SCROFULA

I do not believe that Ayer's Sarsaparilla has an equal as a cure for Scrofulous Hu-mors. It is pleasant mors. It is pieasant to take, gives strength to the body, and produces a more permanent result than any medicine I ever used.

—E. Haines, North Lindale; Ohio.

I have used Ayer's Sarsaparilla, in my family, for Scrofula, and know, if it is taken faithfully it will thoroughly eradicate this terrible disease. —W. F. Fowler, M. D., Greenville, Tenn.

Ayer's Sarsaparilla is superior to any blood purifier that I ever tried. I have taken it for Scrofula Canker, and Salt-Rheum, and received much benefit from it. It is good, also, for a weak stomach.— Millie Jane Peirce, S. Bradford, Mass. ††

SAN FRANCISCO, Sept. 13 .- A plan by which California will gain a very large population is said to be under consideration by the di-rectors of the Southern Pacific company. It is nothing more nor less than making a bed-rock rate from Chicago to this city, to in-duce immigration. The Chronicle to day contains an outline of the plans, so far as perfected. It is said that senator Stanford believes several conservatives, threatening that he can secure the co-opera- to execute vengeance on the peotion of other lines in an arrange- ple of the province if they do not ment by which each will accept its proportion of as low a rate as \$15 between Chicago and this at a proposed demonstration shortcity. The present rate of fare is ly to be held. All the newspapers \$47.50, so that the reduction in the province, conservative as would be about sixty per cent. Well as reform, denounce the Do-Between Ogden and this city the minion government, and call upon Southern Pacific company will the people to stand firm and de-haul immigrants free, and it is fend their rights, with their blood, likely that the Union Pacific will if necessary. It is believed by all be prevailed upon to make a that a serious crisis has been nominal rate, so that from the reached, but the action of the gov-Missouri river the total expense ernment seemed to unite the peoof passage would be about \$5, not including meals. The giving of a virtual free table as well as railway fare has been considered, and may yet be adopted.

The senator's plan has not been fully elaborated, and must be taken in filling in the details, now that a rough sketch has been drawn. If adopted, as it is very likely to be, the scheme will be based on these conditions, which must rule the traffic under consideration: First, the free-fare privilege will be exclusively for immigrants and their families. Second, it must be shown to the satisfaction of the railroad company's agent that the traveler's stay in California is not to be transient; otherwise full fare must be paid. Third, the passenger must contract with the company not to transfer his ticket to others. Fourth, he must give some proof of his intention to take up permanent resi-

dence on this coast. The statement is made that senator Stanford feels that while inviting the criticism of that part of the traveling public which is to re-ceive no benefit from the plan, no real injustice will be done. Those who are able to pay firstclass fare would not ride in third-class cars, even if they were free, while a majority of the so called "emigrants" ride in them merely because they can get a cheap rate, and they are not privi leged to complain at free travel, under the conditions of which it is to be granted. At least so the railroad people hold, and it would appear that they are not far from right. In speaking of the subject to a friend recently, Mr. Stanford said: "I had rather that 10,000 people come to this state at a \$15 rate of fare than that 5,000 come at \$60."

American Party.

NEW YORK, Sept. 13.-Last night New York and Brooklyn representatives of American organizations completed arrangements for the national convention of the American party at Philadelphia which opens on Friday. Nearly 100 were present. The meeting was secret, because of threats that the delegation will ask the withdrawal of the prohibition, polygamy and internal development planks of the platform.

STATE OF NEW YORK, ASSEMBLY) CHAMBER, ALBANY, April 16, 1884.)
Some years ago I was thrown from a wagon and fractured two of my ribs. I was so badly hurt that I had to sit up in a chair for four days and nights. The fourth day my mother placed two Allcock's Porous Plasters over my broken ribs. The next day my sufferings diminished and I was able to lie down. I continued to improve every day. Two weeks after the accident I got up and attended to business. I renewed the plasters twice, and found myself almost entirely well in a month, when I sailed for England.

The Manitoba Fight.

WINNIPEG, Sept. 13 .- Open rebellion is everywhere talked of against the arbitrary conduct of the Dominion government in applying for injunctions to stop the building of the railway, and the Red river people are preparing to organize, in order to be ready in case of emergency. It is now learned on excellent authority that Sir John Macdonald has written to submit. He is denounced on all hands, and will be burned in effigy ple in a determination to fight to the bitter end for their rights.

Killed by a Locomotive.

At 8 o'clock yesterday forenoon, says the News of the 14th, a farmer named J. L. Benham was crossing the Northern Pacific track at Columbia crossing with his team. tearing along the track northward bound. The cowcatcher struck the front wheel of the vehicle, smashing it to pieces and killing one of the horses. Benham was struck, just how no one knows, and fell on the cowcatcher and was carried 240 yards before the train was stopped. When this was done Benham was found dead, and this must have resulted instantaneously, judging by the way the body was mangled. The train proceeded on its way, but the conductor, engineer and firemen have been summoned by telegraph to appear at the inquest to-day. The acting coroner, A. H. Blakesly, commenced the in-quest yesterday, but had to ad-journ over until to-day, owing to the absence of the conductor, engineer and brakeman of the train. Benham lived on a farm twelve miles from St. Helens.

To arm the state militia properly, 1,260 breech loading guns and two Gattling guns are needed. According to the estimate furnished by the war department to adjutant-general Shofner, these will cost \$24,000. Twelve hunlatest improved Springfield pattern, sixty will be of smaller pattern to arm the high school ca-dets with, while the Gattling guns will be of the cheaper pattern with wooden carriages. At this rate it costs Uncle Samuel something to arm the militia of the different states. Adjutant-general Shofner is confident that the war department will furnish Oregon the above mentioned arms after the regulation routine of red tape has been gone through with.

For scrofulous disorders, and mercurial diseases, the best remedy is Ayer's Sarsaparilla.

Until men are ready to be just when justice is opposed to their own interests, until they are honest when honesty does not seem to be politic, they are not really just, not really honest. This alone is perfect evidence of sincerity in those who advocate a cause or contend for a truth. Then amid outward destruction and trial, there is inward peace.
