

The Daily Astorian.

ASTORIA, OREGON: THURSDAY, AUGUST 27, 1887

The Miles goes to Gray's Harbor to-morrow.

The Gray's harbor trade assumes unusual proportions this fall.

Riley and Harrison have started a broom factory at Tongue Point.

Who is the present owner of the Astoria street railway franchise?

Select Knights of A. O. U. W. meet to-night. A full attendance is requested.

Capt. J. G. Hustler, school clerk district No. 1 gives notice regarding school taxes.

H. Wise directs attention to his stock of goods and the inducements he offers purchasers.

Peter Johnson, the five-year-old son of John Johnson, fell last Tuesday afternoon, breaking his right arm.

The two-year-old boy of Alex. Gilbert fell out of his buggy yesterday morning and dislocated his right arm.

The Columbia sailed yesterday. She took 800 cs salmon and 1,500 bundles shooks. The State is due this morning.

The lumber business on the river and the sound is only limited this season by the inability to get sufficient vessels to deliver it.

"Follow the crowd" is a good motto, especially when the crowd is going to C. H. Cooper's to select clothing from his large assortment.

If you have any trade dollars exchange them for standard dollars before next Thursday. After that they are only worth their weight as silver ballion.

Mrs. Bitterling, a resident of Chadwell, died in child birth at that place at one o'clock last Monday afternoon. She leaves a husband and six small children.

Co. "H," officered by Capt. A. E. Shaw, and Lieuts. Shute and Tarbell, had a drill last evening in which they displayed their usual proficiency and evidence of careful drill.

The excursion of the Methodist and Baptist Sunday schools on the Electric yesterday resulted in a pleasant trip and an enjoyable day to old and young, the company arriving back at seven o'clock last evening.

Three car loads of watermelons came from southern Oregon yesterday afternoon. Astoria is a great market for watermelons, as they can be had here without the slightest danger of injurious results.

The four-year-old son of Wm. Allen, proprietor of the Parker House, fell from broken planking into the water below, and only by the most prompt and strenuous exertions was the little fellow saved, yesterday afternoon.

Now is a good time to get in and secure a little slice of real estate before the jump in prices. There are times in a man's life when he can't make any money, but one of the times is not just before the chance comes for judicious investment.

H. E. Conoley, of San Diego, arrived here last Friday and on Sunday he and Miss Gertrude A. Bullard, of Pacific county, were united in the bonds of matrimony. The young couple left on the Columbia yesterday for their southern California home.

The president and secretary of the chamber of commerce yesterday sent to Brig.-Gen. Greely, chief of the U. S. signal service, a communication setting forth in fitting terms the necessity for prompt communication with the Cape Hancock station, and directing his attention to the present useless condition of the Columbia river cable.

At a meeting of the chamber of commerce last Monday evening a letter was read from a resident of San Francisco saying that if a cash bonus of \$150,000 was raised and the fact communicated to New York city residents that it would insure the building of a railroad to Astoria to connect with one of the railroads running into Portland, in one year's time.

A good advertisement in a newspaper that has some considerable circulation pays no fare on railroads or steamboats; costs nothing for hotel bills; gives away no boxes of cigars to customers, or merino dresses to customers' wives; drinks no whiskey under the head of traveling expenses; but it goes at once and all the time about its business, free of expense.

To-day's Oregonian contains an article on the timber lands in this vicinity, treating on an important item in our wealth. The want of accurate information on this matter has impelled some of our public spirited citizens to get together statistics now in progress, to place where it will do the most good regarding the extent and value of the timber of Clatsop county.

Burke and Erb, confined in the county jail, were found last Monday to have an iron bolt in their possession and to have pried up two bolts in an attempt at freedom. The "Oregon boots" that they carry would have kept them from going very fast or very far if they had got out, but they keep right on damaging the county property to their limited extent.

It is said that nearly all the women of the Salvation Army have a heart worked in India ink upon the right shoulder. In case any one of them is taken sick or dies away from

home, or in a foreign country, the sign of the heart will entitle her to care or a suitable burial at the expense of the organization, no matter whether she is or is not in good standing.

Second lieutenant James A. Swift, of the signal corps, recently assigned to the charge of all United States military telegraph lines transacting commercial business of the Pacific coast, with his station at Ashland, Or., will go on duty on the 5th prox. It is thought that soon after that date he will visit Astoria with a view to looking into the matter of the broken cable between here and Ft. Canby and see if the break is irretrievable.

The Clatsop Mill Co.'s new vessel will be launched from her ways in front of the Astoria Iron works at six o'clock this evening. She was built by Joe Leathers and has been praised by all who have seen her. She is 68 1/2 feet long, 16 1/2 ft. beam and will draw about 5 feet. Her machinery is all in her and she will receive finishing touches after she gets in the water. The mill company will use her for towing logs, etc. She will be called the Tonquin.

The opium law sets forth that a physician prescribing opium to a patient shall keep a record book of each prescription, when and to whom and how much and what for. As it is contrary to all accepted tenets of medical ethics for a physician to divulge professional secrets, it is not improbable that a test case will be made as to the ability of a statute to compel a medical attendant to tell on demand who he prescribed opium to and for what complaint.

The committee on fire and water, chief engineer Worsley and engineers Scott and Hare of No. 1 and No. 2, examined the new boiler of the Amoskeag yesterday. Supt. John Fox, of the Astoria Iron Works, having notified them that she was ready for inspection. A pressure of 120 lbs. steam was given and the test was pronounced satisfactory. She was accepted by the inspectors, and housed, and Astoria No. One's engine, after an absence from the building of three months, is again in service.

Going to Samish.

The steamer May Queen will leave Yeiser's wharf this morning at 9 o'clock with the crew, fixtures and machinery for the cannery to be established on the Samish by Messrs. Hanford & Co., of this city. The cannery will not be on the river, but on an island near the mouth of the river. A small plant will be put in just as an experiment, and if it proves successful, a larger and better plant will be put in next season. Mr. Lord, who has been engaged in canning on the Columbia since 1875, is the managing partner in the enterprise and will have charge of it. Chinamen will be employed inside the cannery.—Seattle Post-Intelligencer, 21.

A Word to the Wise.

To-day Carl Adler will take down the clock in front of the Crystal Palace. No doubt it will be missed, but you will miss a good deal more if you don't secure some of the great bargains we are now offering at the Crystal Palace. We will commence to pack up shortly, but we have a large lot of goods which we can not pack and as we intend going into different lines we can save you 50 per cent. on Books, Stationery, Baby Carriages, Musical Instruments, Picture Frames, Glassware, Silverware, Clocks and a thousand other articles which you will have use for. Remember you can now secure bargains; when you are gone it will be too late and you'll never get goods at such low figures in Astoria again after we have removed The Crystal Palace.

LATEST TELEGRAPHIC NEWS.

WASHINGTON, Aug. 24.—President Cleveland replies to the charge of the New York World that he was not supporting the Pacific railway commission, by producing a dispatch sent by him to chairman Pattison authorizing the latter to employ counsel in the proceedings against Leland Stanford.

A SENSIBLE VIEW. LONDON, Aug. 24.—The Telegraph commends the American peace memorial and says: "There should be no question burning enough to justify war between two great English speaking nations who are of common blood and have a common language and literature. If the memorial proves successful it might lead to European international arbitration."

THE MISSING BOAT PICKED UP. LONDON, Aug. 24.—The City of Montreal's missing boat has been picked up, and seven passengers and six of the crew were safe and well. The rescue was made by the German vessel Mathilde, which arrived at Falmouth to-day.

THE DYING GOVERNOR. SAN FRANCISCO, Aug. 24.—Governor Bartlett rested easy during the night, several times he had fallen asleep; his mind is perfectly clear; at different times he has conversed as usual, though his voice is thick, as it has been all day, and he had difficulty in using it. Dr. Perry and Mrs. Dr. Buckel are still with him. Early last evening he engaged in giving directions as to affairs of state and private matters, being fully aware of the imminence of death. Columbus Bartlett, a brother of the governor, remained up all night. He said the kidney complaint with which he had been affected so long has been expected to result fatally, but his brother bore up cheerfully, although he knew death was approaching. "He may die in twenty minutes or he may live a week," concluded Mr. Bartlett.

A REDUCTION IN RATES. SAN FRANCISCO, Aug. 24.—The Southern Pacific company, in deference to a suggestion of the state railroad commissioner, has decided to reduce the four cent per mile rate to three cents and the five cent rate to four, and the six cent rate to five, on all lines controlled by the Central or Southern Pacific. This will reduce the rate from San Francisco to Los Angeles from \$21.70 to \$15; the rates to Fresno will be reduced from \$7.60 to \$5.90. It is expected that the reduction will take place on September 1st.

A DROP IN WHEAT. SAN FRANCISCO, Aug. 24.—The wheat market dropped this morning to \$1.35, a decline of 9 cents from the close yesterday.

INSTANTLY KILLED. ALBANY, Or., Aug. 24.—Mrs. Rodgers, aged 72 years, the wife of John Rodgers, a well-to-do citizen of this city, was run over to-day by a hotel bus and instantly killed. The coroner's jury rendered a verdict of accidental death.

INTEREST APPLICATIONS. WASHINGTON, D. C., August 24.—The total amount of bonds on which application for the payment of advance interest has been made is a little over \$61,000,000. This is a much smaller offering than was expected, and secretary Fairchild thinks it is a sign of financial ease throughout the country. The secretary offered to advance six months' interest on the entire bonded debt, including the bonds of the Pacific railroads, with a rebate at the rate of 2 per cent. per annum. The applications received are from the holders of registered bonds. There are outstanding in 4 and 4 1/2 per cents, nearly \$988,000,000, of which only \$158,000,000 are coupon. The amount of advance interest included in the secretary's offer is over \$22,000,000, yet the sum applied for is less than \$5,000,000.

The secretary's offer stands until January 1 next, but it is considered doubtful whether individual holders will ask for the advance interest with a rebate. Three months' interest on the 4 1/2s will be due September 1. On October 1 the quarterly interest will be payable on the 4s. Activity in business may induce applications for an advance on the December and January interest, as money could thus be obtained from the treasury at a very small discount.

Three Favorites

Have the following to say of Wisdom's Robertine, the great beautifier and preserver of the complexion: PORTLAND, Or., June 4, 1887. To Mr. W. M. Wisdom—Dear Sir:—I have tried your Robertine. It is excellent, and I shall be pleased to recommend it to all my lady friends. Believe me, yours truly, R. B. BARK.

PORTLAND, Dec., 1885. To Mr. W. M. Wisdom—The "Robertine" you so kindly sent me is excellent. It is the finest preparation I have ever used, and is a decided acquisition to every lady's toilet. Yours truly, J. TREMBELL.

PERSONAL MENTION.

H. F. Beecher, of Port Townsend, is at the Occident.

Brig.-Gen. J. C. Duane, chief U. S. engineers, is in Portland, and is expected here.

Dr. Jay Tuttle has so far improved as to be able to sit up, but he is still unable to leave his room.

J. F. Ryan was yesterday the delighted recipient from his many admirers of a fine silk hat that makes up in beauty what it lacks in size.

Mr. M. J. Conolly, representing the carriage factory of Tom Conolly of Dubuque, Iowa, the largest and finest west of Chicago, was in the city yesterday and sailed for San Francisco on the Columbia.

Give Them a Chance!

That is to say, your lungs. Also your breathing machinery. Very wonderful machinery it is. Not only the larger air-passages, but the thousands of little tubes and cavities leading from them.

When these are clogged and choked with matter which ought not to be there, your lungs cannot half do their work. And what they do, they cannot do well.

Call it cold, cough, croup, pneumonia, catarrh, consumption or any of the family of throat and nose and head and lung obstructions, all are bad. All ought to be got rid of. There is just one sure way to get rid of them, that is to take Boschee's German Syrup, which any druggist will sell you at 75 cents a bottle. Even if everything else has failed you, you may depend upon this for certain.

Exploded When Kicked by the Male.

A remarkable case of dynamite explosion is reported by Henry Simpson, a resident of the Point. Simpson has been using dynamite for the purpose of blowing several old stumps out of the ground, and carelessly left the dangerous compound lying by the side of a stump on which he intended to begin operations. The dynamite was mixed with sawdust and gave an exceedingly pleasant odor, which attracted the attention of two of Simpson's hogs, which soon had converted themselves into gigantic cartridges. The stuff, when eaten, creates a peculiar sensation, which annoyed the hog to such an extent that it entered Simpson's stables and began rubbing its side against a post at the mouth of a man's stall. The mule remained passive for but a few moments, when it gave the hog a terrific kick in the side. A tremendous explosion followed, and after the clearing away of the smoke and dust, the hog was to be found only in detachments, while an enormous aperture marked the spot where it had stood. The mule had received a tremendous shock, but was still intact. The other hog is now running at large, greatly to the terror of the entire neighborhood.

Heart Disease!!!

Read the hospital reports, read the mortuary reports, read the medicine publications, read the daily newspapers, and learn how wide-spread is this disease, how difficult of detection it is to most people, how many and how sudden are deaths it causes. Then read Dr. Flint's Treatise on Heart Disease, and learn what it is, what causes it, what diseases it gives rise to, what its symptoms are, and how it may be attacked. If you find that you have heart disease, ask your druggist for a bottle of Dr. Flint's HEART REMEDY. The treatise may be had on application to J. MACK & CO., Nos. 9 and 11 Front street, S. F.

Dying at the Ebb of the Tide.

Within the last five years, in a district embracing sixty square miles or so by the sea, I have noted the hour and the minute of no less than ninety-three demises in my own immediate practice, and every soul of them has all gone out with the tide, save four who died suddenly by fatal accident.—Physician, in Medical Press.

Excitement in Texas.

Great excitement has been caused in the vicinity of Paris, Tex., by the remarkable recovery of Mr. J. E. Conley, who was so helpless he could not turn in bed, or raise his head; everybody said he was dying of Consumption. A trial bottle of Dr. King's New Discovery was sent him. Finding relief, he bought a large bottle and a box of Dr. King's New Life Pills; by the time he had taken two boxes of Pills and two bottles of the Discovery, he was well and had gained in flesh thirty-six pounds. Trial bottles of this Great Discovery for Consumption free at W. E. Dement & Co.
