A SCIENTIST'S WARNING.

Synopsis of a Remarkable Lecture
Delivered by Dr. H. E. Hammond
Before the National Scientists
Convention.

"We call this an 'age of progress,' and so in many respects it is, but I do not hesitate to declare most emphatically that in many things that constitute true happiness we are simply children. Let us see: We are startled constantly by the sudden death of some man who seemed the picture of health. He thought he was well. Occasionally his appetite was poor, but then in a few days afterward it was ravenous. He felt strange pains shooting through his body, but as they did not stay long he forgot them. His head pained him periodically, he was somewhat paler than common, and was unaccountably tired, but he felt comparatively well and vigorous. And yet he suddenly died! It is a shame to our boasted civilization."

Dr. Hammond then instanced a number of persons well known to him who had died in great agony, although they had experienced few symptoms and little pain, and continued:

"Why is it that so many little children are to-day stunted, and apparently blighted for life? Because those early and inevitable diseases, measles, scarlatina, etc., have so weakened certain organs that nature cannot do her work, and the child languishes, perhaps dies. Look at the list of women who die in childbirth, and why is it? Simply because their maternal organs have been so weakened by the most terrible of all diseases that they cannot withstand the fearful sudden strain that is brought to bear upon them. How many women escape monthly agonies? And yet nature never intended that pain or inconvenience should attend the operation of her natural laws. The solemn and terrible fact is that men and women drag along, die, and are buried, and their friends and the doctors say heart disease, apoplexy, pneumonia, congestion, convulsions, when the cause lay far back of these things and was Bright's disease of the kidneys. That was the inward cause; these are the outward manifestations. Every disease must have a root, just as certainly as every plant. Kidney disease is the great root from which most modern diseases, no matter what their name may be, actually spring."

"But because the kidneys are so important, so delicate, and so powerful, they require the greatest care in treatment. Ever since the day when Dr. Bright discovered the connection between morbid outward symptoms and internal decay, physicians, scientists, and chemists have sought for a pure and powerful relief. It has been a difficult, often a fruitless search. Many remedies are now before the public, but so far as I have been able to learn by chemical analysis and actual test, only one possesses absolute merit and power. I have seen a number of cases, and learned of many others, that FRY'S CHILD, a reliable source of many others, where the preparation Hunt's Remedy has been almost remarkable in its results. One case in particular was that of a prominent banker residing in New York, whose family physicians, assisted by the best counsel that city could produce, declared his case to be hopeless, and who was afterward restored to perfect health by the means I have named. I have not hesitated to use it freely among my patients, and from the results I have secured, I shall continue to do so."

"The doctor explained how men and women should live in order to meet this terrible malady, and instanced several additional cures which had followed the use of the remedy before referred to. In concluding, he said: 'If men and women could only be aroused to a realization of their actual danger; to a sense of what is before them unless they take prompt and proper action, and then by a correct course of life and the use of just the right means seek to prolong their lives, most of the present suffering and untimely deaths might and would be avoided.'"

SHORT HAND & TYPE WRITING
SITUATIONS
pay both young men and ladies much better salaries than most commercial positions, and the demand is greater. Students can be fitted for office short-hand positions in THREE MONTHS' TIME by Haven's system. No previous knowledge of either art required. Colleges open all the year. Students can enter any time, all tuition being individual. Superior facilities for procuring situations, for which aid we make no charge. College pamphlets with full set self-teaching lessons in either art sent to any address for 10 cts.; both arts, 20 cts. No stamps accepted. Address either of Haven's Colleges: New York, N. Y.; Philadelphia, Pa.; Chicago, Ill.; Cincinnati, O.; San Francisco, Cal.

THE MEETING OF THE O. F. L. & B. A. Association was adjourned to Wednesday, Sept. 14th, 1887, to take into consideration the disposal of the balance of the stock held by the association.

BOSTON BAKED BEANS.

In the bakeries of Boston the method of cooking beans is as follows: After being washed clean they are placed in barrels or tubs and soaked for several hours, after which they are put into large iron kettles and parboiled for half an hour or so. Then they are flooded with cold water to reduce the temperature and put into earthen pots holding ten quarts each, with about five pounds of salt pork sunk to the general level in each pot. At night they are placed in ovens, from under which the fires are drawn, and are thus baked slowly ten or twelve hours. The slower the baking the better taste do the beans get. The ordinary price at the best places is 15 cents a quart, baked, but they are also sold for 12 cents. Quite a number of people prepare their own beans and send the pots to the baker, who charges 5 cents for baking them. Most of the smaller bake shops get their beans from large bakers, who also supply many of the restaurants.

The scene on Sunday mornings at the bakeries which do a large business in beans is highly entertaining. All sorts of people come with their pails to get not only their beans, but their hot brown bread, sometimes with plums, their doughnuts and perhaps a can of milk. It is the most democratic crowd imaginable. The wealthy citizen elbows his way among the mechanics, children and servant girls. Frequently carriages with liveried drivers are seen stopping before the bakehouse doors, as the delivery of beans is not practiced by many of the bakeries. Winter and summer the same crowd meanders toward the bakery each Sunday morning, and the bakers say their business constantly increases. One who has recently commenced to furnish beans on Saturday evening, says that his Sunday trade is not lessened thereby. A western traveler notes that they are learning how to cook beans properly in that section of the country, and says Chicago bakers are adopting the Boston system.

The "Oneatta."
On the 16th, the little steamer *Oneatta*, belonging to Carson & Dolbeer, caught fire at her wharf at Eureka, Humboldt bay, and burned so badly that it will not pay to rebuild her. She was about 80 feet in length, and originally a side wheeler. The *Oneatta* was built at Yaquina bay in 1873 by a man named Kellogg, but there was not traffic enough to pay her expenses, so she was brought to Portland and sold to the late Joseph Knott, who placed her on the Vancouver route in charge of Capt. James W. Troup, now master of the *Alaskan*. Jeems was then a trifle under 20 years of age, but he was a pilot of the *Waxem* family from *Way-back*. The great August fire came in the same year, and the Portland people telegraphed to Vancouver that this city was burning up and to send over a fire engine if possible. The *Oneatta* had steam and the engine was brought on board of her with about twenty men. Troup took his life in his hands when he went into the pilot house, for the little boat was groaning under her burden of steam. She made the run from dock to dock in 73 minutes, the distance being 18 miles, which we deem the fastest trip ever made by a boat of her size, at least in these waters. After Mr. Knott sold the *Oneatta* she was rebuilt into a stern wheeler, which made her more convenient as a business boat, but she was never as fast as in her original form. She was taken down from Astoria to Humboldt bay in 1883 by the late Capt. A. D. Wass, and did not long survive her veteran commander.—*Mercury*.

Thirty robberies were committed in one night in Wichita, Kansas. Which it oughtn't to be the case.

Bucklen's Arnica Salve.
THE BEST SALVE in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Clapped Hands, Chilblains, Corns, and all Skin Eruptions, and positively cures Piles, or no pay required. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For sale by W. E. Dement.

Homicide in Crook County.

The Grant county *News* has news of a homicide at Mitchell, Crook county, last Sunday. J. S. N. Brackett was a looker on at a game of cards in a saloon between two men when a dispute arose between the players over a certain coin lying upon the table. During the argument Mr. Brackett said something at which Mr. Todd, the barkeeper, took offense, and finally dared the former to slap him, which he promptly did. Todd immediately began shooting, one ball grazing Brackett's neck, and the second shot entered his breast near the heart, when he fell and expired without a word.

Exchange: Never point a pistol, even if you think you know it to be empty, at any person. In two years we have counted 204 instances recorded in the newspapers of persons accidentally shot, and seriously or fatally wounded in this way.

The number of stars and their arrangement on our national flag is a matter of taste or choice. In the army flag they are grouped in the form of one large central star, and in the navy flag they are arranged in five parallel rows with six stars in each row.

Old and reliable Medicines are the best to depend upon. Acker's Blood Elixir has been prescribed for years for all impurities of the blood. In every form of Scrofulous, Syphilis or Mercurial Diseases it is invaluable. For Rheumatism, it has no equal.

The following advertisement appeared recently in a Liverpool daily paper. "A lady who loves Christ wishes to meet a gentleman who loves him too. Address F. 53, *Mercury* office."

Sore or Inflamed Eyes Speedily Cured
By the use of Darbys Prophylactic Fluid. It allays the inflammation and irritation and is peculiarly efficacious for reason of its power in cleansing and destroying all poisonous matter. Chafing, bruises, humors, eruptions, boils and sores, and those more serious and tenacious maladies, Scald Head, Salt Rheum and Erysipelas, are speedily cured by the Fluid.

The remains of the old *Merri-mac*, which encountered the *Monitor* in Hampton Roads, consisting of 200 tons of old iron, has been sold and will be converted into nails.

Don't Trifle with any Throat or Lung Disease. If you have a Cough or Cold, or the children are threatened with Croup or Whooping Cough, use Acker's English Remedy and prevent further trouble. It is a positive cure, and we guarantee it. Price 10 and 50 cents.

There remains now less than 4,000 feet to be bored in the Stampede tunnel. It is the intention to complete it as early in 1888 as men and machinery can do it.

The reason Why Acker's Blood Elixir is warranted, is because it is the best Blood Preparation known. It will positively cure all Blood Diseases, purifies the whole system, and thoroughly builds up the constitution. Remember, we guarantee it.

Japan keeps a standing army of 50,000, with 200,000 reserves. They carry the breechloader and drill more than any men in the world.

Tutt's Pills
will save the dyspeptic from many days of misery, and enable him to eat whatever he wishes. They prevent Sick Headache, cause the food to assimilate and nourish the body, give keen appetite, and

Develop Flesh
and solid muscle. Elegantly sugar coated. Price, 25 cents per box.

BOOTS AND SHOES!
Of Best Quality, and at LOWEST PRICES.
—AT THE—
SIGN OF THE GOLDEN SHOE.
JOHN HAHN.

THE GREAT REGULATOR

SIMMONS' LIVER REGULATOR
PURELY VEGETABLE.

Are You Bilious?
The Regulator never fails to cure. I most cheerfully recommend it to all who suffer from Bilious Attacks or any Disease caused by a disarranged state of the Liver, for the last three or four years, Mr. W. R. BERNARD.

Do You Want Good Digestion?
I suffered intensely with Full Stomach, Headache, etc. A neighbor, who had taken Simmons' Liver Regulator, told me it was a sure cure for my trouble. The first dose I took relieved me very much, and in one week's time I was as strong and healthy as I ever was. It is the best medicine I ever took for Dyspepsia.

Do You Suffer from Constipation?
Testimony of HIRSH WALKER, Chief Justice of the County of Fairfax, Va.: "I have used Simmons' Liver Regulator for Constipation of my Bowels, caused by a temporary derangement of the Liver, for the last three or four years, and always with decided benefit."

Have You Malaria?
I have had experience with Simmons' Liver Regulator since 1865, and regard it as the greatest medicine of the time for diseases peculiar to malarial regions. So good a medicine deserves universal commendation.

Safer and Better than Calomel!
I have been subject to severe spells of Congestion of the Liver, and have been in the habit of taking from 15 to 20 grains of calomel, which generally laid me up for three or four days. Lately I have been taking Simmons' Liver Regulator, which gave me relief, without any interruption to business.
