Public attention has been called to the fact that north of Texas and west of the Indian Territory there is a strip of land 200 miles long and fifty wide, which is sometimes designated on the maps as "Public Lands," and sometimes as "No Man's Land," as it belongs to no state or territory, has never been surveyed and is not open to entry. Though several thousand people reside on this land, it is without laws. They are said to get along in a patriarchal style, and without any other title to their land than squatter rights, trusting that eventually it will be confirmed to them by the general government, and living in hopes that in due course of time the unrecognized section will form a a part of the new territory proposed to be formed from the Indian Territory, or attached to the adjoining territory of New Mexico. This, however, is not the only

stray piece of territory, belonging to the United States. Dakota formerly embraced within its boundaries what is now the territory of Wyoming, which was formed from its southwestern portion. It is said to have been created by Thaddeus Stevens, of Pennsylvania, then the leader of his party in the national house of representatives, for the purpose of making Patronize Home Industry! an official place for a personal friend, who had distinguished himself as colonel of a Pennsylvania regiment of volunteers at Gettysburg. It was named after Wyoming valley, Pennsylvania, a designation entirely inappropriate and also confusing. It should have had a name suggestive of its locality and which would have been entirely distinct from the distant and famous valley. This similarity has been the cause of no end of trouble in postal matters, letters for the territory often going to the Penn-

sylvania valley and vice versa. When the territory of Wyom ng was formed its boundaries were parallel lines and were, of course, irrespective of mountain ranges or the courses of rivers. The southwestern portion of Dakota had abutted on Idaho, which territory in its boundaries followed the mountain ranges, giving it a sort of leg of mutton shape, the three upper counties, which properly belong to Washington terri tory, being the bone handle. The peculiar formation of Wyoming and Idaho left between them a considerable area of land. This from oversight, still belongs to Dakota, though separated from it by an organized territory, and so designated on the maps of the United States land office of the interior department. It is, however, without laws as it is not embraced within the jurisdiction of the district or county courts of Dakota and is outside of those of Idaho, to which it is more properly assignable. It is, like "No Man's Land," virtually a neutral ground for criminals. Many of its residents are Mormons and polygamists, but they cannot be tried for polygamy or any other crime they may commit, because in the present state of affairs there is no tribunal before which they Fine Wines, Liquors & Cigars, could be legally brought. This less manner in which congress at times performs the work of legislation. An act should be passed at the earliest opportunity attaching this orphan section to Idaho to which it properly belongs. It would seem but proper, also, that "No Man's Land" on the Indian territory border should in some way have extended over it the laws of the United States.

TRIED

# CRUCIBLE

About twenty years ago I discovered a litt sore on my cheek, and the doctors pr it cancer. I have tried a number of physician but without receiving any permanent benefit. Among the number were one or two sp The medicine they applied was like fire to the sore, causing intenso pain. I saw a statement in the papers telling what S. S. S. had done for others similarly afflicted. I procured some at once. Before I had used the second bottle the neighbors could notice that my cancer was healing up. My general health had been bad for two or three years-I had a hacking cough and spit blood continually. I had a severe pain in my breast. After taking six bottles of S. S. S. my cough left me and I grew stouter than I had been for several years. My cancer has healed over all but a little spot about the size of a half dime, and it is rapidly disappear ing. I would advise every one with cancer to give S. S. S. a fair trial.
