An Able Protector.

If there is a more able protector against the incursions of disease than Hostetter's stommen Bitters, we have yet to learn of it Against the periodic attacks of fever and ague it affords a sure defence, it renew waning vitality, and counteracts the infirm waning vital ty, and counterests the infirmities of age; it prevents dyspepsia from heaten circo ie, and eventually annihilates it. It rouses the liver and kidneys when dormont and insures a regular habit of body. To the nervous it is of inestimable benefit, importing steadilles and vigor into an enfective phisique. The term delicate health is usually ano her name for debility. While the Bitters is procurable, the weak need never despair of physical reinforcement. Persons whose avorations are sedentary and laboratous, r involve exposure to unfavorable climatic influences, will also find the Bitters an able protector.
