Sore Eyes

The eyes are always in sympathy with the body, and afford an excellent index of its condition. When the eyes become weak, and the lids inflamed and sore, it is an evidence that the system has become disordered by Scrofula, for which Ayer's Sarsaparilla is the best known remedy.

Scrofula, which produced a painful inflammation in my eyes, caused me much suffering for a number of years. By the advice of a physician I commenced taking Ayer's Sarsaparilla. After using this medicine a short time I was completely

Cured

My eyes are now in a splendid condition, and I am as well and strong as ever.

—Mrs. William Gage, Concord, N. H.
For a number of years I was troubled with a humor in my eyes, and was unable to obtain any relief until I commenced using Ayer's Sarsaparilla. This medicine has effected a complete cure, and I believe it to be the best of blood purifiers.

—C. E. Upton, Nashua, N. H.
From childhood, and until with a few months, I have been afflicted with Weak and Sore Eyes. I have used for these complaints, with beneficial results, Ayer's Sarsaparilla, and consider it a great blood purifier.

—Mrs. C. Phillips, Glover, Vt.
I suffered for a year with inflammation in my left eye. Three ulcers formed on the ball, depriving me of sight, and causing great pain. After trying many other remedies, to no purpose, I was finally induced to use Ayer's Sarsaparilla.

By Taking

three bottles of this medicine I have been entirely cured. My sight has been restored, and there is no sign of inflammation, sore, or ulcer in my eye.

—Kendall T. Bowen, Sugar Tree Ridge, Ohio.
My daughter, ten years old, was afflicted with Scrofulous Sore Eyes. During the last two years she never saw light of any kind. Physicians of the highest standing exerted their skill, but with no permanent success. On the recommendation of a friend I purchased a bottle of Ayer's Sarsaparilla, which my daughter commenced taking. Before she had used the third bottle her sight was restored. Her cure is complete.

—W. E. Sutherland, Evangelist, Shelby City, Ky.

THE ANARCHIST'S LESSON.

One gratifying result of the supreme court's decision that the anarchist murderers must hang is to be observed in the efforts of their sympathizers to save their lives. The anarchist organization that was almost destroyed after the Haymarket riot is believed to be as strong as ever. It then consisted of over 3,000 men practiced in weekly and even nightly drills. It is probably no less strong at the present time. Yet there is a vast difference in the methods of agitation then and now.

There is no talk at present of blood and dynamite. There is no advice shouted from the platforms of public meetings for the workingman to arm himself and begin the new revolution by an indiscriminate slaughter of capitalistic hell-hounds. The making of bombs is not explained in public now. The advice to save up money to buy a pistol to shoot a policeman is not heard. Whatever incendiary plans they may have concocted are spread in secret.

It is evident that the leaders have learned the lesson of the law. They cannot plot murder and escape the consequences of their acts when the plots are carried out. This is the lesson that the law was meant to teach; the vigor with which it has been executed will save much bloodshed. The anarchist leaders are probably plotting in secret what they advised openly two years ago. They are free to plot. They may plan anything, from the social revolution to the murder of the officials and the jury that brought the verdict of death against their seven companions. But the moment they attempt to put their designs into execution they will find the people, and the law that the people have made, strong enough to crush them, as it has crushed their predecessors. There is freedom to think and believe anything in this country, but there is no freedom to injure others.

The anarchists and their counsel are not to be blamed for taking every legal means to save their condemned comrades. The effort to appeal to the United States supreme court and the governor is perfectly legal. The appeal in both cases is hopeless. The supreme court cannot interfere with the decree of the state court in a criminal trial without usurping authority that never belonged to it. The governor has the power to commute the sentences, but he is not likely to interfere in a case that has been so carefully considered. But if the anarchists attempt to get by violence the clemency they fail to secure by legal means, the gallows will bear more fruit than is now in prospect.

To be vain is rather a mark of humility than of pride. Vain men delight in telling what honors have been done them, what great company they have kept, and the like; by which they plainly confess that these honors were more than their due, and such as their friends would not believe if they had not been told. Whereas a man truly proud thinks the greatest honors below his merits, and consequently scorns to boast. We, therefore, delude as a maxim, that whoever desires the character of a proud man ought to conceal his vanity.

Ayer's Sarsaparilla contains no harmful ingredients, and is the best blood purifier.

Annihilating \$10,000,000 a Month.

About \$70,000,000 worth of property have been annihilated in the United States thus far in the peaceful year of our Lord 1887—not by anarchists nor riotous strikers, but by fires alone. This country is so much the poorer, and it is a very pretty sum. The prospects are that the remaining three months will swell the total draft upon the accumulations of the good people of this country to the extent of at least \$100,000,000.

Ayer's Hair Vigor keeps the hair fresh and bright. It restores a natural color to faded and gray hair, and renders it pliant and glossy.

The Volunteer has a racing crew of thirty-seven men and three officers.

Outside Salmon Runs.

A few days ago, says the Coos Bay News, Thomas Reed, of Gardiner, passed through Marshfield on his way to San Francisco. From him it is learned that the run of salmon on the Umpqua has been very light up to the present this season. When he left Al Reed's cannery had not 1,000 cases put up, while last year at the same time over 4,500 cases had been handled. The run on the Siuslaw has also been light, and so has the run on the Coquille. While on the bay fish have been scarce, as compared with other years, yet it is a fact that more salmon have been canned here this fall than on any two of the rivers mentioned.

A commercial traveler was introduced to a confere one day, and not hearing his name distinctly, remarked: "I beg your pardon, sir, but I didn't catch your name." "But my name is a very hard one to catch," replied the other; "perhaps it is the hardest name you ever heard." "Hardest name I ever heard! I'll bet you a dozen of wine that my name is harder," replied the first speaker. "All right," said the other, "my name is Stone—Thomas Stone. Stone is hard enough, isn't it?" "Pretty hard!" exclaimed the challenger; "but my name is spelled H-a-r-d-e-r, and I bet my name was harder." Mr. Stone stumped up like a man.

A vender of hoop skirts was extolling his wares in the presence of a customer's husband. "No lady should be without one of these skirts," said the shopman. "Well, of course not," dryly responded the husband, who was something of a wag, "she should be within it."

The new water works just completed at Mobile, Ala., cost the city \$685,000, and has a capacity of 30,000,000 a day from Clear creek and an auxiliary supply of 60,000,000 from Red creek, both within ten miles of the city.

The necessary instructions have been issued to the local land officials in the matter of the restoration to settlement of the Northern Pacific indemnity lands. About nine million acres are involved.

Some rich men keep cross dogs around their house so that the hungry poor who stop to "get a bite" may get it outside the door.

A locomotive on the Staten Island Rapid Transit railroad has killed five persons in six weeks.

Removing a Serious Obstruction Gently.
Dynamite and giant powder might answer admirably to remove obstructions from Hell Gate in East River New York, but explosive measures in medication are ever attended with disastrous consequences. For instance, the bowels cannot be violently drenched with safety, nor is there the slightest necessity for so doing. On the contrary, it is most unwise. None but the purblind adherents of antiquated theories in medicine advise or sanction such a course. To weaken the intestines—the effect of drastic purgation—is to compromise the health of the entire system. With Hostetter's Stomach Bitters, on the other hand, the bowels are relaxed, not by a convulsion of nature approximating to an eruption of Mt. Popocatepetl, but gradually, beneficially, without wrenching or drenching. The liver and stomach, as well as the bowels, are toned and benefited by it.

A man is apt to feel pretty large and conceitful when the people elect him governor, and yet you haven't a living friend who can name correctly half the governors of the United States.—Somerville Journal.

When baby was sick, we gave her Castoria, When she was a Child she cried for Castoria, When she became a Man, she clung to Castoria, When she had Children, she gave them Castoria

The new library building just commenced in Washington city, for which congress appropriated something like \$1,000,000, will be the largest structure in the federal capital, with a single exception.

From the Rev. John Mathews, Pastor M. E. Church, South, at Montgomery, Ala.
"Darby's Prophylactic Fluid is the only medicine kept in my family. We can use it for almost everything—burns, bruises, cuts, cuts, stings, ear-ache, sour stomach, etc., etc. My children, when hurt or bruised, call at once for Darby's Fluid. We cannot get along well without it. It is so valuable for its prompt relief of pain from all kinds of injuries, and also is a powerful Antiseptic and Disinfectant."
