The Daily Astorian.

ASTORIA, OREGON:

TUESDAY.....OCTOBER 18, 1887

Skating at the rink to-night.

The Clatsop ferry has temporarily suspended operations.

Selig & Surprenant, the champion dead wall decorators, were busy yesterday.

THE ASTORIAN is confidentially told of seven weddings to take place between now and 1888.

The Astoria Building & Loan association is going right ahead and is a prosperous and profitable enterprise.

The connections in the Main street pipe line are all made and pronounced satisfactory. A test of the line will be made to-day or to-morrow.

The Lone Star Packing company, at the Siuslaw, of which G. G. Smith is manager, report a good run of fish and a satisfactory pack thus far.

Portland has given up the idea of raising the hotel subsidy and proposes to build the hotel with money raised in the city. That's business.

Capt. J. G. Hustler doesn't want any one in district No. One who has not yet paid the school taxes for the current year to forget that to-morrow is the last day.

The *C. S. Hulbert*, six months from New York, with plenty barnacles, has started to Portland: the barnacles are liable to be squeezed a little on the way.

The editor and proprietor of the Cowlitz *Advocate*, at Kalama, has bought the Northern Pacific railroad building. It has 26 rooms, and cost $6,000—when Kalama was a rival to Astoria.

Any person wishing to join the grammar class at the Young Men's Christian association is invited to attend the preliminary meeting this evening in the Y. M. C. A. office at 7:30 o'clock.

No charge is made for birth, marriage or death notices, and they are solicited as interesting news items: but they will not be inserted on hearsay, and must be furnished by some responsible party.

A late order issued by the British board of trade requires every vessel under the English flag to carry her boats keel down. It is considered by that body that boats carried in the customary manner on skids, viz: with keel up, are not to be considered as ready for use.

There is only one Billy Emerson in minstelsy. He and his company are advertised to appear at Ross' house next Monday. The simple announcement will insure a packed house. The box-sheet for the sale of reserved seats will be open at the New York Novelty store next Thursday at 10 A. M.

In the police court yesterday two homos, each claiming the name of John Doe (who was erroneously reported dead some time ago), were assessed $7 for violating the peace and dignity of the city. It is believed that at least one of the parties was mistaken in his name. It can't be that there are two such bad men as John Doe in the city.

A rumor is current in Portland that Gen. Anderson, chief engineer of the Northern Pacific, has been requested to hand in his resignation. No one seems to know the cause, but one gentleman attributes it to economy, the Northern Pacific having practically finished the Cascade branch with the exception of the tunnel, and there is, therefore, but little need for an engineer.

Last Saturday a painful accident befell the nine-year-old daughter of L. B. Chase, residing at Knappa. While playing around a pile of lumber one of the pieces loosened and fell, striking the little girl on the jaw, breaking it, and felling her to the earth. It then rolled on her and broke her right thigh. The little sufferer was brought to the hospital where Dr. J. A. Fulton supplied the needed medical assistance.

On the *Columbia* yesterday went 502 cases salmon, 3,737 bdls. shooks, 7,000 cases empty cans, 50 sacks oysters, and 70 boxes cranberries, from Ilwaco. Cranberry shipments from Astoria are something new. The salmon cans go to San Francisco, and from there to different coast canneries. The shooks will be distributed the same way. Some of the cranberries may eventually find their way back here retailed to the consumer.

A well known railroad man told a *News* reporter Saturday: "The proposed joint lease of the O. R. & N. by the Northern and Union Pacific lines is off, and I doubt if it will come up for another year. Lately daily meetings of the Northern Pacific directors have been held in New York to reach some decision regarding the matter, and to arrange for a new loan of $13,000,000. Private advices bring the information that the lease matter has been dropped."

Two travelers, en route to San Francisco on the *State*, stopped into THE ASTORIAN office yesterday morning to get some papers, write letters and get posted. "How many people live here?" asked one. "Eight thousand," was the answer. "Great Cæsar's ghost!" said he; "I asked two men on the street, one said 3,000 and the other 4,000, and now you say 8,000. Say, ain't you raising it?" He was gently assured that there was no raise about it. It was simply a show down.

At the Portland Mechanics' fair, T. J. Crouch exhibits a new discovery, which is one of great promise regarding the possibilities of electricity. By immersing zinc in salt water, in connection with lead partially immersed, positive and negative electrical force can be generated by the action of the sad sea waves, and with an induction machine electric light may thus be manufactured. Thus by the rise and fall of the tide Clatsop beach could, and sometime in the far off future probably will, be lighted by electricity generated by the rise and fall of the tide.

ILWACO ITEMS.

MONDAY, 17.

Capt. Al. Harris takes command of the Cape Hancock life-saving station to-day.

There was an enjoyable dance at the Central hotel on last Saturday evening in honor of the landlady's birthday. The hospitality of this popular house is well known and appreciated.

A party of four married men took a sail over to Skipanon yesterday. They were all eastern men, and emphatically decided that the residences of D. K. Warren and C. A. McGuire, the bands of cattle and sheep, the crops of vegetables surpassed anything they had seen on the coast. The party returned with a boat load of apples that cost two-thirds less than those brought into our town by the farmers of this peninsula. X.

Regarding the Railroad.

This is all THE ASTORIAN knows about the railroad since last mention of it and till it learns something more: Just before starting for New York and Boston on the 10th inst., Col. J. H. Woodard and Mr. Pettibone (who is managing the building of a railroad from Napa, Cal., northward through to Lake county) had a consultation at Oakland, when it was decided that upon Woodard's arrival in New York he would lay the Astoria matter before the company's manager there, and see what steps could be taken for work this winter. It is possible that either of these two gentlemen will be here before long.

The first, the foremost, the necessary thing for us to do here is to complete the subsidy. Till that is done nothing can be promised or decided. The subsidy first assured and then Astoria will have done her part. The next move then comes from the party of the second part.

Private Lectures.

At two o'clock this afternoon, Prof. McDonald will deliver a free lecture to ladies only, at Liberty Hall, upon how to acquire health, retain youth, augment beauty and enhance happiness. This evening he will lecture to gentlemen only, on manhoood, the mistakes of life, and their remedies. Admission free. These lectures impart too much valuable knowledge to be missed. "The Rainbow."

That is the name of a little sled that will lie all unused this winter among the bric-a-brac in one home. It is a pretty, cheerful thing, tied with long, bright ribbons of a glad color, and covered with an array of little toys, and a boy's broken-bladed knife. The name of death is never spoken in connection with it. Some times a man stands looking at it, with a troubled face, as if wondering whether indeed this were not death, and that life, and why we have so strangely reversed the terms. And when it is night, and no one sees her, a woman kneels there and kisses all that the little hands have touched, and goes through a pantomime of deathless grief. But mostly they are cheerful as those who have treasure in heaven, and say gently, "he has gone away," or "he is asleep."

"Blessed sleep,
From which none ever wake to weep."

Renews Her Youth.

Mrs. Phœbe Chesley, Peterson, Clay Co., Iowa, tells the following story, the truth of which is vouched for by the residents of the town: "I am 73 years old, have been troubled with kidney complaint and lameness for many years: could not dress myself without help. Now I am free from all pain and soreness, and am able to do all my own housework. I owe my thanks to Electric Bitters for having renewed my youth, and removed completely all disease and pain."

In Brief, and to The Point.

Dyspepsia is dreadful. Disordered liver is misery. Indigestion is a foe to good nature.

The human digestive apparatus is one of the most complicated and wonderful things in existence. It is easily put out of order.

Greasy food, tough food, sloppy food, bad cookery, mental worry, late hours, irregular habits, and many other things which ought not to be, have made the American people a nation of dyspeptics.

But Green's August Flower has done a wonderful work in reforming this sad business and making the American people so healthy that they can enjoy their meals and be happy.

Remember:—No happiness without health. But Green's August Flower brings health and happiness to the dyspeptic. Ask your druggist for a bottle. Seventy-five cents.
