Agent.
B. H. Coleman, Accountant.

The First Sign

Of failing health, whether in the form of Night Sweats and Nervousness, or in a sense of General Weariness and Loss of Appetite, should suggest the use of Ayer's Sarsaparilla. This preparation is most effective for giving tone and strength to the enfeebled system, promoting the digestion and assimilation of food, restoring the nervous forces to their normal condition, and for purifying, enriching, and vitalizing the blood.

Failing Health.

Ten years ago my health began to fail. I was troubled with a distressing Cough, Night Sweats, Weakness, and Nervousness. I tried various remedies prescribed by different physicians, but became so weak that I could not go up stairs without stopping to rest. My friends recommended me to try Ayer's Sarsaparilla, which I did, and I am now as healthy and strong as ever.—Mrs. E. L. Williams, Alexandria, Minn.

I have used Ayer's Sarsaparilla, in my family, for Scrofula, and know, if it is taken faithfully, that it will thoroughly eradicate this terrible disease. I have also prescribed it as a tonic, as well as an alternative, and must say that I honestly believe it to be the best blood medicine ever compounded.—W. F. Fowler, M. D., D. D. S., Greenville, Tenn.

Dyspepsia Cured.

It would be impossible for me to describe what I suffered from Indigestion and Headache up to the time I began taking Ayer's Sarsaparilla. I was under the care of various physicians, and tried a great many kinds of medicines, but never obtained more than temporary relief. After taking Ayer's Sarsaparilla for a short time, my headache disappeared, and my stomach performed its duties more perfectly. To-day my health is completely restored.—Mary Hartley, Springfield, Mass.

I have been greatly benefited by the prompt use of Ayer's Sarsaparilla. It tones and invigorates the system, regulates the action of the digestive and assimilative organs, and vitalizes the blood. It is, without doubt, the most reliable blood purifier yet discovered.—H. D. Johnson, 383 Atlantic Avenue, Brooklyn, N. Y.

Ayer's Sarsaparilla,
Prepared by Dr. J. C. Ayer & Co., Lowell, Mass.
Price \$1; six bottles, \$5.

Tutt's Pills

INDUSTRIAL CHANGES.

It is really wonderful to notice the constant changes which our industrial interests are undergoing from year to year. Too little attention is paid to these changes by the average business man. Those who watch and study them often realize large benefits from such study and observation.

The wonderful change in transportation and travel which has been brought about by railroads during the last 40 years is the marvel of the age. It has brought fortunes to thousands who took early and close observations and acted upon them promptly and intelligently. The same may be said of the change in ocean service to steam.

The improvement and changes in nearly all the mechanical and manufacturing enterprises of the day during the last half-century have quite revolutionized everything in that direction, and whoever is negligent in keeping up with the latest improvement is sure to get left.

We have seen the grain-growing centers of this country shifted from point to point in its westward progress. Fifty years ago the Genesee brand of flour was the chief staple of that commodity throughout the country. The Genesee valley now scarcely raises wheat enough to supply its own locality.

The pork-packing business has largely left Cincinnati, which was once familiarly known as "Porkopolis." It tarried awhile in Chicago, where it still maintains a stronghold, but it is now evidently moving westward to Kansas City and Omaha. The latter city is evidently, from its favorable location, destined soon to be come the national center of that great business.

The center of the lumbering business not many years ago was in the state of Maine. Now there is an immense amount of lumber constantly moving from the great northwest to the Atlantic seaboard and even to Europe. The latest indications are that it will not be many years before the immense forests on the lower Columbia, in the vicinity of Astoria, and on the sound will form the center of this immensely great and constantly growing interest.

A few years ago New England felt sure of a permanent position as the cotton manufacturing center of the continent. Now, southern cotton mills are beginning to undersell New England in the general markets of the country, and are even contemplating a challenge to the markets of the world.

The iron interests, which for so many years have been concentrated at Pittsburg and vicinity, bid fair to be transferred to the "Birmingham" of the south, and Alabama instead of Pennsylvania may soon furnish the country with the bulk of her iron. It is even claimed that the low price at which she will soon be able to place iron upon the market will revolutionize the iron industry of the world. The iron masters just now, however, are watching with intense interest the wonderful developments which are in progress on the Geographic range on the southern shore of Lake Superior. The developments there may possibly rival those of Alabama.

Fifty years ago nearly everything was done by "the rule of thumb." Now, the utmost precision is being introduced into every department of industry. Machinery has almost entirely displaced handwork, and made almost absolute precision an easier thing than the rough guesswork of the past generation. Machinery has made possible the comparatively new feature of "assembling" in mechanics which has given us, at low prices, the sewing machine, revolving pistols, etc., the like of which no other country has yet been able to successfully produce. Twenty years ago the microscope was something seldom found outside of the scientist's study. Now it is an indispensable requisite in almost every branch of industry.

Such is a brief glance at some of the wonderful changes which the last half-century has witnessed in the industries of the world. What another half-century will bring forth, who can tell?

It Would Be Hard on The Farmer.

A Long Island farmer shows the inequality of Henry George's theory of tax upon lands alone by reference to his own case. He has a farm of one hundred acres, which is assessed at \$2,500, and buildings on the same assessed at \$2,500. He is taxed one and one-half per cent. on the assessment, paying a tax of \$75 per year. Adjoining his farm lives a rich New Yorker who owns five acres, upon which he has built a \$50,000 house. This property is assessed at \$30,000. The assessment of the two properties is \$35,000, and the tax \$25. Upon Henry George's theory, that improvements are not taxable, because the product of human labor, the assessment would be reduced to \$2,625, upon which a tax of twenty per cent. would have to be levied to make the tax now assessed. The farmer would pay \$500 and the rich neighbor \$25 tax.

Catherine Owen has published a book called "Ten Dollars Enough." She may think so now, but by the time she gets all the jet trimming and stuff for the overskirt she will find that about \$10 more is necessary, not including the dressmaker's bill. Ten dollars is enough for the material, but trimming and making cost like sixty.

DISGUSTING SKIN DISEASES.

What spectacle is more disgusting than that of a man or woman with a skin disease which shows itself in pimples and blotches on hands, arms, face and neck? It is simply impure blood. See what BRANDRETH'S PILLS did for a chronic case:
For four years I was in the Mounted Infantry in the U. S. Army, residing during that time principally in Texas. Almost all of that time I had a chronic skin disease, characterized by an eruption over the entire surface of my legs and thighs, arms and chest. The doctors termed it eczema. I had given up all hopes of ever being cured, when BRANDRETH'S PILLS were recommended to me. I concluded to try them, and did so, and I have thanked God daily since then that I did so. I think I used them altogether for about three months, and, by that time was completely cured and have never had any trouble since. My skin is as clear as any one's.

GEORGE CHAPMAN,
Piscataway, Mich., December 8, 1885.

Judge not hastily; it is better to suspend our opinion than to retract an assertion.

Do not allow the accumulation of Scurf or Dandruff, when it can be easily prevented by the use of Ayer's Hair Vigor.

The day of promise is always nearer the day of promise than it seems.

When your blood is impoverished the remedy is at hand. Take Ayer's Sarsaparilla.

It is the guilt and not the scaffold, which constitutes the shame.

Chronic Looseness of the Bowels. Results from imperfect digestion. The cause lies in the torpidity of the liver. A regular habit of body can be secured by taking Simmons' Liver Regulator to aid digestion, to stimulate the dull and sluggish liver, and rid the system of excessive and poisonous bile. The Regulator corrects acidity of the stomach, cures dyspepsia and insures regularity of the bowels alike free from laxity or costiveness.

How's Your Liver?

In the Oriental salutation, knowing that good health cannot exist without a healthy Liver. When the Liver is torpid the Bowels are sluggish and constipated, the food lies in the stomach undigested, poisoning the blood; frequent headache ensues; a feeling of lassitude, despondency and nervousness indicate how the whole system is deranged. Simmons' Liver Regulator has been the means of restoring more people to health and happiness by giving them a healthy Liver than any agency known on earth. It acts with extraordinary power and efficacy.

NEVER BEEN DISAPPOINTED.
As a general family remedy for Dyspepsia, Torpid Liver, Constipation, etc., I hardly ever use anything else, and have never been disappointed in the effect produced. It seems to be almost a perfect cure for all diseases of the Stomach and Bowels.
