WM. BOCK,

John Buckley, while roaming about in the woods the other day, To Balance says the Meriden Journal, came across a snapping - turtle. He brought it into the city and ever To am't from Liquor Licenses.
since the hard-shelled captive has "Billiard Licenses." since the hard-shelled captive has had the floor of the Central telephone office to itself. Saturday night John the ight he would kill the animal and 1 olish up the shell as an ornament. To insure a speedy demise he let the turtle snap at the end of a wire, which it did, hanging on to it like a vice. John then applied another wire under the shell and turned on the current The turtle, on feeling the shock, gave another bite, held on tighter, shut the shell to, and John heard the current go through it making a noise like a small planing machine. After five minutes he removed the wires and the turtle was apparently lifeless. He laid it on the floor and thought he would open it the day. What was his surprise on coming down next morning to find the hardshelled corpse walking all over the floor and as hungry as a hired man. John was as completely surprised as the turtle must have been when it had the wire in its teeth and the current was first turned on. The shock of electricity, if applied to a man, is strong enough to take his clothes off, and would take away his ambition for work for some time, possibly killing him.

CURED OF MALARIA,

22 Florida St., Elizabeth, N. J., Mar. 17, 1884. I have been using Allcock's Por-ous Plasters for the last five years. Some two years ago, after having been sick for upwards of six months with malaris, I found myself with an enlarged spleen, dyspepsia, and constantly troubled with a headache, and my kidneys did not act very well either. Having spent most of my money for medicine and medi-cal advice, I thought to save ex-pense I would use Allcock's Porous PLASTERS, two on the small of my back, one on the spleen or ague cake, and one on the pit of the stomach, just under the breastbone. I con-tinued using the Plasters about thirty days, changing them every week. At the end of that time I was perfectly well, and have re-mained so ever since.

About twenty years ago I discovered a little sore on my cheek, and the doctors pronounced it cancer. I have tried a number of physicians, but without receiving any permanent be Among the number were one or two specialists, The medicine they applied was like fire to the sore, causing intense pain. I saw a statement in the papers telling what S. S. S. had done for others similarly afflicted. I procured some at once. Before I had used the second bottle the neighbors could notice that my cancer was healing up. My general health had been bad for two or three years-I had a hacking cough and spit blood continually. I had a severe pain in my breast. After taking six bottles of S. S. S. my cough left me and I grew stouter than I had been for several years. My cancer has healed over all but a little spot about the size of a half dime, and it is rapidly disappear-
