Properly Mixing Cream.

In commenting upon the mixing and ripening of cream before churning, Hoard's Dairyman says: Not long since a farmer's wife get the yield of butter from her cows that one of her neighbors did, speedy cure of a Cold or Cough. and she wished to know if we could give her any light on the subject. But when we inquired further iuto HUNT'S REMEDY cures all Diseases the manner of caring for the gans, Dropsy, Gravel, Diabetes and gans, Dropsy, Gravel, Diabetes and Incontinence and Retention of Urine. difficulty lay. It was her practice HUNT'S REMEDY encourages sleep, to skim her milk every morning, ceates an appetite, braces up the system, and and put the cream in an earthen jar which was kept in the cellar. HUNT'S REMEDY cures pain in the Churning was done twice a week, Side, Back or Loins, General Debility, if her husband and the boys were Female Diseases, Disturbed Sleep, not too busy. But the particular point where she failed was in putpoint where she failed was in putting the last skimming of cream

from the milk. When we told her
that she received but little benefit
from the last skimming thus handied, she could hardly be persuaded of the truth of our assertion. We are convinced that this mis-

public, and the utmost reliance may be placed take is largely indulged in by the makers of farm butter. Yet they might about as well throw the last skimming to the pigs, for there is where it finally goes in the buttermilk. The last skimming should be thoroughly stirred with the older cream, and the whole kept from six to twelve hours, depending upon the age and acidity of the older cream before churning.

Possibilities in a Word.

A gentleman who was away from home, was writing to his wife from the office of a hotel, when he paused a moment in his occupation and looked perplexed; then he touched the arm of another traveler sitting near him in a timid, deprecating way.

"Excuse me, sir," he said courteously, "but I am puzzled how to spell a word I desire to write," and

he pronounced it carefully. "Don't mention it," responded the other with the heartiness of good-fellowship. I rather flatter myself that spelling is my strong point. E-x-t-a-see—there! Glad to accommodate

"Thank you," said the gentleman who was writing the letter, "my wife is so particular, that I am ashamed of my poor spelling, as it constantly annoys her. I can tackle ordinary words easy enough, but those uplex-spring-back-action, double and twist throwers, are too much for me," and he resumed his letter with a relieved

"Pardon me," remarked a gentle-man, who had been dozing in his "but I think there is a slight mistake in orthography here. I have always spelled that word e-x-t-

"Gentlemen," said a clerical-looking man coming forward, "I am a professor in a college and am positive that the letter x is not in the word at all. It is spelled 'e-c-s-t-a-"Say! ain't you fellers all wrong?"

inquired a long-legged traveler, who had been listening earnestly to the allus spelt that there word 'eggstazy. Ef that don't spell it, what do it spell then?"

The bewildered traveler concluded that perhaps it would be as well to spell the word in his own way, and so wrote to his wife that no pen could describe his e-k-s-t-a-c-e on receiving a letter from her.

How a Dying Child Was Saved!

CICERO, HAMILTON Co., IND., Sept., 19, 1987 .-The following is a true account of what your S. S. S. has done for our little daughter, Hazel, now four years old. When 12 months old a lump appeared on her heel, which slowly grew larger. The family physician thought it was caused by a piece of broken glass or needle, but failed to bring anything to light. The child became feebler all the time, seeming to lose the use of her leg, and finally quit walk-ing entirely. The middle finger and thumb of either hand became enlarged, the flesh be coming hard. The hip joints became involved, so that when seventeen months old she could not stand, having lost the use of leg and arm. Partial curvature of the spine also followed. The nervous system was wrecked. muscles contracted, and there was general wasting of flesh and muscle. At eig months of age she was placed under the treatment of a prominent physician of Bos-ton, Masa, but at the end of ten months she had declined to such a degree that she was in a dying condition. This was in April, 1886 We took the child away not knowing what to do. In this dreadful dilemma we were over-persuaded by friends to try "one bottle" of Swift's Specific, which we did, and before it had all been taken we saw a change for the better in her symptoms. We kept it up, and have done so to this day, and will keep it up, if the Lord wills, for many days to come, for it has brought our dying Hazel to life, to vigor, to strength and health again. The ashen hue of her cheeks has changed to a rosy fint. She is able to walk anywhere, her languor and melancholy have passed away, and she is now a blithe, cheerful, happy romping child. Should you wish to in crease your testimonials of proof of the virtue of S.S.S., our names and what we have said is but a portion of what we owe to you, should you wish to use them.

Kindly yours, BES. F. SWIFT. GERTRUDE E. SWIFT.
