BLAINE is on the beautiful blue

THE heavy influx of foreign labor is having a depressing effect on wages in New England. About half of the men find stopping places in the manufacturing towns.

THE liquor manufacturers, dealers and saloon keepers in Chicago, numbering 4,500 voters, are organizing with a view of giving their solid support to the party which will offer safe. them the most for it. They claim to control 20,000 votes.

THE great John Bright has a son in parliament who thinks and acts for himself. Strange as it may appear, he doesn't think and act as his father does. The son is an ardent home

a communication as one statesman should address to another; therefore, you'll excuse me if I do not answer it.

The son's independence so pleased the old gentleman that he had no more remonstrances to offer.

An Interrupted Court.

The spacious halls and corridors of the county jail were brilliantly illuminated last evening, the occasion being a most court. Mr. Burk, under present sentence for stealing a suit of clothes from Dick Leathers, was prosecuting attorney: O. V. Carter, whose attempted effort to leave the Columbia was frustrated by Divine Providence, was the presiding judge, and Andrew Norris, who goes to Salem for a brief respite from the cares of business life, was the counsel for the defense. The first prisoner tried was J. F. Patterson, and notwithstanding the eloquence of the defense and the impassioned appeal of the prisoner, who literally and fig-uratively threw himself on the court, a sentence of five years was imposed greatly to the satisfaction of Mr. Burk. Further proceedings were in Burk. Further proceedings were in-terrupted by jailor Curran, who said that there had been complaints from the neighbors of having their chickens stolen by former prisoners, and he wanted no more foolishness.

Saratoga, Sept. 27.-The Demo cratic convention here is well attended. George Raines, of Rochester, was chosen temporary chairman: the following resolutions were offered: Resolved, That laws and assessments and taxation should be re-adjusted and reformed so that all property shall relatively bear its share in the support of government and relieve farming and kindred pursuits for disproportionate burdens im-posed under present laws, and that national legislation should be so modified and amended that agriculture shall no longer be embarrassed or impaired by unwise discrimination. Governor-general Lansdowne and suite were at the old French capital. On the evening of September 10 there was a grand entertainment in Lans-downe's honor on the flagship Beller-ophon. At night the ironclad was gorgeously illuminated with electricity, oil lamps and fire-works, and presented the grandest sight ever witnessed at historical Quebec. At 9:30 o'clock, as Lord Lansdowne and party were leaving for the shore some 600 men of the crew were on deck. The yards were manned, bands playing and there was a grand finale of explosions. A pile of sixty or more of the most powerful rockets lay on the upper deck. One of them on being ignited, instead of going up in the air, exploded on deck, igniting the pile of sixty. The effect was treidous. In a moment the death dealing rockets were sweeping the deck in every direction, burning, lac-The Nasel Shooting.

The Astoria delegates returning from the convention of the Young Men's Christian association of the Pacific northwest, held at The Dalles from the 22d to the 25th inst., report a very successful and pleasant convention. English Salmon Market.

The London Grocer, Sept. 3, says: "Stocks in London are exhausted, and the supplies needed here have to e drawn from Liverpool, where extreme rates are demanded, say 29s per case for Columbia river fish, and 25s 6d for Frazer and outside river packs; but no activity can be said to exist."

The Liverpool correspondent of the Grocer writes as follows: "This market is very firm, and steady sales continue in spite of the high prices ruling. The catch is extremely short and large contracts fall through en-tirely, as the eastern states take all that has been packed, and many packers only promise to deliver sur plus, which is now nil."

The London Grocer's Gazette says their Liverpool correspondent writes as follows: "Salmon-We have to report a very firm and active market, and thus far there are no apparent signs of the advanced prices having affected consumption; both retailers and dealers are continually and regularly replenishing their supplies, and as they are merely buying for their immediate necessities, the volume of trade now doing proves conclusively how bare the general market is of
