The judges and clerks of the city election, to be held on the second Wednesday in December, will be appointed at the special council meeting next Tuesday evening.

Mayor Trullinger, with the assistance of the Walrus and numerous small craft, succeeded in saving all but some seventy-five or one hundred logs from his raft that broke last Monday night.

The fine fat turkeys and generous supply of wild game displayed in front of hotels, restaurants and various markets in the city yesterday promise an attractive bill of fare on Astoria tables to-day.

In San Francisco, Francis Cutting, Thomas H. Hobson, Thomas R. Foster, N. W. Tallant and F. P. Kendall have organized the Alaska Coast Fishing company, with a capital stock of \$120,000, divided into 240 shares.

The Young's river pulp mill will begin operations to-morrow, it is learned, the machinery recently purchased and shipped thereto having been placed. Spencer N. Johnston is busy getting out a supply of pulp wood for the establishment.

As time passes, the passengers on the Telephone last Sunday seem to be more impressed with their wonderful good luck and Capt. Scott's admirable presence of mind, which saved them on the only chance in ten thousand from horrible death.

Don't forget the Thanksgiving dinner by the ladies of the Congregational church in the Y. M. C. A. gymnasium from 12:30 to 4 p. m., and supper from 6 to 8 p. m. Friends contributing supplies are requested to send them as early as possible. Dinner 50 cents and supper 25 cents.

Deed was made yesterday by B. C. Kindred and wife, of Fort Stevens, transferring sufficient realty to the United States for the establishment

of a life saving station at that place. Necessary work to put the station in operating condition will be begun as soon as the necessary formalities will allow.

At half past two this morning dark and heavy clouds drifted in with a southwesterly breeze, the stars that shone so brightly and the frost that bristled and sparkled in the fore part of the evening were not to be seen, and a gentle rain set all the eaves dripping. Half an hour later everything outside was white with snow.

Beginning December 1st, the Western Union Telegraph company will make a sweeping reduction in rates of messages. The maximum rate for any message of ten words, within the borders of the United States and Canada, will be 75 cents. The former price was \$1. This proportion of reduction will be maintained on almost all former rates.

A highly prized heirloom, the property of R. C. Elliott, of Cathlamet, is a family bible in two volumes. Its title is "The Family Expositor, containing the Sacred Text of the Old and New Testament." It was published by subscription, and the names of 1,856 subscribers are given. The book was printed by Henry Galbreath, and is dated "Dandee, M.DCC.LXIII."

Andrew Hamilton, who was arrested in Baker City a couple of months since for a murder committed in Illinois twelve years ago, has just been acquitted, it having been proven that he acted simply in self-defense. He was well and favorably known in this city by the name of Dick Harcrater, and his many friends will be pleased to learn of his acquittal.

The first entertainment in the lecture and entertainment course of the Young Men's Christian association will be given to night at Resene club hall. This will be a magic lantern entertainment entitled a "Ramble round the world in fifty minutes." Admittance to those not members of the association 25 cents. To close with twenty-five comic views.

It is stated that a Boston, Mass., fishing company are investigating the inducements on the Sound for the establishment of a large business for fishing, curing and canning halibut, sardines and salmon and shipping fresh fish in ice. Perhaps it is not out of place to suggest that inducements for such an enterprise may be found in the immediate vicinity of Astoria.

Frighth shipments to Shoalwater bay and Gray's harbor, from this port, are increasing very noticeably—so much so, in fact, that a deal of comment is elicited as to the onward movement of business and improvement in those fertile sections. Astoria merchants are awakening to this item of traffic, and, doubtless, nothing necessary to do will be left undone to secure its advantages to this place.

It was reported around yesterday that the delayed adjustment of the state tax levy for the current year would be: State purposes, four and nine-tenths mills; militia, one-fifth mill; university, one-tenth mill. But county clerk Trenchard received a telegram yesterday from secretary of state McBride stating that the tax levy would not be made for several days, owing to the failure of Yamhill county to send in its assessment returns.

After No. 2's had pumped the water from the hull of the Telephone it was towed to Hume's dock. Large pumbers visited the dock to take a look at the conglomeration of dismantled machinery, charred, half consumed framework, bent and twisted rods and stays, a black and dismal sight, all that remains of the once beautiful and swift Telephone. The Gov. Newell took the wreck in tow for Portland yesterday afternoon.

The subject of the utilization of the foothill lands, in Clatsop county, in the cultivation thereof of fruits of many varieties is being discussed hereabouts with a worthy degree of earnestness. There is no room for possible doubt that fruit culture on the lower Columbia has been neglected to the serious loss of those locally concerned. While our box factories are sending away great shipments of empty boxes, the consumers of Clatsop county are receiving and paying fancy figures of profit on great shipments of boxes filled with fruits and vegetables produced elsewhere. There's the difference—and no close figuring is required to discover where that difference goes.

In Brief, and to The Point.

Dyspepsia is dreadful. Disordered liver is misery. Indigestion is a foe to good nature.

The human digestive apparatus is one of the most complicated and wonderful things in existence. It is easily put out of order.

Greasy food, tough food, sloppy food, bad cookery, mental worry, late hours, irregular habits, and many other things which ought not to be, have made the American people a nation of dyspeptics.

But Green's August Flower has done a wonderful work in reforming this sad business and making the American people so healthy that they can enjoy their meals and be happy.

Remember:—No happiness without health. But Green's August Flower brings health and happiness to the dyspeptic. Ask your druggist for a bottle. Seventy-five cents.

THE LIFE SAVING STATION.

A Site Selected Subject to Official Approval.

Major Blakeney and Prof. Von Beyer have selected a site for the location of the Point Adams life saving station, subject to the approval of the secretary of the treasury. The spot determined upon is in the cove to the eastward of Fort Stevens, at a point about the middle of the donation claim of B. C. Kindred.

It is proposed to provide the new station with a new life boat of greater capacity than any now in the service, as well as a self-righting and self-bailing surf boat. The station will be furnished with the most improved appliances of the life saving service, and will be manned with a trained crew. There will be some necessary delay in commencing the work, but Major Blakeney hopes that representations to the proper authorities will enable a life saving crew to be established at that point in time to render services to unfortunate fishermen or others next season. In the ordinary course of such matters, if everything goes well, the station would probably be ready for efficient service some time about next fall. When the safety of so many lives is concerned the establishment can be made none too soon, and Major Blakeney and Prof. Von Beyer deserve credit for their endeavors to expedite the location of a life-saving crew at the Point Adams station.

MONTA CRISTO.

The advent of the Lewis Monte Cristo company, next Monday, Nov. 28, at Ross' opera house will be a great treat for our citizens. They come to us heralded by the press east and west of St. Paul, Minn., with the highest encomiums. The following lines clipped from the evening Telegram of Portland, Nov. 21 speak for themselves:

A very creditable performance, indeed, was that given of "Monte Cristo" last evening by Mr. Horace Lewis and his company. The drama of the piece, the scenery, the costumes, the acting and everything connected with the performance was much better than the only other presentation ever witnessed in Portland, that given by the Tinsley company some two years ago.

Mr. Lewis is a careful, painstaking actor and has directed about him one of the best traveling companies that has visited the northwest in some time. As the rollicking young scion of Edmond Dantes, honest and loving, warm-hearted and ready to forgive his enemies, Mr. Lewis gives a fine characterization of the part, one that it would be very hard indeed to better. As the Abbe Busoni he was quiet, calm and strong, repressing the emotion that rose in his breast, as becomes the man who has but the one object in life, to revenge. As the Count of Monte Cristo Mr. Lewis furnishes a powerful character, making one forget the slightness of his figure, which might otherwise militate against him. Owing to unfamiliarity with the acoustic properties of the New Park, some of Mr. Lewis' speeches delivered at the back of the stage were not heard well in the back part of the theatre. This, of course, will not be complained of a second time.

Mr. James Taylor, as North, is also a finished actor. His various disguises are all well assumed and well carried out. His scenes with Villefort were especially fine.

The support throughout was uniformly good, there being no sticks in the company. Reserved seat sale will open at the New York Novelty Store on Saturday, Nov. 26, at 10 o'clock.
