The Mischief left Florence, on the Siuslaw, on Tuesday, August 30th, with 500 cases salmon from the Florence Canning Co.

There will be no services in the Presbyterian church this evening, so that all may have the opportunity of attending the temperance meeting.

The Manzanita picked up a little schooner rigged boat that was drifting around in the fog yesterday outside, and brought boat and crew safely into port.

At the New York Novelty Store re-served seat tickets for the Madison Square and Wilber's Lyceum Theater Co., which appears at Ross' opera house this and to-morrow evenings.

The bright, warm weather of yesterday did not extend outside the bar, the fog extending inward as far as No. 5 buoy. In the afternoon a brisk wind sprung up from the west and the sky became overcast.

THE ASTORIAN has sent several hundred pamphlets containing the Ore-gonian's lumber article to the regiswashington land offices, parties in Duluth, Chicago, Minneapolis and St. Paul, to Los Angeles, San Francisco and Denver, and furnished additional numbers to others to circulate to the same of the sa late wherever they thought it would do the most good.

The Olympian is anchored at Seat-tle. Capt. Carroll says he will short: ly bring her around to Portland and lay her up for the winter. When saked what he proposed to do when his boat was laid up, the captain said "That is something which no fellow can find out." As his Alaska property nets him clear \$40,000 a year, proba-bly the temporary loss of a job doesn't worry him much.

The theatrical company gave a good performance last night, appearing in "The Galley Slave," and deserved a far better audience in point of numbers than they had. Kissell, the Zouave, is alone worth seeing, and the several members of the company are all painstaking and deserving. This is their last night and they pre-sent an attractive programme. Re-served seats at the New York Novel-

place in Sitka next Saturday. The owners of the schooner have sent instructions to the master of the vessel to engage counsel and fight the case to the bitter end. The defend-ants claim that they did not violate any law, as they were outside the hunting limit, which is nine miles

Co. "H," O. N. G., have arranged for a moonlight excursion to Cathand return, to-morrow even-They have chartered the R. R. Thompson, which has just been refitted throughout and have also engaged the Western Amsteur band. There will be dencing on the bost and the company assures a good time to all who go. The boat will leave the O. R. & N. dock at 7 o'clock; tickets, fifty cents, to be had of any member of the company, or at C. H. Cooper's or Griffin & Reed's.

The Manzanita started yesterday for Tillamook rock, but when half way a dense fog compelled her to re-turn. When about half way between buoys 5 and 6, returning about noon a slight collision occurred between the Manzanita and the Gen. Miles which was bound out for Gray's Harbor, a portion of the guard of the latter being carried away. The Miles returned to her dock. The Manzanita docked at Main street wharf. She has a large lot of supplies for the rock, which will be landed at the first opportunity.

Elecutionary Entertainment. Miss Lola Collin, a graduate of the soston School of Expression, and an locutionist of extraordinary talent and ability, will give an elocutionary enter-tainment at the Y. M. C. A. Hall on the evening of Friday, the 9th inst., at eight o'clock. This will be an occasion of real merit and worth attending. Tick-ets, 50 and 25 cents.

A Local Express Company.

The trial of the capta in of the sealing schooner Ellen, which was seized by the American authorities, will take the appointing of a committee of the appointing of the appointing of a committee of the appointing of the appointing of a committee of the appointing o the appointing of a committee of three, consisting of Messrs. Gray, Gordon and Bozorth, to inquire into the matter of express facilities in Pa-cific and Chehalis counties. At present there are no express offices over there and it is suggested with great propriety that if the Pacific Express company neglects or refuses to place offices at Oysterville, Montesano, and elsewhere, that we organize a local express company. The scheme is a good one, don't you think so?

LAST NIGHT'S FIRE.

The fire alarm bell rang loudly at ten o'clock last night, and a glare in the eastern sky showed that a blazing fire was burning in the extreme eastern part of the city. The entire department turned out. When Ones got as far as O'Brien's hotel chief Worsley ordered them to stop. Two and Hooks went on.

thinks the fire started from the flue. This building was entirely destroyed. Loss, \$150; uninsured. The fire then spread to a dwelling house owned and occupied by M. Dominico. He saved considerable of his furniture, but the house was a total loss. Two and Hooks had to pass through a pratty hard secrebing to get rest. Cleveland, who held him in sum of Twos and Hooks had to pass through \$1,000 bail to appear at ten this morning. Last evening the wounded man's tongue was considerably swollen and the doctors in attendance were not positive as to the probable result of the case.

Before the justice of the peace Dr. Fulton testified that the bones of the jaw were not liable to unite and blood poisoning would set in. but the most strenuous exertions pre-

vented a widespread conflagration.

Hooks fought well, and Messrs.

George, Barker, Cook, Chutter, and
others on the roofs aided in preventing the spread of the flames, the ap-ple trees also helping matters. The fire was finally stopped after burning

along the fence some distance.

On the right, a point of land, a light house and a frowning forest: on the left a full rigged ship and a setting sun. In the middle a motto "Ea Spectat Occasum Solis"-She beholds the sunset. In the lower mar-gin the date "1865." It will be ready bout the first of next month.

The Proposed Pipe Line.

Chief engineer Worsley has reseived instructions from the committee on fire and water to go ahead with the laying of the 8 inch iron pipe line on Main street. Requisi-tions for the material go to San Francisco to-day. The pipe is on the ground. In addition will be required one 8-inch foot valve, three Ludlow 5-inch gates, 24 feet 5-inch pipe, one strainer, three elbows, three caps and three 8-inch T's, reduced to 5-inch. New Brick Buildings.

The architect is drawing the plans for a two story brick building to be put up by C. W. Fulton and W. E. Dement east of W. S. Kinney's brick block on Squemoqua street. The brick building will have a frontage of 53% feet, and will extend back ninety feet. It will be 25 feet east of the present brick building. The 25 feet will constitute the frontage of an-other brick building to be owned by W. S. Kinney. The piling is on the ground, or rather the water, and driving for the foundation will soon be-

Notice.

James E. Richardson, Custom House, New Orleans, on eath says; "In 1870 Scrofulous Ulcers broke out on my body until I was a mass of corruption. Everything known to the medical faculty was tried in vain. I became a mere wreck. At times could not lift my hands to my head, could not turn in bed; was in constant pain, and looked upon life as a curse. No relief or cure in ten years. In 1880 I heard of the Curticua Research, used them, and was perfectly cured."

Choking Catarrh.

Have you awakened from a disturbed sleep with all the horrible sensations of an assassin clutching your throat and pressing the life-breath from your tightened chest? Have you noticed the languor and debility that succeed the effort to clear your throat and head of this catarrhal matter? What a depressing influence it exerts upon the mind, clouding the memory and filling the head with pains and strange noises! How difficult it is to rid the nasal passages, throat and longs of this poisonous mucus all can testify who are afflicted with catarrh.; How difficult to protect the system against its further progress towards the lungs, liver and kidneys, all physicians will admit. It is a terrible disease, and cries out for relief and cure.
