

The Daily Astorian.

ASTORIA, OREGON: FRIDAY, NOVEMBER 4, 1887

Allen, the painter, has a handsome new shop, corner Fourth and Jefferson.

Both prohibitionists and anti-prohibitionists agree on one thing—votes count.

It is calculated that the Yaquina and Alsea bay salmon catch this fall is worth \$130,000.

The subsidy fund has been further augmented by a \$4,000 subscription from Geo. W. Hume.

It is whispered round that two Astorians, now visiting in other parts of the Union, will return with brides.

Officers from the fort yesterday were in the city making preparations for their contemplated departure to the Presidio.

The Montezuma goes on the West-port route again leaving here at two this afternoon, and making a round trip to-morrow.

Those who have declared their intentions to become American citizens since November 8th, 1886, can not vote next Tuesday.

U. S. Marshal Barton Atkins goes to San Francisco on the Oregon to sell 2,000 seal skins seized from the schooners Caroline, Onward and Thornton.

Arthur Clough, a painter, aged 30, unmarried, was instantly killed last Wednesday, at Theama, by falling from the roof of a schoolhouse he was painting.

In a decree in a divorce last Wednesday, Judge Stearns, of Portland, announced supplementary, that hereafter, divorce cases before him, would be tried in open court.

The schooner W. S. Boone arrived yesterday to load 500 M feet lumber at the Clatsop mill; the Steamer went to sea; the pilot schooner G. C. White crossed out; the pilot schooner G. C. Moody is expected to-day.

Any one who is a lawful voter of the state can vote next Tuesday at any polling place in the state, the same as for state officers. Voters who are temporarily in other precincts than those in which they reside can vote in that precinct.

The chairman of the committee of ladies who propose to work at the polls next Tuesday asks THE ASTORIAN to state that the hundred ladies who have promised to aid in that way are invited to meet at the Y. M. C. A. rooms early next Tuesday morning.

It was 104 1/2 pounds of opium that was seized on the Idaho at Port Townsend. The stuff is valued at \$1,200. Members of the crew are suspected. Ninety-eight pounds of the 104 1/2 were found in the life-boat on top of the house, five pounds in the shaft alley of the fire room and a pound and a half in the butcher's quarters.

The work on the jetty at Fort Stevens still continues and will till the close of the month. The jetty has been advanced about 800 feet, but the stone has not been delivered in sufficient quantities at any time during the season. An adequate appropriation next January or February would put matters in satisfactory shape for rapid progress next summer.

In the justice court yesterday, Chas. Wilson, was on trial, charged with assault and battery on Mrs. Adolph Johnson; the evidence went to show that the defendant had smashed pictures at the Johnson residence and made derogatory remarks concerning the parentage and social standing of the parties present. The plank cost him \$25 including costs. The case will be appealed.

The Salvation army's paper, War Cry, says it is rough to have girls kept in a jail all night. So it is: but the girls refused bail; they needn't have stayed in jail ten minutes if they didn't want to; it was a case of choice, not of necessity. Bail was proffered and refused. The chance for a little notoriety, a little martyrdom was too good to be let go so easily, and was worked for all it was worth.

Gen. Campbell, a clever and eloquent gentleman, made another good address before a large audience at Liberty Hall last evening. It was a continuation of his argument and assertions relative to prohibition of the evening before and was loudly applauded. We would be glad to have the general remain with us for a while, but of course business is business and he has to go elsewhere.

The Seattle Post-Intelligencer complains of fog on the Sound, and in its issue of the 2nd gives this as one day's record: "The Olympian was aground seven hours near Fort Townsend last Saturday. The Premier was lost in the fog off the straits twenty-four hours, from Saturday afternoon to Sunday afternoon. The Princess Louise went aground Sunday morning and remained all day, losing a round trip to and from Vancouver in consequence. The steamship Walla Walla went on Admiralty head Sunday and stayed there till the next morning."

Telephone Lodging House. Best beds in town. Rooms per night 50 and 25 cts. per week \$1.50. New and clean. Private entrance.

Apples, Apples, Apples. Sweet and Sour, Eating and Cooking, cheap at Thompson & Ross.

Sweet Apple Cider. At the Astoria Soda Works.

FROM EUROPE AND THE EAST.

Specials to Readers of "The Astorian."

CHICAGO, November 3.—Fire was discovered early this morning in the Chicago club house, directly opposite the Palmer house on Monroe street. A general alarm was quickly turned in and the arrival of a score of engines caused a wild panic among the guests of the Palmer house and Clifton house, which adjoin the club-rooms on the east. Scores of guests sprang out of bed and rushed in terror into the street with the impression that the hotel was on fire. Fifty streams of water were soon playing on the fire and torrents of water soon poured down the stairways and elevator shafts, extinguishing it, but completely ruining the furniture, pictures and everything in the club house. The building cost \$100,000 and the furniture \$25,000, both fully insured.

DUBLIN, Nov. 3.—Wm. O'Brien has given warning to the governor of Tullamore jail that he will refuse to do menial offices, wear the prison garb or associate with criminals.

VINETA, I. T., Nov. 3.—A special from Tablequah reports that the greatest excitement prevails at the capital of the Cherokee nation. Half of the inhabitants of the city have fled to tall timber for refuge from the impending war which will probably begin on Monday. The dispute is over the election of the chief of the Cherokee nation.

CHICAGO, Nov. 3.—Specials from New Orleans say there was no game of base ball yesterday, owing to the conduct of the New Yorkers, some of whom, it is charged, have been drinking heavily since their arrival here. It is not unlikely that the New York combination will be broken up in New Orleans without proceeding further on their Californian trip.

LONDON, Nov. 3.—An explosion of fire damp occurred this morning at Matlock, county of Derby; twenty-five men were in the pit at the time; five dead bodies have already been removed.

JACKSON, Fla., Nov. 3.—There were seven new cases of yellow fever at Tampa, and two deaths during the twenty-four hours ending last night. There is no yellow fever in this state outside of Tampa.

WASHINGTON, Nov. 3.—A special says congressman W. L. Scott has definitely decided to retire from the turf and to sell his racing stables.

LONDON, Nov. 3.—The imperial commissioner at Cape Colony, has officially notified the home government of the discovery of extensive gold fields in Namaqua land in the north-western part of Cape Colony district.

BOULOGNE, Nov. 3.—Fifty-nine fishermen have been missing since the gale; seven bodies lashed together have been washed ashore at Etalibes.

BRUSSELS, Nov. 3.—The crown prince Frederik William will leave Basteno to-night for San Remo.

BRUSSELS, Nov. 3.—Sixteen thousand miners have struck work in Betronage district, and a renewal of rioting is feared.

A Three-Masted Schooner.

The largest three-masted schooner ever built on the Pacific coast is the M. F. Jewett. She is owned by the Gardiner Milling company, and was recently constructed at Port Ludlow by Middlemass & Boole to ply in the lumber trade between Umpqua river and San Pedro and San Diego. Her register is 452.49 tons, and her carrying capacity 680,000 feet of lumber. She is 150 feet over all in length with 150 feet of keel; her beam is 37 feet and her depth of hold 12 feet. The three lower masts are each 96 feet in length, and each of the top masts 45 feet, giving a total height of 141 feet. Her main boom measures 60 feet in length, main boom 42 feet and from jib-boom end to spanker-boom end is nearly 200 feet. She is supplied with patent steering and hoisting gear, as well as other modern appliances, and on her maiden trip, with 620,000 feet of lumber, developed an average speed of 9 1/2 knots.

They Have Different Views.

When Gen. W. T. Sherman was en route to Portland from San Francisco after the G. A. R. encampment last year, he came on the deck of the steamer expressly to see Fort Canby; "If that point was properly fortified," he said to those standing around him, pointing to the lowering point of land, "it could be made the strongest position in the United States." How different are the views of Gen. Sherman and the war department.—News.

Notice.

A splendid opportunity will be allowed all who desire to purchase Christmas presents at the Bazaar to be held by the Ladies of Grace Episcopal church, at Liberty hall on Thursday and Friday Nov. 10th and 11th. Doors open at 5.30 p. m. on the 10th, at which hour supper will be served for all who desire it at the low price of 25 cents. The Western Amateur band will add to the enjoyment of each evening by furnishing some excellent music. Come one, come all.

Malen, Dr. Gasenhoffer, M. Miller, Walter Seaborg, A. Steene, A. McLean, C. Stuart, G. T. Stewart, Mrs. P. O'Rourke and family, Frank Marden, Fred Marden, are at the Parker House.

Give Them a Chance!

That is to say, your lungs. Also all your breathing machinery. Very wonderful machinery it is. Not only the larger air-passages, but the thousands of little tubes and cavities leading from them.

When these are clogged and choked with matter which ought not to be there, your lungs cannot half do their work. And what they do they cannot do well.

Call it cold, cough, croup, pneumonia, catarrh, consumption or any of the family of throat and nose and head and lung obstructions, all are bad. All ought to be got rid of. There is just one sure way to get rid of them. That is to take Boschee's German Syrup, which any druggist will sell you at 75 cents a bottle. Even if everything else has failed you, you may depend upon this for certain.

Holes in Shells Accounted For.

You sometimes see shells along the shore having a hole in their side. This hole is perfectly round, and is beveled or counter sunk. It seems to have been made artificially and with great care. How is it to be accounted for? Another shell, the common cockle, which is found in great numbers all along our shores, has done the mischief. It has a tongue, furnished with rows of teeth, giving it a resemblance to a file. When the little creature is hungry, it finds another shell containing a living inhabitant. It at once fastens itself to it, and by means of its teeth-covered tongue commences boring or filing a hole, and continues at this employment until it has gotten through the shell to the living inhabitant within. This is what it was after. It has found its food, and can now at its leisure make its meal.

Notice to Mariners.

FAULTLESS FAMILY MEDICINE

"I have used Simmons Liver Regulator for many years, having made it my only Family Medicine. My mother before me was very partial to it. It is a safe, good and reliable medicine for any disorder of the system, and if used in time is a great preventive of sickness. I often recommend it to my friends, and shall continue to do so."

Rev. James M. Rollins, "Pastor M. E. Church, So. Fairfield, Va."

TIME AND DOCTORS' BILLS SAVED BY always keeping Simmons Liver Regulator in the house.

"I have found Simmons Liver Regulator the best family medicine I ever used for anything that may happen. I have used it, in Indigestion, Colic, Diarrhoea, Biliousness, and found it to relieve immediately. After eating a hearty supper, if, on going to bed, I take about a teaspoonful, I never feel the effects of the supper eaten."

"OVID G. SPARKS, "Ex-Mayor Macon, Ga."

"EX-ONLY GENUINE"
