Ayer's Hair Vigor keeps the hair soft and pliant, imparts to it the lustre and freshness of youth, causes it to grow luxuriantly, eradicates Dandruff, cures all scalp diseases, and is the most cleanly of all hair preparations.

AYER'S Hair Vigor has given me nearly bald for six years, during which time I used many hair preparations, but without success. Indeed, what little hair I had was growing thinner, until I tried Ayer's Hair Vigor. I used two bottles of the Vigor, and my hair is now well covered with a new growth of hair.—Judson B. Chapel, Peabody, Mass.

HAIR that has become weak, gray, and faded, may have new life and color restored to it by the use of Ayer's Hair Vigor. "My hair was thin, faded, and dry, and fell out in large quantities. Ayer's Hair Vigor stopped the falling, and restored my hair to its original color. As a dressing for the hair, this preparation has no equal.—Mary N. Hammond, Stillwater, Minn.

VIGOR, youth, and beauty, in the appearance of the hair, may be preserved for an indefinite period by the use of Ayer's Hair Vigor. "A disease of the scalp caused my hair to become harsh and dry, and to fall out freely. Nothing I tried seemed to do me any good until I commenced using Ayer's Hair Vigor. Three bottles of this preparation restored my hair to a healthy condition, and it is now soft and pliant. My scalp is cured, and it is also free from dandruff.—Mrs. E. F. Foss, Milwaukee, Wis.

Ayer's Hair Vigor,
Sold by Druggists and Perfumers.
PERFECT SAFETY, prompt action, and wonderful curative properties, easily place Ayer's Pills at the head of the list of popular remedies for Sick and Nervous Headaches, Constipation, and all ailments originating in a disordered Liver.

I have been a great sufferer from Headache, and Ayer's Cathartic Pills are the only medicine that has ever given me relief. One dose of these Pills will quickly move my bowels, and free my head from pain.—William L. Page, Richmond, Va.

Fast Work in a Clothespin Factory.

"One cent a box?"
"Yes sir. We are paid 1c for packing a box of five gross of clothespins," said one of the packers to a reporter for the New York Mail and Express recently.

"An expert can pack 100 boxes in a day of ten hours. Sharp work, that, handling 72,000 pins a day." Clothespins are made in the lumber regions. They are usually made of white ash, sometimes of beach, black and white birch and maple. The wood is taken to the factory in logs and cut into lengths of 31 inches by circular saws. These lengths are then cut into blocks and the blocks again cut into sticks. The sticks are placed under another saw and cut into the required lengths. Next the turner takes a hand at them, and from there they go to the slotting machine. They are placed in troughs by the operator, the machine picking them up and slotting them. They are then placed in a revolving pipe-drier, going thence to the polishing cylinder and then to the packer. Each pin passes through eight hands. A single plant consists of board saw, gang splitter, gang chucker, turning lathe, drying house and polisher, and costs from \$7,000 to \$12,000. The machines working are very interesting. The little blocks of wood 5 1/2 inches long are placed on an endless belt which feeds the blocks automatically into the lathe. As the lathe is turned the pin is taken automatically from the spindle and placed on a circular saw, which whittles out the slot end of the pin. It is then finished and thrown out of the turntable by the same appliance that puts the pins on the table. Falling they are caught, in a basket or barrel and are then taken to the driving house for ten to twenty-four hours, or until dry. The polishing cylinder or rumbler holds twenty to forty bushels: this is run at a slow speed, about thirty turns a minute, and by simple friction and contact they become polished.

Merchants, Read This.

To those subjected to the vexations of business life, dyspepsia and a feeling of debility, irritability and despondency, we say, take Simon's Liver Regulator. The Regulator is free from any injurious mineral substance; not disagreeable and can be taken at any time without interfering with business or pleasure. It is gentle, safe, and a good digester. It is unequalled in the cure of piles, constipation, bad breath, sick headache, and bilious complaints.

A Deadly Street Duel.

JACKSON, Miss., May 1.—General Wirt Adams, postmaster of this place, and John Martin, editor of the New Mississippian, this afternoon fought a street duel, and both men were killed. The general was hit twice. Accounts of the tragedy are conflicting, and it cannot be said who fired the first shot. An article published this morning in the New Mississippian was the immediate cause of the tragedy, though a breach has long existed between the men. It charged incompetent service in the postoffice, for partisan reasons.

A \$60,000 Fire.

PENDLETON, Or., May 1.—The Henrietta flour mills at Echo burned yesterday morning about 1 o'clock, completely destroying the mill and all the contents. The mill was built by J. H. Koontz, in 1886, at a cost, including fixtures, warehouses, etc., of \$32,000. Thirty thousand bushels of wheat and a large quantity of flour and chop feed were also burned. The total loss is over \$60,000. The insurance on the mill was 23,000, divided between the Home Mutual, the Oregon Fire & Marine and the State Investment Insurance companies. The fire is supposed to have originated from sparks from the engine of the eastbound passenger train, which passed Echo about midnight. L. J. Ward, an employe of the mill, was asleep at the time of the fire, and barely escaped being badly burned. The fire is a great loss to the whole community.
