Look in Griffin & Reed's window and see the elephant.

The Columbia Water Co. adds \$750 to the railroad subsidy fund.

The Rosie Olsen is off for Nestucca. The Tonquin is in from the Nehalem with 1,512 cts. salmon.

Butter and eggs from Iowa, cheese from Minnesota and Illinois, and hams from Ohio meet ready sale.

A driver for R. R. Marion slipped and fell yesterday morning, knocking out three of his front teeth and cutting his lip badly.

Reserved seats for the Monte Cristo performance at the New York Novelty store. The sale closes at 6:30 to-morrow evening.

At the Clatsop mill yesterday a falling stick of timber struck an Italian working there, inflicting a painful but not serious scalp wound.

The Gen. Miles arrived from Tillamook yesterday evening with 1,000 cts. salmon. 13 feet of water on Tillamook bar. She brought up 44 Chinamen.

There will be no services at 2 P. M. at the Methodist church to-day; preaching by Rev. W. S. Harrington at 7 P. M. and quarterly conference at 8 P. M.

The man who moves down life's flowery path and finds it strewn with sweet surprises is he who knows just how it's done, who keeps a store and advertises.

The ladies of the Congregational church wish to extend their thanks to those who so kindly assisted them with their dinner on Thanksgiving day and for the liberal donations.

Circulars sent to cannerymen by commission merchants in San Francisco quote salt salmon at \$15 per barrel. This is double the amount paid a few years ago for the same article.

On next Thursday the Western Union Telegraph company will reduce their charges so that the maximum rate for ten words to any point of the United States will be 75 cents. The former price was \$1.

Goodall, Perkins & Co., representing the O. R. & N. company, will file a claim with the harbor commissioners for damages resulting from the cave at the Oregon dock when the Oregon returns to-morrow.

Before a commission in lunacy yesterday appeared one Jonas Bentilla, who, being adjudged of unsound mind, was declared duly qualified for admission to the insane asylum, to which institution he will be taken to-morrow.

When the steamer Telephone's safe was opened, says the News, the contents were found in a badly burned condition. On opening the cash box most of the coins were found to be melted into and formed a mass of gold and silver bullion.

The Coos Bay Packing Co.'s cannery was shut down for the season Saturday, says the News. The foreman says the pack amounts to about 7,000 cases, which makes the total pack for the two canneries on the bay this fall 12,000 cases.

Officer Linville arrested five Mongolians late Thursday night on a charge of smoking opium; they each put up \$10 bail to appear before the police judge yesterday afternoon, but failing to put in an appearance their bail was declared forfeited.

All the counties of the state have sent to secretary of state McBride official returns of the late election, except Curry. It is expected that the latter will be in this week, when the returns will be opened by the secretary in the presence of Gov. Penneyer.

Sleighs and cutters were on the streets yesterday, and the robes and furs and bells and gaily caparisoned steeds made a tout ensemble, so Joggles says. There was no snow on the ground or water, but there was a mighty slick coating of frost on the planks.

The little daughter of Mr. Chase, of Knappa, who, some weeks ago sustained a painful accident, her thigh bone having been broken by a pile of lumber falling on her, was taken home from the hospital yesterday morning, having almost entirely recovered from her injuries.

The run of steel-head salmon has commenced, says the Coos Bay News, and several of them were caught in the bay last week. They are an excellent table fish, but cannerymen inform us that they won't do for packing. It seems that they do not only shrink when canned, but also lose the pink color so desirable in salmon.

The girl of the girl of the are small and tapering and beautiful as the \* and she is without her hair crown is a and her figure ex-

cities!!! of surprise and a banking to her. In winter time when her beaux round to visit her she away to put some to the grate.

County commissioners Crow and Nurnberg met yesterday, pursuant to adjournment, but were again compelled to adjourn without being able to make any tax levy, by reason of the unusual delay in the receipt of official information from Salem regarding the tax levy. It is to be hoped that the levy can be made sometime between now and 1888. This makes the fourth attempt on the part of the county commissioners to find out what the state expects them to do. This last delay is occasioned by the county judge of Yamhill who has given the assessor more time to make up his assessment roll.

ALL EXPECTED THIS WEEK. The gentlemen who propose building the Astoria railroad are expected to arrive in this city this week. They will come overland from San Francisco. They represent what the San Francisco papers call "the McNulta syndicate." Gen. McNulta, the receiver of the Washah road is expected to arrive in California next spring and make that state his permanent home.

Messrs. Woodard, Potter, Sherman and Drew are expected to be able to determine shortly after their arrival here what they propose to do. The proposed railroad subsidy now aggregates \$129,280—so near the \$150,000 that it may in effect be considered as completed.

It is understood that the gentlemen lay particular stress on the importance and value of the coal deposits along the proposed line of the road between here and Forest Grove. It is believed that a nine foot vein of coal on the Nehalem on the line of the proposed road, equal at least in value to the Mount Diablo coal, has been already unearthed and that surface indications in that vicinity lead to the belief that other coal deposits there exist.

The logging business alone would, it is thought, be sufficient to sustain the road and make it pay a fair interest on the investment.

It is understood that the syndicate consider the \$150,000 raised by the citizens of this city will be applied to the payment of interest on the first bonds to be issued for the construction of the road, though that is not of direct interest to Astoria, as the proposition is that the \$150,000 is not payable till the road is completed and trains running thereon.

The matter has been hanging fire for some time and the arrival of the gentlemen named is awaited with considerable interest by the contributors to the fund and citizens generally.

THE HALL IN EXISTENCE. Sometime ago some of the residents of Uniontown put up a substantial hall which since its erection has been used for dances and social gatherings, and for a considerable time all went well, but when prohibition began to be discussed it was productive of strife, some of those who put in money and work being strong anti-prohibitionists, while others were as strongly in favor of that idea. The result is two rival factions, and the claim on the part of those who oppose prohibition that their former brethren have "frozen them out" refused to allow them the use of the hall and made membership in their blue ribbon club a test to admission to what was formerly common property. Matters came to a crisis last night when some of the builders and contractors determined to have a dance and being denied admission by their former friends but present antagonists, secured the services of officer Beasley and effected entrance. They had their dance, all the same, but the question of possession may yet have to be determined in the courts.

NOTICE. Consumers of water had better keep a supply drawn off for a few days as the Gas Co's tank has busted, and it will take an immense quantity of water to supply them until they make necessary repairs.

NEWS FROM ABROAD.

San Francisco Democrats—Singular Verdict—World's Championship—A Displeased Prince

SAN FRANCISCO, Nov. 25.—The state Democratic club met last night for the purpose of considering the project of holding the next national convention in this city. Letters were read from prominent Democrats in the different parts of the country favoring the plan. A committee was appointed to prepare an engraved invitation to present to each member of the national committee.

AHEAD \$36,000. GALVESTON, Nov. 25.—Ex-county treasurer Burke who while in office defrauded the county out of \$36,000 in bonds and money, and about three months ago returned from Australia whether he had fled, and voluntarily surrendered himself to San Francisco authorities, was late last night declared not guilty by a jury. He was at once discharged from custody.

A GOVERNMENT TELEGRAPH. PHILADELPHIA, Pa., Nov. 25.—Mr. Powderly, in a lecture last night, said that the Knights of Labor would soon be called upon to sign a petition asking congress to own its own line of telegraph and operate it in connection with the postoffice department. "We do not ask that it shall purchase the wires of any corporation, but that it shall put up its own line," he said.

WON BY BEACH. SYDNEY, Nov. 25.—The sailing match for the championship of the world between Beach and Hanlan took place on the Nepean river to-day and was won by Beach. The race was an exciting one. Beach took the lead at the start and, though closely pressed by Hanlan, held it throughout, winning by two lengths. The contest was witnessed by thousands of enthusiastic spectators.

INCREASING BUSINESS. SACRAMENTO, Nov. 25.—Orders were received at the Southern Pacific shops in this city for 28 new engines. Sixteen remain to be made on an old order, leaving 44 locomotives to be constructed as soon as possible.

DON'T WANT BOULANGER'S MARCH. LONDON, Nov. 25.—During a banquet given by the Benchers of the Temple to the prince of Wales last evening, on the occasion of the termination of the prince's year in office as treasurer, the band which was in attendance struck up "Boulangier's March." The prince sent instant orders for the band to stop, which they did abruptly. The incident caused a great flutter and excitement.

ARRESTED ON SUSPICION. SACRAMENTO, Nov. 25.—A man named William Higgins was arrested in this city this morning on suspicion of having murdered Edward Rice, of Crescent City, whose body was recently found in a field near Roseville, Placer county.

A Convincing Certificate. "How do you like your new typewriter?" inquired the agent. "It's immense!" was the enthusiastic response. "I wonder how I ever got along without it."

"Well would you mind giving me a little testimonial to that effect?" "Certainly not; do it gladly."

So he rolled up his sleeves, and in an incredibly short time pounded out this: "after Using the the automatic Back-stroke a type writ, er for three months \$ an d Over. I unhesitatingly pronounce it pronounced it to be all ad even more than the Mann-facturers claim? for it. During the time been in our possessio n e. i. t. ree month? in has more than paid paid for itself in the Saving of time an d labrr? John & Smith."

The State on Prohibition. The Oregonian has compiled official majorities for and against prohibition from every county in the state except Curry. In the table below the several county majorities for or against prohibition are set out and official, except in the case of Curry, which is presumed to give a majority for, of 35, and in Tillamook, which is incomplete, one precinct—Nestucca—not being included in that county's vote.

Give Them a Chance! That is to say, your lungs. Also all your breathing machinery. Very wonderful machinery it is. Not only the larger air-passages, but the thousands of little tubes and cavities leading from them.

When these are clogged and choked with matter which ought not to be there, your lungs cannot half do their work. And what they do they cannot do well.

Call it cold, cough, croup, pneumonia, catarrh, consumption or any of the family of throat and nose and head and lung obstructions, all are laid. All ought to be got rid of. There is just one sure way to get rid of them. That is to take Boschee's German Syrup, which any druggist will sell you at 75 cents a bottle. Even if everything else has failed you, you may depend upon this for certain.

One of the greatest trials of the newspaper profession is that its members are compelled to see more of the sham of the world than any other profession. Through every newspaper office, day after day, go all the weaknesses of the world—all the vanities that want to be puffed, all the revenges that want to be wreaked, all the mistakes that want to be corrected, all the dull speakers that want to be thought eloquent, all the meanness that wants to get its wares noticed gratis in the editorial column in order to save the tax of the advertising column; all the men who want to be set right who were never right; all the crack-brained philosphers with stories as long as their hair and as gloomy as their finger nails in mourning because bereft of soap—the bores who come to stay five minutes, but talk five hours. Through the editorial and reportorial rooms all the follies and shams of the world are seen, day after day, and the temptation also believe neither in God, man nor woman. It is no surprise to me that in this profession there are some skeptical men; I only wonder that newspaper men believe anything.—T. De Witt Talmage.
