## The First Sign

Of failing health, whether in the form of Night Sweats and Nervousness, or in a sense of General Weariness and Loss of Appetite, should suggest the use of Ayer's Sarsaparilla. This preparation is most effective for giving tone and strength to the enfeebled system, promoting the digestion and assimilation of food, restoring the nervous forces to their normal condition, and for purifying, enriching, and vitalizing the blood.

### Failing Health.

Ten years ago my health began to fail. I was troubled with a distressing Cough, Night Sweats, Weakness, and Nervousness. I tried various remedies prescribed by different physicians, but became so weak that I could not go up stairs without stopping to rest. My friends recommended me to try Ayer's Sarsaparilla, which I did, and I am now as healthy and strong as ever.—Mrs. E. L. Williams, Alexandria, Minn.

I have used Ayer's Sarsaparilla, in my family, for Scrofula, and know, if it is taken faithfully, that it will thoroughly eradicate this terrible disease. I have also prescribed it as a tonic, as well as an alternative, and must say that I honestly believe it to be the best blood medicine ever compounded.—W. F. Fowler, M. D., D. D. S., Greenville, Tenn.

### Dyspepsia Cured.

It would be impossible for me to describe what I suffered from Indigestion and Headache up to the time I began taking Ayer's Sarsaparilla. I was under the care of various physicians, and tried a great many kinds of medicines, but never obtained more than temporary relief. After taking Ayer's Sarsaparilla for a short time, my headache disappeared, and my stomach performed its duties more perfectly. To-day my health is completely restored.—Mary Harley, Springfield, Mass.

I have been greatly benefited by the prompt use of Ayer's Sarsaparilla. It tones and invigorates the system, regulates the action of the digestive and assimilative organs, and vitalizes the blood. It is, without doubt, the most reliable blood purifier yet discovered.—H. D. Johnson, 383 Atlantic avenue, Brooklyn, N. Y.

### A PROTECTIVE TARIFF.

Story of the Manufacture of Thread in America.

A story of the protective tariff may yet be written with Newark as the scene. It would begin about a score of years ago, when the Coates family of Scotland had established their thread factory in Rhode Island and were rapidly absorbing the American business. In Scotland they had intimate friends by the name of Clark, who were their fierce rivals in business. The Clarks found themselves closed from the American trade by a Yankee device for the encouragement of American industry. So they determined to come into the land which their rivals threatened to occupy to the exclusion of all others, and they selected a suburban portion of Newark. There they erected a factory of considerable size and began the making of thread. Two members of the firm came with the business and made Newark their home. Some hundreds of working people were brought with them and in a little while small houses were built in the vicinity of the factory, then larger ones, and with the thread workers came bakers and butchers and grocers, and exceedingly few saloons. And the bakers and butchers and grocers built themselves houses, and other persons liked their company and built near them. The hundreds of dwellings became thousands, and the owners of the thread works built mansions, the superintendents built handsome city residences and the boom for the eighth ward of Newark was the principal topic of real estate and the fortune of many who had owned farms thereabouts.

Then another thread company saw there was money to be made, and naturally sought the vicinity where the population had been educated in the trade, as it were, and where a labor market had been formed. And soon after still another company came, and each built a great factory, and competition for labor and in the making of good and cheap thread was established, and the prices of labor were kept well up and the price of thread was kept well down, and southern merchants found that there were new customers for the best of their cotton in the market. With each factory more dwellings went up, and more butchers and bakers and grocers found trade, while the original factory doubled and trebled in size and in the number of hands employed. Later a linen thread company saw the advantage of the labor market, and smaller industries followed. The Scotch are a clanish people, and when a great cloth and linoleum maker in Scotland arranged with a big firm of New York dry goods men to start an American factory, he, too, preferred the Scotch colony in and about Newark, and enormous works are rising daily, wherein 500 men supporting 1,500 persons, at least will soon be employed.

With this comes the announcement that the Clark company is about to double its capacity by the erection of more mills. These leaders in industry were foreigners, but they are so no longer. They are American citizens and interested in American enterprise, and what protectionists they are!

### Terrible Are the Ravages

Upon the system inflicted by diseases of the kidneys and bladder. They wreck the constitution more speedily in some cases than consumption and other maladies of that fatal pulmonary type. As you value your life, arrest a tendency to debility, and consequent inactivity of the renal organs, should you experience any such. Infuse vigor and activity into the vitally important secretory action of the kidneys with that salutary diuretic, Hostetter's Stomach Bitters. The proper degree of stimulation is imparted by it to the bladder also, when that organ is sluggish. With this timely check, Bright's disease, diabetes, catarrh of the bladder, and other kindred disorders, may be prevented. Liver complaint, constipation, nervous ailments and rheumatism, are likewise curable with this sovereign household remedy. Against the effects of exposure in damp or otherwise inclement weather, it is a benign safeguard, and restores strength after undue fatigue.

### Do not allow the accumulation

of Scourf or Dandruff, when it can be easily prevented by the use of Ayer's Hair Vigor.

Daylight has been let through the Siskiyou tunnel and the work is nearly finished.

When your blood is impoverished the remedy is at hand. Take Ayer's Sarsaparilla.

### THE SOLDIER WAS LET GO.

Religion and Science in a Pack of Cards.

A soldier by the name of Richard Lee was taken before a magistrate in the old Puritan days of Massachusetts for the crime of using cards at meeting. The sergeant who had charge of the company to which the soldier belonged, said that the soldier no sooner got to meeting than, pulling out a pack of cards, he spread them before him. He first looked at one card and then another. The sergeant said:

"Richard, put up the cards; this is no place for them."

"Never mind that," said Richard.

When the services were over, the constable took Richard a prisoner and brought him before the magistrate, who said:

"Well, soldier, what have you to say for yourself?"

"Much, sir, I hope."

"Very good; if not, I will punish you severely."

"I have," said the soldier, "neither bible nor common prayer-book—I have nothing but a pack of cards, and I hope to satisfy your worship of the purity of my intentions."

Then spreading out the cards he began with the ace:

"When I see the ace, it reminds me that there is but one God."

"When I see the two, it reminds me of Father and Son."

"When I see the three, it reminds me of the Trinity."

"When I see the four, it reminds me of the four Evangelists."

"When I see the five, it reminds me of the five virgin girls that trimmed their lamps."

"When I see the six it reminds me that in six days the Lord made heaven and earth."

"When I see the seven it reminds me that, on the seventh day, God rested from the great work which he had made, and hallowed it."

"When I see the eight it reminds me of Noah, his wife, his three sons and their wives."

"When I see the nine it reminds me of the nine lepers that were cleansed by our Savior."

"When I see the ten it reminds me of the ten commandments."

"When I see the king it reminds me of the Great King of heaven."

"When I see the queen it reminds me of the queen of Sheba, who visited Solomon, for she was as wise a woman as he was a man. She brought with her fifty boys and fifty girls, all dressed in boys' apparel, for king Solomon told which were boys and which were girls. The king sent for water for them to wash. The girls washed to the elbows and the boys to the wrist; so king Solomon told by that."

"Well," said the magistrate, "you have described every card in the pack except the knave."

"I will give you honor a description of that, too. The greatest knave I know of is the constable that brought me here. But still more; when I count how many spots there are in a pack of cards, I find three hundred and sixty-five, as many days as there are in a year."

"When I count the number of cards in a pack I find fifty-two—the number of weeks in a year."

"I find there are twelve picture cards in the pack, representing the number of months in a year, and on counting the tricks I find thirteen, the number of weeks in a quarter."

"So, you see, a pack of cards serves for a bible and an almanac to a poor fellow who hasn't either."

That soldier was discharged.

When baby was sick, we gave her Castoria, when she was a child she cried for Castoria, when she became Miss, she clung to Castoria, when she had children, she gave them Castoria.

—Small-Pox.

"A member of my family was taken down with the Small-Pox. I immediately commenced to use Darby's Prophylactic Fluid. It kept the atmosphere of the room pure and fresh. The patient was greatly relieved, and never for a moment delirious; was not pitted, and was about the house again in three weeks, and no others had it."—JAMES PARKINSON, Ed. "The Caterer," Phila., Pa.

—Wealth is not his who gets it, but his who enjoys it.

## How's Your Liver?

Is the Oriental salutation, knowing that good health cannot exist without a healthy Liver. When the Liver is torpid the Bowels are sluggish and constipated, the food lies in the stomach undigested, poisoning the blood; frequent headache ensues; a feeling of lassitude, despondency and nervousness indicate how the whole system is deranged. Simmons Liver Regulator has been the means of restoring more people to health and happiness by giving them a healthy Liver than any agency known on earth. It acts with extraordinary power and efficacy.

### NEVER BEEN DISAPPOINTED.

As a general family remedy for Dyspepsia, Torpid Liver, Constipation, etc., I hardly ever use anything else, and have never been disappointed in the effect produced. It seems to be almost a perfect cure for all diseases of the Stomach and Bowels.

## The How and Why of It.

Having been a number of years (prior to coming in the Astoria trade), in charge of the Departments, (in the largest Retail Cash Businesses in California, (one doing a business at the time, of over \$500,000 annually, the other having 5 houses in the state, for which I did the purchasing, which placed me in a position to obtain a first-class experience, and study the workings of a STRICTLY CASH BUSINESS, And see wherein it is as much interest to the Customer, as to the Merchant, when conducted upon honest principles, which I have done and shall continue to do in my business, as I have no fear of the consequences. I have made no accounts in my retail business, except in two or three instances, then where I was in debt to the parties for work done, or goods purchased at the time, and also intended to allow parties that I knew to take an article home on approbation, to see if it would fit, and when they had not the money with them, they to return the articles or the money; but, whereas, this was abused in two or three instances, (no charge being made, only memoranda, I was soon compelled (against my wishes in the matter), to make the same rules as were used in the firms before mentioned: **No Goods to Leave the House without being Paid for, or Collected when Delivered,** the goods to be exchanged or money refunded if everything was not satisfactory; to which none have a right to take exception when there is no favor shown to anyone, and all for the interest of my customers as well as for myself. Therefore I will repeat my rules in this advt., that is:

I sell all Goods in my Lines as Low as they can be Legitimately Sold, (notwithstanding what any other house may do).

In Retailing Goods I Sell every Article at One Price to everyone alike, and Strictly for Cash. And No Goods to Leave the House without being Paid for, or C. O. D.

It is well to give this style of business a trial and you will find it is of big interest to you as many others have in this city, and frankly acknowledge the same, while purchasing their

Clothing, Hats, Caps, Furnishing Goods, Trunks, Umbrellas, Etc., Etc., Etc.
