We heard a rather illustrative story lately from one of our neighboring factory towns. An oldfashioned Yankee of Quaker stock, who ran a small shoe factory, indulged in a theory that nothing could pry out of his mind that a moral wrong was somehow perpetuated upon the community at large if a woman were allowed to earn above a stipulated sum each week. As the help was paid by prices, he found this rather hard to manage at times. The swiftness of one young woman especially troubled him greatly. She would persist in running financially ahead of the others. At last he made a special cut-down in her prices, and told her why he did it. She gave him a baleful glance, tightened her lips and went on working. By Saturday night next, despite the cut-down, she made 10 cents allowed does not contain Amounta, Lime, or Alum. MIDDLE-AGED MEN There are many at the age of 30 to 60 who are troubled with too frequent evacuations of the bladder, often accompanied by a slight smarting or burning sensation and a weakening of the system in a manner the patient cannot account for. On examining the urinary deposits, a ropy sediment will often be found, and sometimes small particles of albuman will appear or the color will be of a thin, whitish hue, sgain changing to a dark, torpid appearance. There are many men who die of this difficulty, ignorant of the cause, which is the second stage of seminal weakness. DR. SPINNEY will Guarantee a Perfect Cure in such cases, and a healthy restoration of the genito-urinary organs.
