening.

One of our musical contemporaries warbles as follows: "A little green apple hung up in a tree, calling 'Johnnie, come Johnnie, come Johnnie, come Johnnie;' and it was modest as modest could be, calling 'Johnnie, come Johnnie, come Johnnie.' And Johnnie he came in his sweet childish way, and ate up that fruit as his own lawful prey. The angels in heaven are singing to-day, 'here's Johnnie, here's Johnnie, here's Johnnie.'"

A story of horrible depravity comes from Tenino, Thurston county, W. T. A man named Lewis left his sick wife and seven little children at a farm house to bring a doctor. He went to Olympia and there got drunk and did not return until sent for four days later, when the dead and decomposing body of his wife was found by the neighbors. The children were in a famished condition when found, nothing to eat having been left in the house. Two of them are not expected to recover.

On Wednesday's overland train, says the *Telegram*, arrived a Mrs. Jane O'Mears with three children, from Keokuk, Iowa. She came here on a strange mission, that is in search of a husband who left her three months ago, bound for Astoria, as he claimed. Mrs. O'Mears stated that O'Mears is the fourth husband that left her never to return, in the past seven years; and as she thinks more of the latter than the other three she concluded to follow him. Mrs. O'Mears looks about 45 years of age and doesn't appear as if she had spirit enough to tire out so many husbands.

Over at the Seaside the other day a lady rubbed phosphorus on her bunion, presumably, to ease the pain, and then retired to her downy couch. Along in the night her husband, who was a drinking man, by the way, thought he saw a fiery eye looking at him. He imagined that he saw a frightful winged monster with one blazing eye, staring at him; and after standing it as long as he could, he decided to kill it. Slowly he reached under the bed till he found his bootjack, and after spitting on his hands, he whaled away. The next moment his poor wife gave a yell that nearly lifted him out of bed, but when he found out the true state of affairs he was immensely relieved, even though his wife has been obliged to walk on crutches ever since.

Church Fair and Sociable.

The ladies and society of the Norwegian Lutheran church will give a Fair and Sociable at the Upper Astoria church on Tuesday, the 23d inst., beginning at 7:30 P. M. All are invited to attend. Refreshments will be served. Come.

Some Fine Photographs.

Bert Towne, the artist of Portland, here a few weeks since with the Fish Commission, under appointment from Major Jones, at which time several views were taken of scenes on the Columbia. He has sent a full set of these to the Occident, and duplicates may be obtained of Mr. Megler. They are really fine pictures of the Lower Columbia.

BURNED IN MID-OCEAN.

"City of Montreal" Totally Destroyed.

LONDON, Aug. 19.—The Inman line steamer *City of Montreal* was destroyed by fire at sea and thirteen persons aboard are missing. The *City of Montreal* left New York August 6th for Liverpool, commanded by Capt. Land. The news of her destruction was learned upon the arrival at Queenstown this morning of the British steamer *York City*, Capt. Benn commanding, which left Baltimore August 4th for London. This steamer rescued the survivors from the burning vessel and brought them to Queenstown. The burning of the steamer occurred on the 11th inst., five days after she left New York. A boat containing six passengers and seven members of the crew is missing. The occupants of this boat are thirteen persons and are reported to have perished. The ill-fated steamer had 420 passengers on board.

NEWS FROM THE "BEAR."

PORTLAND, Me., Aug. 19.—A letter received a few days ago by Rev. Father Healy, written by his brother, Capt. Healey, of the revenue steamer *Bear*, announced that he had beached his vessel, constructed a coffer-dam, found the leak, replaced the copper, and had gone on his northern voyage. The rumor of the loss of the *Bear* is therefore contradicted by the captain's report.

A BANK FAILURE.

LONDON, Aug. 19.—The Bank of London suspended payment this morning. The bank had a subscribed capital of one million of dollars, of which $223,588 is paid up. Very little loss is anticipated by the stockholders.

HAVE INCLUDED THE LEAGUE.

LONDON, Aug. 19.—In the house of lords this afternoon lord Salisbury announced that the government had proclaimed the Irish national league.

WHOLESALE LOSS OF LIFE.

SAN FRANCISCO, Aug. 19.—The China steamer *City of New York* reports that during a recent storm on the Hau river a number of boats broke adrift and were swept down by the current, breaking away other boats with which they came into collision, until the mass of junks and boats were driven into the Yangtsze and piled up against the rows of ocean steamers at anchor in the river. Many of them were capsized and all were more or less injured. The loss of life was enormous as the occurence took place in the night. It is not known how many were drowned.

GOT BACK ALL RIGHT.

NEW YORK, Aug. 19.—Mutual district messenger Sanger returned this morning from Europe on the steamer *Germanic*, having satisfactorily delivered the souvenirs entrusted to him by manager Frohman, of the Lyceum theater, for his friends in London. Young Sanger says he had a delightful trip and was splendidly treated. He denies the story of his arrest for violating the English postal laws, and says that story was a hoax.

Give Them a Chance!

That is to say, your lungs. Also your breathing machinery. Very wonderful machinery it is. Not only the larger air-passages, but the thousands of little tubes and cavities leading from them.

When these are clogged and choked with matter which ought not to be there, your lungs cannot half do their work. And what they do, they cannot do well.

Call it cold, cough, croup, pneumonia, catarrh, consumption or any of the family of throat and nose and head and lung obstructions, all are bad. All ought to be got rid of. There is just one sure way to get rid of them. that is to take Boschee's German Syrup, which any druggist will sell you at 75 cents a bottle. Even if everything else has failed you, you may depend upon this for certain.

Around the Point.

There is a good road from Trullinger's mill skirting the shore and around Smith's Point, and on these pleasant days it is a favorite drive. With a little straightening of the crooks and a little opening toward the bluff it will make an excellent road, and one that affords a much needed outlet. Col. Taylor contemplates some improvements in this line which will be of material benefit. In the course of an hour's drive nine buggies and wagons were counted on the road, and the Clatsop ferry seemed to be doing a good business in the way of transfer, affording means of getting to and from the city that are embraced by many.

The Chinese gardens on the south side of Smith's Point are a good illustration of what patient industry can do. These indefatigable folks have taken a fertile but unpromising looking tract, and have dammed reservoirs, dug ditches, and so thoroughly cultivated the soil that they raise most luxuriant crops of all kinds of garden vegetables. They have cleared about $2,000 off one little six acre patch of truck this season, and there are four other gardens that they are yearly enlarging and reclaiming from the stumps and fern that cover so large a part of the tract.

Unnecessary Misery.

Probably as much misery comes from habitual constipation as from any derangement of the functions of the body, and it is difficult to cure, for the reason that no one likes to take the medicines usually prescribed. HAMBURG FIGS were prepared to obviate this difficulty, and they will be found pleasant to the taste of women and children. 25 cents. At all druggists. J. J. Mack & Co., proprietors, S. F.

BABY HUMORS

And all Skin and Scalp Diseases Speedily Cured by Cuticura.

Our little son will be four years of age on the 23th inst. In May, 1885, he was attacked with a very painful breaking out of the skin. We called in a physician who treated him for about four weeks. The child received little or no good from the treatment, as the breaking out, supposed by the physican to be hives in an aggravated form, became larger in blotches, and more and more distressing. We were frequently obliged to get up in the night and rub him with soda in water, strong liniments, etc. Finally, we called other physicians, until no less than six had attempted to cure him, all alike failing, and the child steadly getting worse and worse, until about the 20th of last July, when we began to give him CUTICURA RESOLVENT internally, and the CUTICURA, and CUTICURA SOAP externally, and by the last of August he was so nearly well that we gave him only one dose of the RESOLVENT about every second day for about ten days longer, and he has never been troubled since with the horrible malady. In all we used less than one half a bottle of CUTICURA RESOLVENT, a little less than one box of CUTICURA, and only one cake of CUTICURA SOAP.

A Word About Catarrh.

"It is the mucous membrane, that wonderful semi-fluid envelope surrounding the delicate tissues of the air and food passages, that Catarrh makes its stronghold. Once established, it eats into the very vitals, and renders life but a long-drawn breath of misery and disease, dulling the sense of hearing, trammelling the power of speech, destroying the faculty of smell, tainting the breath, and killing the refined pleasures of taste. Insidiously, by creeping on from a simple cold in the head, it assaults the membranous lining and envelopes the bones, eating through the delicate coats and causing inflammation, sloughing and death. Nothing short of total eradication will secure health to the patient, and all alleviatives are simply procrastinated sufferings, leading to a fatal termination. SANFORD'S RADICAL CURE, by *Inhalation* and by *Internal* administration, has never failed; even when the disease has made frightful inroads on delicate constitutions, hearing, smell and taste have been recovered, and the disease thoroughly driven out."

SANFORD'S RADICAL CURE consists of one bottle of the RADICAL CURE, one box CATARRHAL SOLVENT, and one IMPROVED INHALER, neatly wrapped in one package, with full directions; price, $1.00.
