

The Daily Astorian.

ASTORIA, OREGON:

WEDNESDAY, OCTOBER 12, 1887

The Manzanita goes to Tillamook rock this morning.

Four steam vessels now plying between here and Tillamook: three of them direct.

The General Miles came in yesterday afternoon with 2,180 cases salmon from Gray's harbor.

A new postoffice has been established at Washaw, Tillamook county, with Sarah Pagtas as postmaster.

This is the 395th anniversary of the discovery of America by Christopher Columbus. This has much to answer for.

Chief of police Twombly wants all delinquent city taxpayers to make settlement as soon as possible. His office is at the city jail.

The Tonguin arrived in yesterday from Tillamook with 850 cases salmon: the A. B. Field left for Tillamook yesterday morning.

The next session of the county commissioners will be on the 20th inst., at which time the tax levy for the current year will be made.

The U. S. surveying steamer M. Arthur, which has been doing government work in this vicinity, returned to San Francisco last Monday. The Thos. Corwin will shortly leave there and resume her station at this city.

The work of laying the pipe-line on Main street will be finished to-morrow. It is considerable labor to get it properly into place. There will be three connections for the engines; one in front of the New York Novelty store, one by Wm. Edgar's, and one at the end of the line.

G. G. Smith, of this city, proprietor of the Acme cannery, on the lower Siuslaw, informs the Eugene Guard, that the run of salmon in the river now is immense. He said that three canneries had more salmon than they could pack and were compelled to restrict each boat to a certain number.

The British ships Andora and Nith cleared yesterday, the former for Hull, with 95,827 bus. wheat, valued at \$63,900; and the latter for Queens-town, with 51,706 bus., valued at \$33,627. By reference to our clearance report it will be seen that 33 1/2 per cent of this wheat was loaded at Astoria.

In the police court yesterday five members of the salvation army, arrested the evening before on a charge of obstructing the streets, were on trial. At the close of the evidence for the prosecution the judge continued the case to 1:30 p. m., to-day, and allowed the defendants to go on their own recognizance. G. W. Wade, arrested on a charge of fighting, was discharged.

Wedding invitation cards have been received and at the hospitable residence of Mrs. M. J. Badollet, on next Wednesday evening, will be held the wedding reception, following the wedding of her graceful and accomplished daughter, Miss Jennie Badollet and Mr. Charlton W. Fox. This will be one of the marriages where both bride and groom may deservedly be the recipient of most cordial congratulations.

J. W. Robinson, Esq., of Olympia, was before the court at Tacoma last Wednesday, and secured a writ of habeas corpus in the cases of Gus Bendfus, Robert Strongheart, Benj. Frederickson, Frank Nelson, Andrew Johnson, Leander Brown, John Thompson, Alex. Green and Thomas Jacobs, men who were indicted in Chehalis county for breaking the fish traps in the Chehalis river. They were locked up September 17th, and the court adjourned there on the 16th, and they have been confined ever since. They are to be given a hearing, and the court fixed to-morrow, in chambers, to hear them.

The New York Journal of Commerce in answering a correspondent as to the correct spelling of the word cigar, says: "The word is cigar. It is from the Spanish cigarra, which was originally the name of a particular kind of tobacco grown in Cuba. Segar is spelled as cigar is pronounced; it began in slang, as coal is now often spelled coal, and was continued, first upon signs to attract attention and finally as the phonetic method of spelling words according to sound. Segar has been so much sanctioned by occasional usage that it can hardly be called incorrect, but there is no other authority for it."

The plow men and the iron men and the wooden men have combined, and now even the undertakers are combining. An association of undertakers is to be formed in Portland to-morrow, at which rates of burying, etc., will be made. Frank Surprenant, of this city goes up to represent Astoria. Yesterday he offered very reasonable rates for burial, but there is no telling what they'll be when he gets back. Any one that has any notion of saving expenses and cutting off the daily expense of living by dying, had better hurry up and get planted, for the funeral tariff is liable to go up any day.

Attention, No. Ones!

Drill this evening (12th) at 7 o'clock: fines strictly enforced for non-attendance. C. J. TRESCARD, Foreman.

The Clatsop Ferry.

The Clatsop Ferry boat will continue her trips while the fine weather lasts, leaving Fairfield's Point at 9 A. M., and 3 P. M., returning from Adair's landing at 10 A. M., and 4 P. M.

A TERRIBLE RAILWAY ACCIDENT

The President Seeing the Country.

CHICAGO, Oct. 11.—A terrible accident occurred on the Chicago & Atlantic railway early this morning near Kottz, Indiana, in which the first report stated that twenty-five persons had been killed and as many more injured. The fast freight ran into the end of the passenger train, telescoping two coaches.

Later dispatches say the passenger train broke down near Kottz station and the engine started ahead, leaving the train, and stopped for water at Slate ditch. The engine got on a "center" and could not get back to the train. A stock train following and running on special time, crashed into the sleeper, telescoping sleeper and four coaches. So far fourteen bodies have been taken from the wreck, a doctor from Huntington, Indiana, being the only passenger identified. The rest were buried beyond recognition. Twenty-five or thirty were wounded. The engineer and fireman are not expected to live.

AT ST. PAUL.

ST. PAUL, Oct. 11.—The presidential party breakfasted together about 9 o'clock, and during the morning drove around the city; after the drive the party took lunch at the Minneapolis club and soon after left the city.

AT MINNEAPOLIS.

MINNEAPOLIS, Oct. 11.—The president and party arrived from St. Paul and were immediately escorted to the hotel; the streets were thronged with people and the party was accorded a magnificent ovation.

BAD STATE OF AFFAIRS.

Surgeon-general Hamilton has received the following telegram from Dr. Wall, president of the board of health:

TAMPA, Florida, Oct. 11.—In response to your telegram of inquiry as to the precise nature of the disease prevailing in the city, it is unquestionably yellow fever, though the popular sentiment of those remaining here is against it. There is albumen in the urine, with the characteristic hue. There was one death yesterday, and it is all over the place. The city authorities are doing nothing.

DEATH.

NEW YORK, Oct. 11.—Judge Thos. Manning, U. S. minister to Mexico, died this morning at the Fifth Avenue hotel. He had been ill about a week, having taken sick shortly after his arrival in this city to attend a meeting of the Peabody educational fund, of which he was one of the trustees.

In Brief, and to The Point.

Dyspepsia is dreadful. Disordered liver is misery. Indigestion is a foe to good nature.

The human digestive apparatus is one of the most complicated and wonderful things in existence. It is easily put out of order.

Greasy food, tough food, sloppy food, bad cookery, mental worry, late hours, irregular habits, and many other things which ought not to be, have made the American people a nation of dyspeptics.

But Green's August Flower has done a wonderful work in reforming this sad business and making the American people so healthy that they can enjoy their meals and be happy.

Remember—No happiness without health. But Green's August Flower brings health and happiness to the dyspeptic. Ask your druggist for a bottle. Seventy-five cents.

Regarding Land Office Information.

A land office circular says, under the section of the act of March 3, 1883, authorizing a change to be made for plats or diagrams, the fees for the same are hereby fixed as follows:

- For a diagram plat showing entries only..... \$1.00
For a township plat showing entries, names of claimants, and character of entry..... 2.00
For a township plat showing entries, names of claimants, character of entry and number..... 3.00
For a township plat showing entries, names of claimants, character of entry, number and date of filing or entry, together with topography, etc..... 4.00
For diagrams of part of a township a proportional amount is charged.

The commissioner of the general land office says, Sept. 30, 1884: "You are not permitted to furnish, or allow any one else to procure from your records, information showing status of lands in your district, except it is in the form of a plat or diagram showing what lands are taken, your charge therefor not to exceed the rates prescribed. Parties writing for numbers, dates, descriptions, etc., of several tracts can get this information by ordering plats."
The land office regulations say that "it is no part of duties of the registers and receivers of the U. S. land offices to make out applications for homestead or pre-emption settlers, and if they do so for accommodation they can make no charge therefor. They cannot act as attorneys, agents or locators nor enter nor file upon land themselves."

Slightly Inaccurate.

On account of the steamer Walla Walla having a patch on her bottom, the authorities refused to allow her to undertake the job of dredging out the Columbia river with her wheel, and she was ordered to return to Seattle to load coal for San Francisco.—Seattle Post-Intelligencer.

It would be a big contract for the Walla Walla, or any other steamer, to take to "dredge out the Columbia river with her wheel." As doubtless our usually correct contemporary knows, the dredging was proposed to be done on a sand-bar in the interior.

OUR LOCAL LEGISLATURE.

The city council met in regular session last evening.

A petition of R. R. Marion for a transfer of his liquor license to Wm. Koch was granted.

The reports of the auditor and police judge and street superintendent for September were read and referred to appropriate committees. (The receipts of the police court for September were \$100.15.)

An ordinance granting a street railway franchise to J. W. Conn, F. M. Newell and assigns was read first and second times and referred to committee on streets and public ways.

J. W. Conn said the franchise was not asked for speculative purposes; that it was the intention of the projectors to build the road if the franchise was granted them; that they would if granted the franchise put \$1,000 on deposit till they had the iron on the wharf to build the road, and take the \$1,000 down when that iron was so delivered; that if they didn't so have the iron as agreed, that they would forfeit the \$1,000; if they did so have the iron, they would take the \$1,000 so deposited to pay for it.

J. W. Newell being called on thought that it would be a good idea if a franchise of the kind was granted; that a home company should have the preference: that it was his and his partner's bona fide intention to build the road and if so built the resultant profit would be retained here, instead of going to Portland or elsewhere.

Councilman Grabe thought Mr. Newell's argument a good one and endorsed it emphatically. Councilman Bergman said that the previous ordinance as well as the present one were now in the hands of the committee on streets and till the third reading of the ordinance came up it was somewhat premature to begin argument upon the question.

Councilman Sherman proposed an immediate report, so that it could be at once definitely settled.

Councilman Carruthers thought that the best interests of the city were to be considered, and it required a little time to get a proper report; that haste was inadvisable.

Councilman Fulton thought that the committee on streets had the present disposition of the matter and it was on their report, whatever it might be, that debate would be in order.

An ordinance transferring liquor license from R. R. Marion to Wm. Koch, was passed under suspension of the rules.

An ordinance extending the time for the improvement of Cushing's Court street, was passed under suspension of the rules.

An ordinance prohibiting the obstruction of streets and providing for the punishment thereof, was read first and second times.

The following bills were ordered paid: S. T. Harrison, \$3.25; J. F. Halloran & Co., \$70.36; P. L. Taylor, \$22; H. A. Snow, \$22.

The following claims were referred: Carruthers, McTavish & Co., \$1; Griffin & Reed, \$1.85; H. T. Hudson, \$43.25; Astoria Gaslight Co., \$124.25; \$7.70; Electric Light Co., \$108; M. C. Crosby, \$10.50; Clatsop Mill Co., \$5.64; West Shore Mills, \$29.20; R. R. Marion, \$2.75.

An ordinance making appropriation of \$255 to pay claim of W. W. Parker was passed under suspension of the rules.

An ordinance amending ordinance 989, entitled "an ordinance regulating the storage of combustible materials," was passed under suspension of the rules. Adjourned.

SCRATCHED 28 YEARS.

A Scaly, Itching Skin Disease with Endless Suffering Cured by Cuticura Remedies.

If I had known of the CUTICURA REMEDIES twenty-eight years ago it would have saved me \$200.00 (two hundred dollars) and an immense amount of suffering. My disease (Psoriasis) commenced on my head in a spot not larger than a cent. It spread rapidly all over my body and got under my nails. The scales would drop off of me all the time, and my suffering was endless, and without relief. One thousand dollars would not tempt me to have this disease over again. I am a poor man, but feel rich to be relieved of what some of the doctors said was leprosy, some ring-worm, psoriasis, etc. I took... Sarsaparilla over one year and a-half, but no cure. I went to two or three doctors and no cure. I was not of course the CUTICURA REMEDIES, too much. They have made my skin as clear and free from scales as a baby's. All I used of them was three bottles of CUTICURA, and three bottles of CUTICURA SOAP. If you had been here and said you would have cared me for \$200.00 you would have had the money. I looked like the picture in your book of Psoriasis (picture number two, "How to Cure Skin Diseases"), and now I am as clear as any person ever was. Through force of habit I rub my hands over my arms and legs to scratch once in a while, but to no purpose. I am all well. I scratched twenty-eight years, and it got to be a kind of second nature to me. I thank you a thousand times. Any friend more that you want to know, write me, or any one who reads this may write to me and I will answer it.

Catarrhal Dangers.

To be freed from the dangers of suffocation while lying down; to breathe freely, sleep soundly and undisturbed; to rise refreshed, head clear, brain active and free from pain or ache; to know that no poisonous, putrid matter defiles the breath and rots away the delicate machinery of smell, taste and hearing; to feel that the system does not, through its veins and arteries, suck up the poison that is sure to undermine and destroy; is indeed a blessing beyond all other human enjoyments.

To purchase immunity from such a fate should be the object of all afflicted. But those who have tried many remedies and physicians devoid of relief of cure.

SANFORD'S RADICAL CURE meets every phase of Catarrh, from a simple head cold to the most advanced form of Catarrh of the Throat, Larynx, Bronchus, and Lungs. It is local and constitutional. Instant in relieving, permanent in curing, safe, economical and never-failing.

SANFORD'S RADICAL CURE consists of one bottle of the RADICAL CURE, one box of CATARRHAL SOLVENT, and one IMPROVED INHALER, all wrapped in one package, with treatise and directions, and sold by all druggists for \$1.00.
