The Way To Fall Down.

seems to hover over drunken men and children has something of an explanation," said a well known and eminent medical man to a reporter, "in the fact of the main cause of the breakage of the bones from falls being from a resistance of the tendons more often than from the violence of the shock incident to the actual fall, A child or an intoxicated person will rarely endeavor with any great effort to recover their balance when they slip or topple over. Hence no special resisting force is experien-ced, and they sink into a collapsed heap without serious injury. When an adult in possession of his sound senses todertakes with endless contortions and gyrations to save himself from going down, he draws every muscle and sinew taut, and if the wrench is too severe the bone breaks. There is no way of definitely proving it, but it is asserted, and I believe with some show of truth, that some, at least, of the fractures resulting from falls, especially from a hight, happen before the actual shock with the substance one falls on occurs. It's very strange, but I guess it is the truth."-Philadelphia Call.

A young gentleman of France one evening after a dance, made a bet while supping that he could swallow a raw egg without breaking the shell, and he did so. A tew days afterward he experienced violent pains, the doctors administered a strong emetic, the egg came back, but broken, and warmth of the young man's stomach had produced the unexpected result, and if any one doubts the truth of the story, say those who vonch for it, he can go to Chalons hatched.

Constipation has Many Victims,

And the endeavor to find relief with the cathartic, the injection, the aperient and laxative are distressing. These are re-

axative are distressing. These are resorted to time and again, until the sufferer is almost in despair, as he gains only a brief respite.

By taking Simmons Liver Regulator, the bowels will be gently moved as naturally as if no medicine had been taken. Regularity in taking the medicine will soon effect a permanent relief. "I want a warrant for the arrest

of a hated rival," said a western young man- "I may be poor, but no man can insult me and get way with it." "What's the trouble," asked the

instice. "Disturbance. It was at the wedding ceremony. I won the girl, and just as I repeated, 'With all my worldly goods I thee endow,' there came from the organ loft in the voice of my hated rival, the word 'Rats.' I go on no wed-ding trip until this thing is set-tled."

MIDDLE-AGED MEN

There are many at the age of 30 to 60 who are troubled with too frequent evacuations of the bladder, often accompanied by a slight smarting or burning sensation and a weakening of the system in a manner the patient cannot account for. On examining the urinary deposits, a ropy sediment will often be found, and sometimes small particles of albumen will appear, or the color will be of a thin, whitish hue, again changing to a dark, torpid appearance. There are many men who die of this difficulty, ignorant of the cause, which is the second stage of seminal weakness. DR. SPINNEY will Guarantee a Perfect Cure in such cases, and a healthy restoration of the genito-urinary organs.
