Buried Beneath a Mountain of Grain.

. George Helm, of Sydney, Ills., thinks he can tell how it feels to be smothered to death. He is a grain merchant, and a few days ago he went into an elevator where thousands of bushels of oats are stored, when by some means a partition gave way and the grain came down on him in an avalanche, covering him seven feet deep above his head. Effort was made to remove the grain, but this fruitless, and the side of the bin was chopped away and the oats allowed to pour out in a stream that covered and obstructed the railroad track. It was twenty minutes before he was extricated, but life was not extinct, and he was resuscitated after a half-hour's hard work. He suffered intense agony when first buried, but soon become unconscious.

The Irish National League.

ST. LOUIS, Nov. 27.—At a meeting of the national executive committee of the Irish national league to-day, the question of more thorough organization in certain states was considered and referred to the president. The question of when and where to hold the next national convention was referred to a committee of seven, headed by president Fitzgerald. Resolutions were adopted appealing to the liberty-loving people of England, Scotland and Wales, and also to people of Irish birth and extraction in America, for moral and material aid, tendering sympathy to all now suffering in Ireland, denouncing coercion, eulogizing Gladstone, and extolling the power and advantages of organization, and urging every friend in America to join the national league.

Recent measurements show that Mount Wrangle, in Alaska, is the highest peak in North America, being 18,400 above Cooper river, which at that point is 2,000 feet above the level of the sea.

Near Corvallis, the other day, Lon Stone's little boy wanted to see a shed filled with straw smoke, and set it on fire. It cost his father $200.

The Kaiser's Dearest Wish.

BERLIN, Nov. 27.—Emperor William said to-day: "I have but one wish that remains to be fulfilled, and that is to hear my son Fritz speak in his own clear tones before I die."

Now that it is unlikely that this simple desire shall be gratified those about the person of the Kaiser are beginning to tremble for his life.

He is a brave old man, but it is felt that he will succumb to such a blow as a continuance of the evil intelligence from San Remo will dealt him.

Meanwhile the crown prince's condition deepens the gloom which already overhangs the European situation.

WHAT BRANDRETH'S PILLS DO.

In BRANDRETH'S PILLS the true life medicine has been found, composed as they are of numerous vegetables so combined that each multiplies the virtues of the rest. They never can do any harm. Their action is always the same, no matter how long or in what doses they are taken. They purge away the waste particles of the system. They recruit the animal vigor and arrest the progress of decay. They purify the blood. They stimulate the liver. They invigorate digestion. They open the pores. They make the bowels do the work of the kidneys, thus giving those organs an ofttimes needed rest. One or two at night for a week will demonstrate their power and is generally sufficient to cure ordinary diseases.

Anarchist Schwab is peeling potatoes in Joliet. He also chops the hash. The other prisoners are a trifle uneasy about getting their food from a gentleman who is rather opposed to the human race.

For speedy relief and cure in cases of bronchitis, take Ayer's Cherry Pectoral. It controls the cough and induces sleep.

North Dakota gave 2,000 majority against division and south Dakota 14,000 majority in favor of division.

Arouse the faculties, stimulate the circulation, purify the blood, with Ayer's Sarsaparilla.

New York city has about three thousand policemen.

Cold Wave.

ST. PAUL, Nov. 27.—The cold wave reached here about midnight last night, and at 6 A. M. the mercury had fallen to 10 below. The weather bulletin issued here at midnight to-night shows the following below zero: At St. Paul, 8; Huron, Dak., 14; Morehead, 16; St. Vincent, Minn., 22; Bismarck, 14; Fort Buford, 20. In Montana the temperature is rising again, the mercury standing 16 above at Helena.

A few days ago an Indian mother on the Umatilla reservation awoke to find a cat sitting on the bosom of her baby sucking away at its mouth. Upon investigation the baby was found to be dead, the cat having sucked its breath away in its efforts to get the milk on the lips and in the throat of the child.
