Up in eastern Oregon the work of saving the country has got so far that even the newspaper men are calling each other liars, scoundrels, thieves, cutthroats, snakes, knaves, traitors, renegades, blackmailers, etc. Gentlemen, be aisy, and if you can't be aisy, be as aisy as you can. Break away.

The newly appointed assessor filed his official bond in the sum of \$5,000, with W. W. Parker, Theo. Brucker and F. A. Fisher as sureties. The court then adjourned to meet again next July.

The Ladies' Society in the State University recently discussed the question, "Resolved, that president Cleveland's views on the tariff question should re-elect him." The affirmative was taken by Misses Patterson, Hendricks, Condon and Hamilton, and they carried the day, the decision being on their side. That settles it.

The item going the rounds of the state press that the month of February, 1888, had no full moon, and much marvel is made thereof. Our esteemed contemporaries are all right and all wrong. February had no full moon, but the February about which this statement can be truthfully made was the February of 1886—twenty-two years ago.

In the justice court yesterday appeared T. K. Johnson, Angus Gor, Chris. Henry, H. Murray, O. Graham, charged with violation of the fish law in fishing with a seine, the meshes of which were less than three inches square. T. K. Johnson was discharged, H. Murray waived examination, Angus Gor and Chris. Henry were held to answer, bonds being furnished. The latter is charged with violation of the law regarding traps, and will be examined to-day.

A Washington dispatch says the house of representatives has the river

and harbor bill under consideration. More than half the items in the measure have been read and adopted in the committee of whole house. There has been some scattering opposition to it, but there is a solid determined majority for the measure. Men who are in favor of it are ready to give it consideration in preference to all other measures, except the tariff bill. It is believed by those best informed that the river and harbor bill will come to a final vote in the house before the end of May, and that it will be passed substantially in its present form.

A coffee and cake resort for all night men talks of getting a "rounceur." A New York establishment of that nature has abolished its business. The crude and primitive way he had of yanking loungers from their seats and dragging them out by the collar, upset the serenity of his customers. Now, when the obtusated loungee carries too long over his coffee, a waiter comes along, takes off the loungee's hat, wakes him, politely hands him the tile, remarking, "There's your hat." The loungee sleepily murmurs "Thank you," puts on his hat and drops off again. Then another waiter tackles the loungee just as the first one did, but with much more obsequious politeness. After his hat has been handed to him six or eight times the loungee begins to feel as if he would like to lick a few waiters. But he knows he can't, so he simply swears a little and quickly goes out. This method of getting rid of what the coffee and cake men call "lodgers" is not only effective, but contributes to the pleasure of observant customers.

The bridge affords means of transportation to Ilwaco of produce for a large tract of farming country embracing the Chinook, Wallcut and Bear river settlements.

FROM THE OLD WORLD.

Stanley Believed to Be With Emin Bey. News Notes From London, Bucharest and Berlin.

THE EMPEROR'S CONDITION. BERLIN, April 23.—A bulletin issued at 9 o'clock says although the emperor was troubled by coughing last night, he otherwise passed a tolerably fair night. His fever is low.

STERNLY REPRISSED. BUCHAREST, April 23.—The revolt of the peasants has been suppressed. Wholesale arrests have been made and the prisons overflow with prisoners, the majority of whom will be liberated. Enormous quantities of grain are being distributed among the starving peasantry by the military.

TROUBLE IN MOROCCO. LONDON, April 23.—Advices from Morocco say that a number of the sultan's troops attacked the Northwest company's depot at Cape Juby, near Morocco. They killed the manager at the depot, and wounded others; help is urgently needed.

BELIEVED TO BE WITH EMIN BEY. BERLIN, April 23.—Dr. Junker, the African explorer, in a lecture before the geographical society to-day, expressed his firm conviction that Stanley is now with Emin Bey. This is the opinion of all leading German explorers.

GOING FOR REPRISALS. GIBRALTAR, April 23.—The British gunboat Falcon sailed hence to-day for Cape Juby, in consequence of an attack by a body of the sultan of Morocco's troops upon the Northwest African company's depot at that place.

GETTING BETTER. BERLIN, April 23.—The condition of Geo. H. Pendleton, the American minister, is much improved since yesterday.

TROUBLE IN CUBA. NEW YORK, April 23.—A correspondent of the Sun prints a terrible picture of the condition of things in Cuba. He says: "Within the past month the following persons have been kidnaped while engaged in their daily labor: Jose Ruffek, Antonio Alentado, Angel Mendez, Jose Sierra, Felipe Garcia and a wealthy planter named Senor Galandere Aldama, who was obliged to pay a ransom of \$17,000 in gold. This is only a month's record. Death stalks grim and unopposed through the once flourishing island. Handcuffed and outraged by her cruel masters, Cuba is fast sinking into a condition of utter lawlessness, despair and ruin."

CHINESE LEGISLATION. WASHINGTON, April 23.—It is probable that the committee on foreign affairs of both houses will take up the Chinese question in a very short time. The senate committee, in all probability, will offer amendments to the treaty which was negotiated by secretary Bayard, and request the president to secure the consent of the Chinese minister to accept the amendments. In the house committee the Belmont bill, which has been drafted to carry out the new treaty, will probably be set aside for a bill which Mr. Morrow is preparing, and which is intended to accompany the new treaty as amended, if the senate takes that action. If the Chinese minister is sincere in his statement that the Chinese government desires to exclude Chinamen from this country, he cannot refuse to accept the amendments which will be proposed by the senate. They are intended to give effect to his professions.

"Dawned" Upon His Mind. A few days ago an Oregonian called at the White house to see the president, and the subject of the recent Democratic convention came up in the conversation. The president expressed himself as gratified that the Oregon Democrats had endorsed his administration so heartily, and then added that he was also gratified to know that A. Bush was made chairman of the state Democratic committee. As he said this the president was seen to smile. His visitor did not know what it meant, but it finally dawned upon his mind that the smile of the president had reference to a certain letter circulated some two or three weeks ago, and which attracted considerable attention at the time. —Washington Corr. Oregonian.

JESSE APPLIGATE DEAD.

An Unlikely Report From Pittsburg. A Splendid Tribute to the Government's Credit.

PITTSBURG, Pa., April 23.—The Chronicle-Telegraph to-day claims to have information of a bold scheme to control the Republican presidential nomination. The plan is to stampede the convention for Blaine, with the expectation that if he does not refuse the nomination, his declination will not be received until after the adjournment of the convention. In this event the national committee will be called upon to name the man.

THE TARIFF BILL. WASHINGTON, April 23.—The committee on ways and means held a long meeting this morning, but failed to finally agree upon the tariff bill. The Republican members asked that ten days of five hours each be set for the purpose of debate. The Democratic members held that a shorter time would suffice if evening sessions were held.

BUDD VANN DEAD. ST. HELENA, Cal., April 23.—Budd Vann, who was shot by Charles Graham yesterday, died at 12 o'clock last night.

THE SPARROW AND THE SPOUT. "The blasted bloomin' sparrow flew up the spout again." And then the bloomin' blasted rain it drove the sparrow out. And then the bloody bloomin' sun it drove away the rain. And the blasted bloomin' sparrow—flew up the spout again."

An Explanation. What is this "nervous trouble" with which so many seem "now to be afflicted? If you will remember a few years ago the word Malaria was comparatively unknown,—to-day it is as common as any word in the English language, yet this word covers only the meaning of another word used by our forefathers in times past. So it is with nervous diseases, as they and Malaria are intended to cover what our grandfathers called Billiousness, and all are caused by troubles that arise from a diseased condition of the Liver which in performing its functions finding it cannot dispose of the bile through the ordinary channel is compelled to pass it off through the system, causing nervous troubles, Malaria, Billious Fever, etc. You who are suffering can well appreciate a cure. We recommend Green's August Flower. Its cures are marvelous.

Going to be a Millionaire. It was less than six years ago that A. M. Cannon was traveling around through eastern Oregon and Washington, engaged in repairing old sewing machines and selling new ones on commission. His brother-in-law, Capt. Pease, was engaged in lumbering at Spokane Falls and Cannon went over there to see him. Pease got tired of inland life and came back to his old life on the Columbia, as a river pilot. Not so with Cannon, who saw the greatness of Spokane from afar off and made his abiding place in that growing and ambitious young city. He is now in a fair way to become a millionaire, and is power among the strong and busy brains of that section.—Mercury.

Reducing the Surplus. The disposition of the Surplus in the U. S. Treasury engages the attention of our Statesmen, but a more vital question has our attention, and that is the reduction of the Surplus Consumptives. Since the discovery and introduction of Dr. King's New Discovery for Consumption, there has been a marked decrease in the mortality from this dreaded disease. It is possible to still further reduce the number of Consumptives. How? By keeping constantly at hand a bottle of Dr. King's New Discovery, and using according to directions, upon the appearance of the first symptoms, such as a Cough, a Cold, a Sore Throat, a Chest or Side Pain. Taken thus early a cure is guaranteed. Trial bottles free at Jno. C. Dement's Drug Store.
