

The Daily Astorian. ASTORIA, OREGON: SATURDAY, JANUARY 21, 1888. ISSUED EVERY MORNING.

J. F. HALLORAN & COMPANY, Publishers and Proprietors. ASTORIAN BUILDING, - - - CASS STREET.

Barometer 29.78; thermometer 30; light snow; wind east. There will be a masquerade ball at Iwaco on the 17th of next month.

The State left San Francisco on time last Thursday, and is due here this morning.

Subject for to-morrow evening at the Baptist church, "The Homes of Arnold and Cowper."

The Robt Sudden is loading at the Clatsop mill. She will take about 700 M feet of lumber.

There are about a dozen vessels ready to come down to Astoria, but frozen up at Portland.

In the police court yesterday the only item furnished was by I. Olsen, who was sent to jail for being drunk.

Over at Port Townsend customs of-ficer Frank Boardman has been "re-sig-ned" out of the service for alleged complicity in smuggling.

Plenty Shoalwater bay oysters just received at Whitcomb & Mc Gillias's. Eastern oysters in can and shell on to-day's steamer.

Liberty hall will be comfortably warmed this evening for the soiree, and a pleasant evening's amusement is assured those who attend.

In the Congregational church to-morrow morning, theme of discourse, "The Glory of the Cross;" evening theme, "The Unseen Universe."

While coasting down West Eighth street last evening Jos. McCann ran into another sled, and sustained serious injury, his right arm being fractured above the elbow.

THE WEEKLY ASTORIAN with supplement is issued this morning, the news of the week brought and gathered, set in type at four bits a thousand ems and printed at home.

A prominent physician says that he met a man yesterday morning who said: "Lend me \$20 for twenty minutes," and responded: "Stand right here for twenty minutes and you won't need the \$20."

For the last nine months of '87 there were 1,533 carloads of lumber shipped eastward from the Columbia as follows: April 195, May 91, June 192, July 236, August 194, September 168, October 117, November 229, and December 135.

Since the blockade, arrivals here have been few and far between, but a stranger arrived at Z. Anstensen's yesterday morning in the shape of a little girl that was induced to remain and become a steady boarder. It weighs nine pounds.

The bark Albany from San Francisco has arrived at Queenstown badly shattered, and reports the drowning of four of the crew. One of them, the cook, committed suicide by leaping overboard holding an iron bar in his hand and with his pockets filled with iron bolts.

By statistics given in the S. F. Bulletin, there arrived in California during the last 100 days of 1887, overland from the east, 31,593 persons, an average of about 300 a day, giving for the year at the same rate, an influx of 108,770 people. The Oregonian claims about an equal number of arrivals in Washington territory Oregon.

The Columbia and Walla Walla started on a forlorn trip up the river yesterday morning. At eleven o'clock they sighted Westport, and at 2:30 passed there going very slowly through heavy ice. The Portland folks are out of coal and are anxious to have the Walla Walla get through. Neither boat had got to Oak Point at 8:30 last night.

The second term of the school year in the Court street school begins next Monday. The directors have decided not to employ any teacher to fill the vacancy occasioned by the resignation of Miss Garner, but to divide the 245 pupils in average attendance among the remaining six teachers, and increase the pay proportionally, devoting to such increase the monthly salary formerly paid Miss Garner.

One of the latest "fads" of society youths is to have engraved at the bottom of their stationery a small square about the size of a postage stamp, in which they insert their own photographs instead of signing the name. The pictures, when finished and ready for use, are just the size of a postage stamp, and are ordered by the dozens and tens of dozens. Some of them have the eyes, cheeks, lips and hair colored like the original, in which case they become very expensive.

In speaking of the recent defalcation at the Troy postoffice a gentleman said: "It is never safe to inclose an old bill in an envelope to be sent by mail. Why," said he, "men who are experts can tell whether a letter contains money or not simply

by the sense of smell. If you will notice an old greenback it has a peculiar smell about it that can readily be perceived, even if it be inclosed within a letter. It is better to send a registered letter or a postal note, or, if you enclose a bill, be sure it is a new one. That will not smell."

When G. Clark, second mate of the ship Frankoe, was missed at Seattle about the middle of last month Capt. Cotter paid but little attention to it. He was a new hand, and it was supposed that he had deserted. The vessel was loaded with coal, and recently arrived at San Francisco and began discharging, when the mystery surrounding the disappearance of the mate was solved. While shoveling coal aft in the hold Peter Johnson unearthed Clark's body. It is now thought that Clark must have fallen into the hold and, while lying there in an unconscious state, the coal was dumped in over his body. The Frankoe left Seattle on December 15th. Clark was aged 40 years, single and a native of Sweden.

There are some Pacific coast schooners which sailors consider large, but which dwindle into insignificance when compared with the monster fore-and-afters doing service on the eastern seaboard. During 1887 forty-one vessels were built in Maine, and of these, ten schooners were larger than the largest schooner on this coast. Five schooners were built of over 1,000 tons net, four over 900 and three over 700. The Kite, the largest schooner entering San Francisco, whose register is 756 tons and carrying capacity 1,065,000 feet of lumber, would look small beside the T. A. Lambert, the net tonnage of which is 1,583.44. Then there are the Lucy H. Russell, 1,108.10 tons net; Blanche H. King, 1,008.26; Pocahontas, 1,312; Mt. Hope, 1,050.

The monstrous purses in the shape of pocket-books which the ladies carry everywhere in their hands are much approved of by thieves. They are so cumbersome that they must be laid down while goods are examined. Sometimes when the time comes to pick them up they are not there, and sometimes they are quite forgotten, and eventually land in the hands of those who have no right to them. Said the dapper escort of a young lady who was carrying one of these absurdities: "How ridiculous the fashions of women are anyway. Imagine a man going about the street carrying his money in his hand like that!" "I can tell you one thing," she retorted, "and that is, if we do carry our money in this foolish way we spend less of it foolishly than you men do." To which he nothing replied.

STRANGE NEGLECT OF DUTY. A telegram was received here yesterday from Goodell, Perkins & Co., asking when the steamer Oregon left here. Can it be that Portland correspondents have neglected to telegraph to San Francisco the fact that Portland is bottled up and the cork driven level with the neck of the bottle that there is no getting to or from Portland by water, and that all the delay to ocean steamers has been occasioned by the ice frozen Williamette and Columbia, and that the road to sea and land from Astoria is as clear as it was last June! It does look as though the usually alert Portland correspondents of the San Francisco papers were not attending to their business. They should let San Francisco and the outside world know the true state of facts—even if they are somewhat rough on our friends of the interior. The Examiner correspondent, for instance, who telegraphed to San Francisco from Portland that "the frozen element" made the Oregon 24 hours late in getting from San Francisco to Astoria, and implying that the ice offered no obstruction to that vessel's proceeding inland, he might, with great propriety, be seized with a span of conscience and telegraph to the Examiner that the Oregon can't stir from Portland by reason of the ice, and that the Columbia is bucking away near Westport trying to overturn God's natural laws and get through ice to her unnatural destination up the creek. There is reason in the roasting of eggs, and great reason in newspaper correspondents being sufficiently complimentary to truth to recognize its existence when making up their reports to San Francisco journals.

Briefly Stated to the Public.

There being yesterday a generally expressed desire to have the true state of affairs properly placed before the reading public of the country, Mr. E. C. Holden, the Astoria agent of the associated press, prepared and last evening sent a succinct statement of facts regarding the present status. The dispatch briefly states that by reason of the freezing of the rivers, inland communication with Astoria has almost closed; that but one mail has been received here for three weeks; that while deep sea-going vessels and ocean steamers have arrived here and departed without let or hindrance, vessels and craft of all kinds have been frozen up at Portland and the commerce of the Columbia is thereby paralyzed, all of which would be obviated by a railroad. The object of this is to show that Astoria is a seaport at all times and all seasons, and that the freezing of rivers and cessation of inland traffic can in no way hinder or retard the ocean traffic to or from Astoria. The dispatch will appear in the San Francisco papers this morning, and will be sent east in a condensed form.

Does Your Ape Sheet Credit?

There is an alleged journal printed in Minneapolis which might properly be called an "ape" sheet. It copies almost every feature produced in the Northwest Trade, but like all imitations, it falls far below the original. If we should eat clay we suppose the said journal would eat mud.—Northwest Trade.

MORE COLD WEATHER.

A Man Frozen to Death in Arizona. A Brutal Murderer—O'Brien Released—Accidents, Etc.

WINSLOW, A. T., Jan. 20.—A man named David Joy, who left here yesterday morning on horseback, has been found frozen to death twenty-five miles from Winslow.

A BRIEF REPRIEVE. PRESOTT, A. T., Jan. 20.—Martin Duran, a Mexican, sentenced to be hanged, has been respited by secretary Bayard for thirty days.

GETTING READY FOR MOROCCO. LONDON, Jan. 20.—It is stated that Spain is organizing an expedition for Morocco to consist of 25,000 men.

OBITUARY. LONDON, Jan. 20.—Sir Robert Walter Carden, is dead, aged 87.

MORE COLD WEATHER. CHICAGO, Jan. 20.—Telegrams from various points throughout the north-west announce the arrival of another cold snap in Iowa. The thermometer ranges from 10 to 20 degrees below zero, and a high wind has caused the snow to drift badly and delayed trains very generally.

At Lincoln, Nebraska, the thermometer registered 16 degrees below zero at 7 o'clock this morning, and in Illinois 8 below.

DISASTROUS BOILER EXPLOSION. JANEVILLE, Wis., Jan. 20.—The boiler in George Kastner & Co.'s grain elevator exploded this morning, killing Mr. Kastner, a man named Kennedy and James Bracker. The building took fire and, at last accounts, there was great danger of a general conflagration as the water supply is giving out and the flames are working toward the tobacco warehouses and the Northwestern depot.

O'BRIEN RELEASED. DUBLIN, Jan. 20.—William O'Brien, editor of the United Ireland, who has been confined in prison since October 31st, was released from Tullamore jail to-day. He proceeded to the priest's house in Tullamore, followed by a crowd which cheered him repeatedly. There was no disorder.

HANGED AT CAMBRIDGE. BOSTON, Jan. 20.—James E. Nowlin was hanged at Cambridge jail this morning for the murder of George E. Codman, his employer, January 4th, 1887. The details of the murder, which was committed for money and for which Nowlin was executed, mark it as the most horrible in the history of crime in New England.

Nowlin, who was only 17, was employed by Codman to deliver milk. According to Nowlin's confession, he went to the barn and waited for Codman early in the morning, and when he appeared he struck him in the neck with a knife, killing him instantly. He afterwards cut up the body so that he could carry it, and putting parts of it in the old milk wagon, drove about fifteen miles away and threw out the pieces where they were found by a farmer.

TOUGH WEATHER. WATERTOWN, Dak., Jan. 20.—A special says: The railroad blockade has closed in again, with the mercury at 35° below at 6 o'clock this morning. All railroad travel is suspended again.

HARD UP FOR FUEL. MINNEAPOLIS, Jan. 20.—A Browns valley, Minnesota, special says: "We have been blocked for three weeks, and unless a train comes with fuel inside of two days there will be serious suffering here and hereabouts. There is no wood or coal in the market. There is more suffering, as yet in the country than in town."

The endorsement of German Syrup is unparalleled. We will publish 1000 testimonials received during the last six months. Read them. May save your life.

BURLINGHAM, N. Y., May 31, '86. G. G. GREEN, Dear Sir:—I am frequently troubled with severe colds, and the only remedy that will relieve me of them is your Boeck's German Syrup. I have used it for more than 12 years. It is a constant household companion with me. Our merchant here procured it first at my solicitation, and says he has sold a great many bottles. It is a very popular remedy in this section. Every person who has used it speaks in the highest terms of its merits. I do not know of a single case it has not cured. I first used it in Vermont, where I lived before coming here. I advise everyone to use it, as it is certainly the best cough medicine I have ever known. I have tried nearly all of them at different times.

Yours respectfully, MOSES GRAY, Proprietor Grist Mill.

SCRATCHED 28 YEARS

A Sealy, Itching Skin Disease with Endless Suffering Cured by Cuticura Remedies.

If I had known of the CUTICURA REMEDIES twenty-eight years ago it would have saved me \$200.00 (two hundred dollars) and an immense amount of suffering. My disease (Psoriasis) commenced on my head in a spot not larger than a cent. It spread rapidly all over my body and got under my nails. The scales would drop off me all the time, and my suffering was endless, and without relief. One thousand dollars would not tempt me to have this disease over again. I am a poor man, but feel rich to be relieved of what some of the doctors said was leprosy, some ring-worm psoriasis, etc. I took ... and ... Saraparilla over one year and a half, but no cure. I went to two or three doctors and no cure. I cannot praise the CUTICURA REMEDIES too much. They have made my skin as clear and free from scales as a baby's. All I used of them was three boxes of CUTICURA, and three bottles of CUTICURA RESOLVENT and two cakes of CUTICURA SOAP. If you had been here and said you would have cured me for \$200.00 you would have had the money. I looked like the picture in your book of Psoriasis (picture number two, "How to Cure Skin Diseases"), but now I am as clear as any person ever was. Through force of habit I rub my hands over my arms and legs to scratch myself, while, but to no purpose. I am all well. I scratched twenty-eight years, and it got to be a kind of second nature to me. I thank you a thousand times. Anything more that you want to know write me, or any one who reads this may write to me and I will answer it. DENNIS DOWNING. WATERBURY, VT., Jan. 20th, 1887.

Psoriasis, Eczema, Tetter, Ringworm, Lichen, Pruritus, Scall Head, Milk Crust, Dandruff, Barber's Itch, Grocers' and Washers' Itch, and every species of Itching, Burning, Sealy, Pimply Humors of the Skin and Scalp and Blood, with Loss of Hair, are positively cured by CUTICURA, the great Skin Cure, and CUTICURA SOAP, an exquisite Skin Beautifier externally, and CUTICURA RESOLVENT, the new Blood Purifier internally, when physicians and all other remedies fail.

Sold everywhere. Price, CUTICURA, 50c.; SOAP, 25c.; RESOLVENT, \$1. Prepared by the POTTER DRUG AND CHEMICAL CO., Boston, Mass. Send for "How to Cure Skin Diseases," 64 pages, 50 Illustrations, and 100 testimonials. PIMPLES, black-heads, chapped and oily skin prevented by CUTICURA MEDICATED SOAP.

Catarrhal Dangers.

To be freed from the dangers of suffocation while lying down; to breathe freely, sleep soundly and undisturbed; to rise refreshed, head clear, brain and free from mucus, or ache; to know that no poisonous, putrid matter defiles the breath and rots away the delicate machinery of smell, taste and hearing; to feel that the system does not, through its veins and arteries, suck up the poison that is sure to undermine and destroy, is indeed a head longed for by all who are afflicted with Catarrh. To purchase immunity from such a fate should be the object of all afflicted. But those who have tried many remedies and physicians despair of relief or cure.

SANFORD'S RADICAL CURE meets every phase of Catarrh, from a simple head cold to the most loathsome and destructive stages. It is local and constitutional. Instant in relieving, permanent in curing, safe, economical and non-failing.

SANFORD'S RADICAL CURE consists of one bottle of the RADICAL CURE, one box of CATARRHAL SOLVENT, and one IMPROVED INHALER, all wrapped in one package, with treatise and directions, and sold by all druggists for \$1.00. POTTER DRUG & CHEMICAL CO., BOSTON.

No Rheumatiz About Me. IN ONE MINUTE.

The Cuticura Anti-Pain Plaster relieves Rheumatic, Sciatic, Sudden, Sharp and Nervous Pains, Strains and Weaknesses in one instant. It is a new, original, instantaneous, infallible, safe, a marvelous Antidote to Pain, Inflammation and Weakness. Utterly unlike and vastly superior to all other plasters. At all druggists, 25 cents; five for \$1.00; or postage free, of POTTER DRUG AND CHEMICAL CO., Boston, Mass.

PERSONAL MENTION.

N. D. Raymond has been appointed deputy city surveyor.

Francis Sidell, the lamplighter, is reported seriously ill from hemorrhage, and for the last two days has two days been unable to attend to his duties. Should he be no better to-day he will be removed to the hospital for medical treatment.

Personal.

Mr. N. H. Frolichstein, of Mobile, Ala., writes: "I take great pleasure in recommending Dr. King's New Discovery for Consumption, having used it for a severe attack of Bronchitis and Catarrh. It gave me instant relief, and entirely cured me and I have not been afflicted since. I also beg to state that I had tried other remedies with no good result. Have also used Electric Bitters and Dr. King's New Life Pills, both of which I can recommend."

Dr. King's New Discovery for Consumption, Coughs and Colds, is sold on a positive guarantee. Trial bottles free at W. E. Dement & Co.'s Drug store.

Low Wheat Rates Foreign. The American wooden ship P. M. Whitmore, 2,140 tons, is reported chartered for wheat Liverpool at 21s 9d, the lowest figure in some time, though the Frank Pendleton, in consideration of a partial cargo of Or-chilla from Magdalena bay at 50s, took 500 tons wheat from this port last month for Liverpool at 20s, which was certainly better than stone ball last for nothing.—S. F. Bulletin.
