**TOLD IN BRIEF SPACE.**  
Kentucky has more than 250,000 people who can neither read nor write.  
During the year now ending 536 miles of railroad were built in Nebraska.  
Montevideo, with a population of 125,000 souls, has twenty-three daily newspapers.  
It costs the government \$2,000,000,000 a year to carry on the war of 1813, even at this late date.  
In Rhode Island minor orphans are sentenced to the reform school until they attain their majority.  
Nine cables connect Europe and America. Altogether there are now in use 113,000 nautical miles of cable.  
New York and Brooklyn doctors now prescribe walks on the East river bridge for dyspepsia or lack of appetite.

There are fifty varieties of cheese imported to this country from Europe. Many of them have imitations made in New Jersey.  
Hare hunting is becoming a popular recreation with ladies in North Carolina. They sometimes spend whole days in the fields.  
Thirty million people crossed the Brooklyn bridge the past year. There were no accidents. The receipts from tolls were nearly \$900,000.  
A coal field, 200 miles long, is said to have been traced in Montana, reaching from the Big Horn mountains, in Custer county to the British line.

An official return shows that there are upward of thirty thousand tenement houses in New York city. There are probably 10,000 more in Brooklyn.  
The coloring power of gold is so great that one part of gold will give a full, rich body of color to from six hundred to one thousand parts of glass.  
Diamond scales are now being brought to such a state of perfection that we will soon be able to detect flaws in like stones by the minute variation in weight.

The Pennsylvania railroad is unable to transport some large plates of glass made in Pittsburgh, because the tunnels along the road are not large enough to admit the passage of the glass.  
Montana this year paid out almost sixty thousand dollars in bounties on wild and other animals, including 700,942 squirrels, 165,276 prairie dogs, 2,567 coyotes, 1,581 wolves, 294 bears and 164 lions.  
Mormons are emigrating to British Columbia. As a part of the policy of restricting those coming into this country, there ought to be no restriction on the Mormons who want to get out of it.—Chicago Journal.

One of the sights of Fifth avenue, New York, is the daily promenade of a set of triplets, all girls, who are escorted by two nurses. The children are five years old, and alike as peas, and always beautifully dressed.  
A solid lump of coal, containing eighty-seven cubic feet and weighing 6,351 pounds, was exhibited at the Texas state fair recently held at Dallas. It was the largest block of coal ever taken from a mine in the United States.  
A 5-inch pipe runs entirely across Manhattan island at Sixty-fifth street and under the Hudson and East rivers, and is used by the Standard Oil company as a pipe-line between its works at Weehauken, N. J., and Hunter's Point, Long Island.

There are whole towns in Germany that do little else but make dolls for American children. They are mostly simple country folk. England's people spend almost \$1,000,000 for French and German dolls, and America's children almost double that.  
The legislature of South Carolina has refused to pass a bill requiring the payment of a license tax of \$1 by the owner of every dog in the state, although it was represented by a member and endorsed by the Charleston News and Courier that the slaughter of sheep by dogs costs the state an average of \$3,000,000 per annum.  
Ayer's Sarsaparilla stops the nauseous discharges of catarrh, and cures the complaint.

**FACTS AND NEWS.**  
Norvin Green says Jay Gould is worth only \$60,000,000.  
The Empress Eugenie has recovered her health, and now talks about a tour in the holy land.  
On the 10th of next March the prince of Wales and his wife will celebrate their silver wedding.  
Bishop Foss, of the Methodist Episcopal church, has made nearly \$300,000 in Minneapolis real estate.  
Miss Rose Elizabeth Cleveland is reported to have won both popularity and substantial success as a school teacher.  
The duke of Newcastle will winter in Florida and pay a flying visit to Philadelphia. He is young, unmarried and has a cork leg.  
The snow blockade on the switch-back at the Cascades continues. The Northern Pacific is working hard to clear the way.

Marshal MacMahon, who was president of the French republic from 1873 to 1879, when he resigned, is enjoying excellent health in his eightieth year.  
Mme. Candelaria of San Antonio, Texas, is living in extreme poverty at the age of one hundred. She is the sole adult survivor of the famous Alamo massacre.  
Mr. Cleveland will find it difficult to explain the fact which Philadelphia manufacturers are calling attention to, that a reduction of 10 to 15 per cent. in the duty on knit goods, while by doubling the imports it closed many mills in this country, yet doubled the revenue also.

**Read the Death Roll**  
Which the bills of mortality of any large city may be fitly designated, and you will find that renal and vesical maladies, that is to say, those that affect the kidneys or bladder, have a remarkable prominence—Bright's disease and diabetes in the chronic stage are rarely cured, and gravel, catarrh of the bladder and empyema, slay many. Yet at the outset, when the trouble merely amounts to inactivity of the organ involved, the danger may be nullified by that pleasant renal tonic and diuretic, Foster's Stomach Bitters, which imparts the requisite amount of tone to the organ, without over-exciting them, and the use of which is convenient, and involves no elaborate preparation. Dyspepsia, a usual concomitant of renal complaints, and debility, which they invariably produce, are remedied by it. So also are constipation, malarial, rheumatic and nervous ailments.

Talk about the world being crowded! Douglas county, in this state, could comfortably hold the entire population of the globe, seated in easy chairs.
