THE ASTORIAN guarantees to its advertisers the largest circulation of any newspaper published on the Columbia river.

There was a large number of Astorians on the night boat last evening.

Washington's birthday, which occurred February 11th, is celebrated today.

The British bark, City of Carlisle, cleared yesterday for Malpas, with 14,340 bbls. flour, worth \$50,190.

Manager Ross states that Baird's minstrels will be here on March 7th, and "She" on the 16th and 17th prox.

The docket of the present term of the circuit court is a very slim one, the criminal business being especially light.

This seems to be the open season for editors in eastern Oregon; another newspaper man was shot in Prineville night before last.

A San Francisco dispatch says that the British bark Glenavon, hence for Liverpool, which had been given up for lost, has been spoken.

The annual school meeting in school district No. One, to elect a clerk and director, will be held at the school house at 7:30 p. m., March 5th.

Roosters can be heard crowing all over the place, but no chickens or hens can be had to eat, for love or money, since China New Year's.

The Corwin goes to Tillamook rock this morning with a repairing crew and supplies for that lonely crag and the surf-beaten sentinels that occupy it.

The smallpox scare in Portland has subsided in Portland; under stress of competition vaccination has gone down to twenty-five cents an arm or leg.

J. C. Trullinger has sold his steamer, the Gov. Nellie, to contractors for delivering stone to the jetty, and the coming season she will be used in towing government barges.

Washington's birthday will be duly observed at Co. "H's" armory to-night. Army regiments will be distributed, the Western Amateur band will discourse patriotic music, and a good social time will be enjoyed.

Chief Barry has enforced a rule regarding the salvation army in the interests of the public peace that hereafter, after the nightly parade of the gang, upon their return to their "barren" the doors shall be closed and not opened till their powwow is over.

The Tacoma board of health has published notice in the daily paper ordering that all persons in that city who have not been vaccinated within five years to do so at once, in defiance of which action will be taken to quarantine such persons within their own residences.

Oregon is shipping bones to San Francisco and China. The San Francisco shipments are burned and used to refine white sugar, the China bones are packed carefully away. Those sent to San Francisco are beef and mutton bones; the others are those of defunct Chinamen.

Hill's Annotated laws of Oregon, section 3350, says: "When any person becomes a public charge who is not a resident of the state, the county court, wherein he or she becomes a public charge, shall provide for such person and the expense thus incurred shall be refunded to such county by the state."

In Seattle recently there were two serious disasters within twelve hours, caused by the destruction of piling by the teredo. The piles which crashed under the railway locomotive were honey-combed throughout by the teredo, and the collapse of the Puget Sound Mill company's warehouse was due to the same cause. The teredo is unknown here, and piles driven thirty years ago are still sound, with the exception of the natural abrasion of the surface.

From Washington is received a lot of printed documents about the removal of the troops from Fort Canby. Boiled down, it amounts to this: The post is not abandoned; the troops are only withdrawn; so the secretary of state says. The value of the improvements, works, etc., is figured at \$40,000, and Gen. Gibbon thinks that, if there was a war, the point would be an important one to hold, fortify and arm. As a matter of fact, the whole thing was a put-up job and reflects no credit on those who imposed on the Washington military authorities in securing the necessary orders for removal.

The supervising surgeon-general at Washington, has notified the board of health at Port Townsend, says the Tacoma Ledger, that \$100,000 is deposited in the treasury to be expended at the ports on Puget sound in aiding the territorial board of health in suppressing the spread of pestilential diseases. No new cases of smallpox are reported at Port Townsend and the services of the United States revenue cutter Wolcott has been dispensed with, after thanking Captain Glover

for his efficient aid. All steam and sailing vessels entering the straits are now required to stop at Port Townsend.

Geo. Huston, says a southern Oregon exchange, brought to this office a cake of crystallized apples Saturday. He had a number of sacks of apples in the cellar under his grocery store, which during the severe cold weather froze solid. Then came a thaw and afterwards the water from the ditch backed up and filled the cellar. In a short time Mr. Huston proceeded to remove the sacks of apples and was surprised to find them still solid with a thick covering of ice about the fruit which when taken from their crystallized coating, were found to be as good as they were before being frozen, retaining their flavor and solidity and ready for market.

The Oregonian thinks that "one steamer of the power of the Walla Walla" can do a good many things, and can "place Portland right on the seascoast." The job of towing Portland down here may be an extensive one, but Astoria will facilitate the transit of the inland city seawards in every way possible. To place Portland right on the sea coast involves the selection of a new townsite, and will tend to create a demand for property in the vicinity of Fort Stevens. But speculation as to locality is probably premature, though the Oregonian states, regarding this matter of being placed right on the sea coast, that "Portland will deserve to lose her prestige as a commercial city if she does not do it."

In a lot of fish recently received at the Sound was a flounder six inches in length, which was the same on both sides—that is, brown and covered with rough scales, instead of being white on one side, as flounders usually are. It is well known that when flounders are very small they swim on edge like ordinary fish, and have an eye on each side of the head; but as they grow larger they become top-heavy and fall over, and the eye on the lower side skews around to the upper side, where it will do the most good. This fact is shown by the fact that some of the flounders fall to the right and some to the left, as can be seen by the shape of their heads. The flounder above mentioned must have been more level-headed than the usual run, and had managed to stand erect till his existence was put an end to.

CIRCUIT COURT PROCEEDINGS.

February 21. TAYLOR, F. J., J. C. Guericke admitted to citizenship.

Klosterman & Co., vs. J. Dragalitch: motion to dismiss, appeal allowed.

City vs. J. W. Babbidge, argument on demurrer submitted; appealed from police court; counsel for plaintiff argued that the city had a right to pass ordinance No. 1029, which gives the harbor master the exclusive privilege of docking vessels in this harbor; counsel for defendant claimed that it was unconstitutional to give such privilege to one person.

G. W. Nutter vs. B. Gallagher: until March 10th to file answers as to-day.

Adjourned to Thursday morning at 10 o'clock.

PERSONAL MENTION.

Mrs. Ames, of St. Louis, traveled to Olympia to get her brother, Gov. Semple, to sign the woman suffrage bill. Had she failed she would have Mrs. Ames then. (All rights reserved.)

Hon. Philo Callender who, had been born two years previous to the date of his birth, would be the same age as the nineteenth century, is in the city. At five years of age the venerable gentleman might have seen Fulton's steamship on her trial up the Hudson. At twenty he might have seen the first iron plow in the world. At thirty he might have traveled on the first railway passenger train. At thirty-eight he might have crossed the Atlantic on the first steamship. At forty-four he might have sent the first telegram, and now he could send the same message over the deep blue sea.

Notice.

All members of Co. "H" and members of Cushing Post, No. 14, G. A. R., are requested to meet at Amory Hall, Co. H, N. G., at eight o'clock this evening to attend the campfire to be given by Co. H.

Western Amateur Band.

There will be a meeting of the Western Amateur Band at their hall at eight o'clock this evening. By order of the President.

When You Go to Portland

Frank Fabre, Occidental hotel restaurateur, will be glad to see his Astoria friends. A good dinner at a moderate price and everything in season.

Do You Eat Butter?

D. F. Stafford, the champion butter maker of Clatsop Plains, has leased for the coming butter season, the Goodwin farm, which is stocked with the famous Jersey cows. Look out for the butter soon to come from there. It will be labeled the way of our name, and can be found for sale at F. L. Parker's.

At Thompson & Ross's.

If you want something in the line of canned vegetables better than the ordinary brands, try the Dewdrop, sold by Thompson & Ross.

Also canned corn on the cob, and sweet potatoes, pronounced a delicacy of the season.

Our Roast Coffee are excellent; try them.

Our Hams give the very best satisfaction.

We have Pickled Beef and Sheep Tongues, Figs Feet, etc.

Our Salt Mackerel, Herring, Tongues and Sausages, and Salmon is No. 1.

Our Rock Candy Drips, Strained Honey, and honey in the comb are tip top.

If you want something nice for breakfast try our Flake Pearl Wheat.

FROM THE NATIONAL CAPITAL.

A Presidential Visit to the South.

WASHINGTON, Feb. 21.—The presidential party left Washington this morning by the Atlantic coast line for a visit to the sub-tropical exposition at Jacksonville, Florida. The party consisted of president and Mrs. Cleveland, secretary and Mrs. Whitney and colonel and Mrs. Lamont. The train will make its first stop at Savannah, Georgia, where it will arrive to-morrow morning. The party will remain there an hour and will take a drive over the principal thoroughfares. They will arrive at Jacksonville at one o'clock in the afternoon, when a visit will be made to the exposition and a reception will be held by the president and Mrs. Cleveland in the evening. On Thursday the day will be spent in St. Augustine and a start for home will be made Friday morning.

A SIBERIAN CONSUL.

WASHINGTON, Feb. 21.—Rev. J. C. Price (colored), president of Livingstone college, Salisbury, N. C., has received a letter informing him that the president has appointed him minister resident and consul-general of the United States in Siberia. Price has not yet decided whether he will accept the office or not.

GWINE TO JACKSONVILLE.

WASHINGTON, Feb. 21.—The presidential train was the second section of the southern fast mail. On the first section were a number of senators who will reach Jacksonville to-morrow about noon, a few minutes in advance of the second section. This party was in charge of senator Call, and was made up of himself and two daughters, senator Faulkner and wife, senator Daniels and wife, senator Pugh, wife and daughter, senator George, wife and daughter, senator Stewart and wife, senator Butler and two daughters, and ex-senator Simon Cameron.

NOLLE PROSEDO.

CINCINNATI, Feb. 21.—The indictment against Miss Joseph Holmes was this morning not proscribed on application of Dist. Atty. in consideration of her having given testimony in the Fidelity Bank case. This is the last Fidelity Bank indictment.

FRENCH FEARS.

PARIS, Feb. 21.—Several journals fear that a government crisis will ensue should the cabinet insist upon the chamber of deputies voting a sum on account of the secret services and declare they will vote on a question of confidence.

A GERMAN VIEW.

LONDON, Feb. 21.—Clyde ship owners held a meeting to-day to discuss the business outlook; it was shown that a gloomy view of ship building prospects was generally held. Allen predicted a total collapse before the year ended.

A BIG FAILURE.

PITTSBURGH, Feb. 21.—Graft, Bennett & Co., iron manufacturers of this city, assigned to-day. The failure is a great surprise. In 1883 the firm failed for about \$1,200,000 and was granted an extension of time. Since then they have paid about two-thirds of their indebtedness, and were supposed to be doing well. The cause of their failure was the investment of their plant. It is understood that the secured liabilities are about \$500,000 and unsecured \$600,000 to \$800,000. The latter consists of notes for ore and other material. Among the liabilities is a mortgage for \$450,000 held by the New York Life Insurance company and not yet due. The assets are believed to be about \$80,000.

Does It Pay?

Three-fourths of our people are troubled with Dyspepsia and liver complaint in some form or other, which by nature of the disease has a depressing influence on the mind or body, preventing them from thinking or acting clearly in any matter of importance. Indigestion, coming up of food after eating, dyspepsia, sick head-ache, acidity of the stomach or any derangement of the stomach or liver (upon which the whole action of our system depends) are speedily and effectually overcome by the use of Green's August Flower. The most stubborn cases have yielded to its influence, as thousands of letters received will testify. The immense sale of this medicine is another guarantee of its merits. (over a million and a half bottles sold last year.) So we ask, will it pay you to suffer from any of the above diseases when you can have immediate relief in the August Flower. Three doses will prove its worth. It is sold by all druggists and general dealers in all parts of the world.

San Francisco Apparently the Choice.

WASHINGTON, Feb. 20.—It is stated this afternoon that members of the St. Louis delegation have been informed by senator Gorman that it is the wish of president Cleveland that the convention shall be held at San Francisco and that they have agreed to respect the wishes of the chief executive.

Don't Experiment.

You cannot afford to waste time in experimenting when your lungs are in danger. Consumption always sneezes at first, only a cold. Do not permit any dealer to impose upon you with some cheap imitation of Dr. King's New Discovery for Consumption, Coughs and Colds, but be sure you get the genuine. Because he can make more profit he may tell you he has something just as good, or just the same. Don't be deceived, but insist upon getting Dr. King's New Discovery, which is guaranteed to give relief in all Throat, Lung and Chest affection.

Trial Bottles free at W. E. Dement & Co.'s Drug Store.

The finest and juiciest steak at Whitcomb & McGillas's.

Twines, Twines, Twines.

J. O. Hanthorn is agent for Dumbor, MacMasters & Co.'s salmon tines on the Columbia river, and guarantees to satisfy the trade in prices and quality equal to any on the market.

SKIN SCALP BLOOD

Having been a sufferer for two years and a half from a disease caused by a bruise on the leg, and having been cured by the CUTICURA REMEDIES when all other methods and remedies failed, I deem it my duty to recommend them. I visited Hot Springs to no avail, and tried several doctors without success, and at last our principal druggist, Mr. John P. Finlay (to whom I shall ever feel grateful), spoke to me about CUTICURA, and I consented to give them a trial with the result that I am perfectly cured. There is now no sore about me. I think I can show the largest surface where my sufferings sprung from of any one in the State. The CUTICURA REMEDIES are the best blood and skin cures manufactured. I refer to druggist John P. Finlay and Dr. D. C. Montgomery, both of this place, and to Dr. Smith, of Lake Lee, Miss.

ALEXANDER BEACH, Greenville, Miss.

Mr. Beach used the CUTICURA REMEDIES, at our request, with results as above stated.

SAVED MY MOTHER'S LIFE.

Ever since I can remember, my mother has suffered from a milk leg. Nothing would do her any good. She had the best medical talent, but they all did her no good. She suffered with her leg for thirty years and never knew a well day. She would have to sit up half the night, holding up her leg and moaning. She had no peace. She used all the best-known remedies in those countries without effect. I asked her to try your CUTICURA REMEDIES. Got her a bottle of CUTICURA RESOLVENT, and she took it, and has taken in all about six or seven bottles, and now she is a well woman to-day. Her leg is entirely healed, and she can go out every day, something she has not done in ten years, so you see I cannot help stating to you about your wonderful CUTICURA REMEDIES. You have saved my mother's life. I cannot find words to express my gratitude. I have advertised your CUTICURA REMEDIES far and near.

EDWARD LUEDER, 1565 Broadway, N. Y.

PIMPLES, black-heads, chapped and oily skin prevented by CUTICURA MEDICATED SOAP.

Sneezing Catarrh.

The distressing sneeze, sneeze, sneeze, the acrid, watery discharges from the eyes and nose, the violent inflammation extending to the throat, the swelling of the mucous lining, causing choking sensations, cough, ringing noises in the head and splitting headaches, how familiar these symptoms are to thousands who suffer periodically from head colds or influenza, and who live in ignorance of the fact that a single application of SANFORD'S RADICAL CURE FOR CATARRH will afford instantaneous relief.

But this treatment in cases of simple Catarrh gives but faint idea of what this remedy will do in the chronic forms, where the breathing is obstructed by choking, putrid, mucous accumulations, the hearing affected, smell and taste gone, throat ulcerated and hacking cough gradually fattening itself upon the debilitated system. Then it is that the marvellous curative power of SANFORD'S RADICAL CURE manifests itself in instantaneous and grateful relief. Cures begin from the first application. It is rapid, radical, permanent, economical, safe.

SANFORD'S RADICAL CURE consists of one bottle of the RADICAL CURE, one box CATARRHAL SOLVENT and an IMPROVED INHALER; price, \$5.

In a Hurry to Get Away.

Ship Alexander Gibson, laden with 3210 tons of wheat for Liverpool, sailed yesterday from Tacoma, but without her bills of lading, and so without her orders. More than that, she slipped away, leaving Cunningham and Mullan, the stevedores, in the lurch for about \$1,000. The authorities have been telegraphed to stop the vessel and libel her. Capt. Speed, her master, it is said, was intoxicated at the time of her departure. —Seattle Press, 17.

A Sound Legal Opinion.

E. Bainbridge Munday Esq., County Atty., Clay Co., Tex. says: "Have used Electric Bitters with most happy results. My brother also was very low with Malarial Fever and Jaundice, but was cured by timely use of this medicine. Am satisfied Electric Bitters saved his life."

Dr. D. I. Wilcoxson, of Horse Cave, Ky., adds a like testimony, saying: "He positively believes he would have died, had it not been for Electric Bitters."

This great remedy will ward off, as well as cure all Malarial Diseases, and for all Kidney, Liver and Stomach Disorders stands unequalled. Price 50c. and \$1. at W. E. Dement & Co.'s
