SCROFULA

I do not believe that Ayer's Sarsaparilla has an equal as a cure for Scrofulous Humors. It is pleasant to take, gives strength to the body, and produces a more permanent result than any medicine I ever used.

—E. Haines, North Lindale, Ohio.

I have used Ayer's Sarsaparilla, in my family, for Scrofula, and know, if it is taken faithfully it will thoroughly eradicate this terrible disease.

—W. F. Fowler, M. D., Greenville, Tenn.

For forty years I have suffered with Erysipelas. I have tried various remedies for my complaint, but found no relief until I commenced using Ayer's Sarsaparilla. After taking ten bottles of this medicine I am completely cured.

—M. C. Ansbury, Rockport, Me.

I have suffered, for years, from Catarrh, which was so severe that it destroyed my appetite and weakened my system. After trying other remedies, without relief, I began to take Ayer's Sarsaparilla, and, in a few months, was cured.

—Susan L. Cook, 909 Albany st., Boston, Mass.

Ayer's Sarsaparilla is superior to any blood purifier that I ever tried. I have taken it for Scrofula, Canker, and Salt-rheum, and received much benefit from it. It is good, also, for a weak stomach.

—Millie Jane Peirce, S. Bradford, Mass. '11

DEATH OF GOVERNOR BARTLETT.

SAN FRANCISCO, Sept. 12.—Washington Bartlett, California's sixteenth governor, died in Oakland at 5 o'clock this afternoon, at the residence of his cousin, Mrs. Dr. Buckel. A gradual decline in the governor's health culminated the 23d of August in a stroke of partial paralysis, which, combined with kidney trouble, formed a complication of maladies which caused his death. Deceased was in his 63d year, and is the first governor of California who has died while filling the executive chair. His burial will take place either Thursday or Friday, this week. Lieut.-gov. R. W. Waterman, who now becomes governor, will take the oath of office to-morrow at 10 A. M. in the parlors of the Palace hotel.

Lieut.-gov. R. W. Waterman, who has succeeded to the office of chief executor of the state, was born in Herkimer county, New York, in 1826, and is therefore 61 years of age. He came to California in 1850, but a year or two later he returned to Illinois, from which state he emigrated to California. He was a member of the Bloomington convention in 1854, with Lincoln, Trumbull, Yates, Oglesby and many others who organized the Republican party. He again removed to this coast in 1860, and settled in San Bernardino county, where he followed the business of farming. Upon the discovery of the Calico district mines in San Bernardino county, he engaged in mining, and is owner of one of the best paying mines in the district. There is not a great deal known of the new governor in this part of the state. He has the reputation of being a successful miner and business man, and has had power and grasp enough to accumulate a respectable fortune. He did not appear to great advantage as presiding officer of the senate at the last session of the legislature, because of his unfamiliarity with legislative methods, but his friends state that will not prevent him from being a good governor. He is possessed of strong will, and is expected to make up in plain common sense what he lacks in technical knowledge.

As soon as the governor's body has been embalmed, probably late to-morrow afternoon, it will be brought from Oakland to this city, and taken to Pioneer's hall, where it will lie in state for several days. The funeral will take place from Trinity church, Thursday or Friday, if the military of the state will attend. Full arrangements will not be decided on until to-morrow. The committee of arrangements consists of governor Waterman, W. D. English, A. R. Rogers, W. H. Jordan, speaker of the assembly, and S. M. White, president pro tempore of the senate. Interment will be in Laurel Hill cemetery temporarily, as the body will finally be removed to Oakland.

The official oath of office will be administered to Lieut.-Gov. Waterman in the parlor of the Occidental hotel to-morrow morning at ten o'clock, but he will not go to Sacramento until Saturday. Gov. Waterman has chosen his private secretary. The position was first offered to Wm. H. Jordan, speaker of the assembly, but he declined. It was then tendered to Marcus D. Boruck, editor and proprietor of the Spirit of the Times, who has signified his acceptance.

When a young man sits in the parlor talking nonsense to his best girl—that's capital. But when he has to stay in of evenings after they're married—that's labor.—The Judge.

In the Whole Hideos Catalogue of diseases, there were none which, previous to the discovery of Hostetter's Stomach Bitters, offered more formidable resistance to the old fashioned modes of treatment than the group of maladies which, under the collective name of malarial disease, afflicted the entire communities that suffered hopelessly. Chills and fever, dumb ague, ague cake and bilious remittent were once regarded as well nigh incurable. Now it relieves the hearts of thousands who reside in districts periodically subject to the visitation of malaria, to feel certain that in the Bitters they possess a certain defense against the scourge, a sure means of expelling its poison from the system. To the settler in the far West, the new emigrant hunter, and to travelers and tourists by land and sea, the possession of this pleasant safeguard is a guaranty of safety from diseases which they might vainly seek from any other source.

THE CALIFORNIA BOOM.

John T. Flynn, the Portland real estate agent, has been interviewed by a News reporter, upon his return from southern California. He says that the boom in our neighboring state is something wonderful.

"How soon do you think it will reach Oregon?" asked the scribe, as the thought of purchasing a corner lot suggested itself.

"Just as soon as the Southern Pacific road is completed this winter, although I don't expect to see any great rush before next spring."

"Do you think that the Southern Pacific folks will make any effort to bring the southern visitors to this section?"

"Yes; I think they will do as much for Oregon in that direction as they have for California, and that is saying a great deal. The present prosperity of southern California, in my opinion, is due as much to the efforts of the Southern Pacific Railroad company as it is to the salubrious climate of that section. They have expended thousands of dollars in the past in placing the advantages of that section before the people of the east and Europe, and the result is that the carrying capacity of the road is already taxed to meet its passenger engagements for the coming winter, while the country itself, from San Diego to Shasta, is enjoying an era of prosperity never before known."

"Then you really think they will do as much for Oregon?"

"Yes, I think if the people of Oregon will make an effort to help themselves, that the Southern Pacific road can safely be relied upon to do its share in the matter, and I further think that if the board of trade had delegated one of its members to wait upon the Pacific Improvement company of San Francisco with the \$150,000 hotel subsidy which was sent east as an advertisement, that Portland's big hotel would now be under way."

"Has this boom produced any lasting results in California?"

"Yes; it has furnished employment to every carpenter, painter, bricklayer and laboring man in the state; it has been the means of locating millions of dollars of eastern capital within its boundaries, a great deal of which has already found its way into industrial enterprises in that state, and I don't think if the boom was to break to-morrow, that it would produce any distressing results in California. Over 70,000 people have already been hooked by the Southern and Aitchison, Topeka and Santa Fe roads for southern California during the coming winter, and it is safe to say that the number will not fall much short of 100,000. Thousands of these people will visit Oregon, and I am satisfied that before next May this state will be enjoying an era of prosperity equal to that of California."

Senator Stanford thinks the boom will soon spread over northern California and Oregon, and predicts that 5,000 men will be needed in the Sacramento shops to do the work necessary for the Central and Southern Pacific roads and extensions. He has unbounded faith in the future of Oregon, and will do what he can to assist it.

For scrofulous disorders, and mercurial diseases, the best remedy is Ayer's Sarsaparilla.

A Miss Cumming was recently introduced to a Mr. Going at Buffalo, and after hearing each other's name they looked mystified for a moment and then compromised by sitting down.

Not a particle of quinine nor any mineral substance is contained in Ayer's Ague Cure—yet it is a warranted specific for malaria.

The salmon run on the lower Siuslaw river continues light. The price paid for salmon is sixty cents each, says the Eugene Guard.

To Regulate

THE FAVORITE HOME REMEDY is warranted not to contain a single particle of Mercury or any injurious substance, but is purely vegetable.

It will Cure all Diseases caused by Derangement of the Liver, Kidneys and Stomach.

If your Liver is out of order, then your whole system is deranged. The blood is impure, the breath offensive, you have headache, feel languid, dispirited and nervous. To prevent any more serious condition, take at once Simmons' Liver Regulator.

LIVER REGULATOR. If you lead a sedentary life, or suffer with Biliousness, Constipation, Dropsy and Biliousness, seek relief at once in Simmons' Liver Regulator. It does not require continual dosing, and costs but a trifle. It will cure you.

If you wake up in the morning with a bitter, bad taste in your mouth, Take Simmons' Liver Regulator. It corrects the Bilious Stomach, sweetens the breath, and cleanses the Purged Tongue. Children often need safe Cathartic and Tonic to avert approaching sickness. Simmons' Liver Regulator cures Colds, Headache, Sick Stomach, Indigestion, Dysentery, and the Complaints incident to Childhood.

At any time you feel your system needs cleansing, toning, regulating without violent purging, or stimulating without intoxicating, take

Simmons' Liver Regulator.
