DON'T WORRY.

The Shrewd Business Man's Method of Overcoming Difficulties.

"Is there a fatality among our prominent men?" is a question that we often ask. It is a question that perplexes our leading medical men, and they are at a loss to know how to answer it.

We sometimes think that if the physicians would give part of the energy to the consideration of this question that they give to combating other schools of practice, it might be satisfactorily answered.

The fight of "isms" reminds us often of the quarrels of old Indian tribes, that were only happy when they were annihilating each other.

If Allopathy makes a discovery that promises good to the race, Homoeopathy derides it and breaks down its influence. If Homoeopathy makes a discovery that promises to be a boon to the race, Allopathy attacks it.

It is absurd that these schools should fancy that all of good is in their methods and none in any other. Fortunately for the people, the merit which these "isms" will not recognize, is recognized by the public, and the public recognition, taking the form of a demand upon the medical profession, eventually compels it to recognize it.

Is it possible that the question has been answered by shrewd business men? A prominent man once said to an inquirer, who asked him how he got rich, "I got rich because I did things while other people were thinking about doing them."

It seems to us that the public have recognized what this fatality is, and how it can be met, while the medical profession have been wrangling about it.

By a careful examination of insurance reports we find that there has been a sharp reform with reference to examinations, (and that no man can now get any amount of insurance who has the least development of kidney disorder,) because they find that sixty out of every hundred in this country do, either directly or indirectly, suffer from kidney disease. Hence no reliable company will insure a man except after a rigid urinary examination.

This reminds us of a little instance which occurred a short time ago. A fellow editor was an applicant for a respectable amount of insurance. He was rejected on examination, because, unknown to himself, his kidneys were diseased. The shrewd agent, however, did not give up the case. He had an eye to business and to his commission, and said: "Don't you worry; you get a half dozen bottles of Warner's safe cure, take it according to directions and in about a month, come around and we will have another examination. I know you will find yourself all right and will get your policy."

The editor expressed surprise at the agent's faith, but the latter replied: "This point is a valuable one. Very many insurance agents all over the country, when they find a customer rejected for this cause, give similar advice, and eventually he gets the insurance."

What are we to infer from such circumstances? Here shrewd in business men, as well as other shrewd business men, found the secret answer to the inquiry? Is it possible that our columns have been proclaiming, in the form of advertisements, what has proved a blessing in disguise to millions, and yet by many ignored as an advertisement?

In our files we find thousands of strong testimonials for Warner's safe cure, no two alike, which could not exist except upon a basis of truth; indeed, they are published under a guarantee of \$5,000 to any one who will disprove their correctness, and this offer has been standing, we are told, for more than four years.

Undoubtedly this article, which is simply dealing out justice, will be considered as an advertisement and be rejected by many as such.

We have not space nor time to discuss the proposition that a poor thing could not succeed to the extent that this great remedy has succeeded, could not become so popular without merit even if pushed by a Vanderbilt or a Astor.

Hence we take the liberty of telling our friends that it is a duty that they owe to themselves to investigate the matter and reflect carefully, for the statements published are subject to the refutation of the entire world. None have refuted them; on the contrary hundreds of thousands have believed them and proved them true, and in believing have found the highest measure of satisfaction, that which money cannot buy, and money cannot take away.

PERSONAL MENTION. Mr. and Mrs. Sam'l Elmore are in Portland.

W. S. McCabe is in Tacoma, suffering with rheumatism.

J. Q. A. Bowly has been re-appointed notary public.

Thos. Byrie goes to San Francisco to-day, on a two weeks' business trip.

Jos. Pineshower returned yesterday from a business trip through Pacific and Chehalis counties.

A. J. Johnson, the florist, has an order for five hundred young trees from Golden Gate park, San Francisco.

His aged and suffering mother will thankfully receive any information of the whereabouts of Benjamin M. Rothery.

The Verdict Unanimous. W. D. Sult, Druggist, Bippus, Ind., testifies: "I can recommend Electric Bitters as the very best remedy. Every bottle sold has given relief in every case. One man took six bottles, and was cured of rheumatism of 10 years' standing." Abraham Hare, druggist, Belleville, Ohio, affirms: "The best selling medicine I have ever handled in my 20 years' experience, is Electric Bitters." Thousands of others have added their testimony, so that the verdict is unanimous that Electric Bitters do cure diseases of the Liver, Kidneys or Blood. Only a half dollar a bottle at W. E. Dement & Co.'s Drug Store.
