The men that went round with long faces, wagging their heads wisely and prophesying loss when the street car line was building, haven't a word to say. It is well patronized and is making money right along. Someway with other projects that have existed only on paper for so these many years. The way to do a thing is to do it.

C. W. Fulton spoke at Hillsboro last night. W. T. Barney speaks there to-morrow night. John M. Gearin speaks there the next night. There is probably less speaking here than any other place of any size in the state, though there are few places of its size that have a greater number of men who are well fitted to speak on public questions.

The 17th of May anniversary ball at the I. X. L. premises last evening was a pronounced success. There was a good time, all present enjoying themselves. Messrs. A. T. Brakke and C. A. Hanson made speeches commemorative of the day, there was good music, a spacious hall to dance in and a bountiful supper, and just enough there to make it an occasion of pleasant remembrance.

The Parker House flew its new flag yesterday. For the last two months painters, plumbers, paper-hangers and carpenters have been busy renovating and repairing inside and out, and the entire establishment has received a thorough overhauling. It is one of the largest hotels in the state, and will compare favorably with any of them in all that makes a hotel desirable and comfortable to the traveling public.

Hon. John O'Keane, receiver of the land office at Vancouver, furnishes the Western World, published at Chicago, the following valuable facts: "At a very close estimate

there yet remains vacant in this district 350,000 acres of unoccupied surveyed and, 1,865,000 acres of unsurveyed land and 650,000 acres of railroad land. Of the surveyed government land, about 218,000 acres lie in Klickitat county, and the remainder is distributed through Skamania, Clatsop, Clallam, Waukegan, Pacific, Lewis and Chehalis counties. The land in Klickitat is chiefly open and suitable for stock and grain. The remaining land lies west of the Cascade range and is chiefly heavily timbered, a large portion of it being covered with a superb growth of fir. These lands when cleared are excellent for agricultural purposes. The railroad lands are withdrawn from market at present, but we expect those in Klickitat, Skamania and Clatsop counties to be restored to the public soon, as the railroad is not built, nor is there any prospect that it will be."

PERSONAL MENTION.

PACIFIC COUNTY ITEMS.

The logging camps at Nasel are running in full blast, there being about 150 men engaged in the business, of which 120 are in the employ of the Nasel logging company and about thirty working for Graham & Ross, making a total of 150 men who are making a great change in the appearance of this section.

One from the recently discovered ledge on the Willapa was sent to San Francisco by John Wood of South Bend, to be assayed and returns are expected daily. Some of the rock was sent to Portland, and an assay disclosed over \$6 of silver to the ton, with a percentage of copper, and the ore sent to San Francisco is much better looking than the first lot. It is free milling ore and can be worked very cheaply, and Mr. Wood believes, from present indications, that it will pay to work, although he does not expect very large returns. The ledge is very extensive, and is within about four miles of the Nasel. It is to be hoped that it will turn out rich and pay for working it.—Journal.

Oregon Fir.

The two carloads of 11 sticks of Oregon fir, that were consigned to J. Fraser, were on the team track of the Chicago and Rock Island road, near Taylor and State streets last week. The timber was subsequently deposited in the yard of the Marsh and Bingham company, north pier. They were lately described in the Lumberman as ranging from 16 to 22 inches in diameter, and from 44 to 50 feet in length. Four of them were purchased by George Halket, boat builder and flagstaff maker, east end Kinzie street bridge, who will convert them into tall flag poles. The timber opened out as sound as a dollar, the knots in the heart being small and without the slightest sign of rot. This experience was highly satisfactory to Mr. Fraser and the boat builder, and both are now ready to swear to the value of Oregon fir.—Northwestern Lumberman.

The former owners receive no compensation for the liberated slaves. Nearly 1,500,000 are liberated by the new law. In recognition of this enlightened measure in removing the last vestige of slavery from the new world the pope has sent a golden rose to the princess regent of Brazil.

A Warning.

The modes of death's approach are various, and statistics show conclusively that more persons die from diseases of the Throat and Lungs than any other. It is probable that every one, without exception, receives vast numbers of Tubercle Germs into the system and where these germs fall upon suitable soil they start into life and develop, at first slowly and is shown by a slight tickling sensation in the throat and if allowed to continue their ravages they extend to the lungs producing Consumption and to the head, causing Catarrh. Now all this is dangerous and if allowed to proceed will in time cause death. At the onset you must act with promptness; allowing a cold to go without your attention is dangerous and may lose you your life. As soon as you feel that something is wrong with your Throat, Lungs or Nostrils, obtain a bottle of Boecher's German Syrup. It will give you immediate relief.

A Threatened Failure.

SAN FRANCISCO, May 18.—It is reported in commercial circles that the British Columbia Packing company is deeply involved through the failure of William T. Coleman & Co, who has been carrying them through for some time. Headquarters of the company in this city stated that the company's liabilities are from \$50,000 to \$60,000.

The Verdict Unanimous.

W. D. Sult, Druggist, Bippus, Ind., testifies: "I can recommend Electric Bitters as the very best remedy. Every bottle sold has given relief in every case. One man took six bottles, and was cured of Rheumatism of 10 years' standing." Abraham Hare, druggist, Bellville, Ohio, affirms: "The best selling medicine I have ever handled in my 20 years' experience, is Electric Bitters." Thousands of others have added their testimony, so that the verdict is unanimous that Electric Bitters do cure diseases of the Liver, Kidneys or Blood. Only a half dollar a bottle at W. E. THE STEAMER TELEPHONE.

A Flattering Reception to The New Steamer.

Six months ago the steamer Telephone was burned at Upper Astoria, on her down trip from Portland, Capt. Scott beaching the vessel and every one on board getting safely on shore.

The work of building a new boat was begun as soon as possible and yesterday the new Telephone rounded Tongue Point on her first trip to Astoria, where a hearty welcome awaited her.

Her appearance had been anxiously looked for, and as she approached the docks and wharves were lined with spectators.

The new boat presented a fine appearance as she came flying along, and rounding to floated up to the old, accustomed landing place. Flugs were flying from prominent buildings, the Western Amateur band was at the wharf playing lively music, the steamers in port saluted the new comer with repeated whistles, the cannon on Hustler's dock boomed out a welcome, and cheer upon cheer arose from the assembled crowds for the new steamer.

As soon as the gang planks had been got out, and some of the passengers had got ashore, a throng of Astorians passed on to the new boat to see and inspect her. Capt. Scott, E. A. Seeley, and Purser Barnard were happy and were the recipients of hearty handshakes and congratulations on again appearing with so splendid a boat.

In a few minutes there were people in every nook and corner of the boat from the hold to the pilot house, looking and examining. The Astorian has previously published a full account of the new craft, and it need not be said that she is longer boat than the old Telephone and in many respects an improvement over the craft. Capt. Scott says that she is satisfactory in every way and that he believes she is the fastest steamer-boat on the Columbia river. "As soon as things get limbered up," and the machinery gets going, he will set her out some day and see what she can do. Yesterday the boat came down with 100 pounds of steam, 140 being regulation, and made her regular landings "just the same as if nothing had happened."

She passed the railroad bridge at Portland at 7:08 yesterday morning; St. Johns 7:31; mouth of the Willamette at 7:54; left St. Helens at 8:45; left Kalama at 9:27; left Rainier at 10:07; left Skamokawa at 12:32, and arrived here at two o'clock. All along the river it was a continual ovation, people cheering as she passed, and at every landing place crowding aboard "to see the new boat."

Among those who came down yesterday afternoon were J. B. Montgomery and wife, Russel Montgomery, C. W. Roby and family, Judge F. J. Taylor, Chas. S. Wright, Jno. A. Beck, W. S. Lotan, Mrs. De Prans, W. J. Anderson, W. A. Campbell, M. M. Dee, C. E. Carr, Miss K. N. Tupper, Capt. J. E. Lombard and son, Capt. Granville Reed, W. K. Smith, J. T. Davis, J. E. Davis, Gustaf Wilson, W. W. Leghorn, B. E. Vestal, Ed. Wright of the Pioneer, B. D. Sigler, U. B. Scott and wife, E. A. Seeley and wife, C. B. Barnard and wife, Geo. W. Gates, Chas. Brown, S. Hirschfeldt, H. M. Teels, E. B. Stevens, F. Moore, Geo. W. Scott, J. O. Jackson, A. T. Ambrose of the Sittings, Mr. and Mrs. P. Shannon, Mr. and Mrs. H. W. Shields, P. W. Smith, H. E. Battin, Albin Nelson, Job. Ross, F. N. Corley, A. McDonald, Jos. Leis, G. F. White, C. Sterling, Geo. Colwell, Miss Kate Richardson, Mrs. Mary Barron, Miss Mary Weist, E. H. Flagg of the Mist, J. E. Mayo, and a hundred others.

Many of the ladies of Astoria graced the occasion with their presence and several of them presented the Telephone with magnificent bouquets and baskets of brilliant flowers, which when massed on the table in the ladies' cabin gave it the appearance of a conservatory.

The officers of the boat are, Capt. U. B. Scott; pilot, Thos. Crang; purser, C. R. Barnard; mate, C. J. Hoogkirk; chief engineer, J. N. Scott; assistant engineer, Perry Scott; steward, John McGillis.

The Astoria agent is C. R. Donohoe, the Portland agent, E. A. Seeley. The ladies, who have excellent taste in these matters, say that the white and gold decorations, the carpets, tables, easy chairs, rugs, pictures, mirrors, etc., are in harmony and give the latter cabin the appearance of a drawing room. There is a fine piano, and books and papers lie within easy reach.

By the time these hasty notes were penciled the familiar tones of the whistle had been twice heard, and at three o'clock the Telephone cast off and started for Portland on her first trip, her flags and streamers fluttering in the breeze, the blue water lapping her lines and gleaming in the brilliant sunlight, and her decks crowded with passengers, a straight column of white steam from her white-collared smoke stack, as with splashing wheel and rushing prow she started on her career, receiving a parting cheer from those who had remained to see her off.

A Woman's Discovery.

"Another wonderful discovery has been made and that too by a lady in this county. Disease fastened its clutches upon her and for seven years she withstood its severest tests, but her vital organs were undermined and death seemed imminent. For three months she coughed incessantly and could not sleep. She bought of us a bottle of Dr. King's New Discovery for Consumption and was so much relieved on taking first dose that she slept all night and with one bottle it has been miraculously cured. Her name is Mrs. Luther Lutz." Thus write W. C. Herrick & Co., of Shelbyville, N. C.—Get a free trial bottle at W. E. Dement & Co's Drug Store.
