 The *Kitty* previously reported, arrived in from Hong Kong yesterday afternoon. She has a crew of Japanese sailors.

duements were sufficient they would write up Astoria. They had very handsomely printed cards, but had no more to do with journalism than we have to do with Stanley's Central African expedition. They got \$150 in Salem and beat Ladd & Tilton in Portland by inducing that bank to cash the drafts that the Salem folks gave them for articles that never appeared. Ladd & Tilton must stand the loss; Ertel and Battersby committed forgery in endorsing the drafts and are now in California, working the same racket.  
 The *State of California* is due this morning with the following passengers: Mrs. E. J. Harris and daughter, W. B. Clobb, Mrs. C. C. Dalton, J. D. Rainey, T. B. Willis, Mrs. J. H. Kingsley and wife.  
 The single-scutt race between James Seeley, the Portland oarsman, and L. Stevenson of San Francisco came off last night, says Thursday's *Oregonian*. Seeley won; time, 19:32. The race was for \$250 a side and the gate receipts. Great secrecy regarding the course had been maintained by the managers of the race in order that they might have a large crowd as possible on the boat which they proposed to run to the course. The distance was three miles, with a turn, and the course selected was to the east of Ross island, from the north end of that island up the river to buoys and back.

 It is stated that the platform committee has agreed to except as to the anti-saloon plank, which will be discussed this morning. **LOWER RATES FOR TOWAGE.**  
 The O. R. & N. Company Will Operate Bar Tugs.  
 (Oregonian 21.)  
 Yesterday Mr. W. H. Holcomb, general manager of the O. R. & N. Co., announced to a committee of the board of trade that his company had decided to put on a towage service at the entrance of the Columbia river which will be run in connection with the company's river towage. Mr. Holcomb's recent visit to San Francisco was for the special purpose of securing tugboats, and he has the option of a new steel boat, an iron boat that has seen some service, and three wooden tugs of sufficient power. In a very short time a decision will be reached as to which boats will be bought, and the new service will begin before any of the wheat crop growing is ready for shipment.  
 In order to put instant stop to complaints of ship-owners over the present high rates charged for towing vessels from the ocean to Astoria and out again, Mr. Holcomb announced his company's schedule of rates. They include towage and pilotage from the ocean to Portland and return, and are as follows:  
 Vessels under 800 tons register ..... \$ 50  
 800 to 1000 tons register ..... 90  
 1000 to 1200 tons register ..... 95  
 1200 to 1400 tons register ..... 100  
 Every 200 tons over 1400 ..... 50  
 Lighterage is to be 50 cents per ton.  
 The reduction in charges on ships of medium carrying capacity (between 1200 and 1400 tons) is nearly two-thirds from present rates, and on larger ships more than one-half. Resident managers of large shipping houses to whom the schedule was submitted say that the rates are eminently satisfactory, and Mr. Holcomb promised that they might safely give notice to their firms that the rates for the coming season would be no higher.  
 This announcement will be received with much satisfaction by every grain producer in Oregon and Eastern Washington, and by the mercantile community of Portland. It was asked of the O. R. & N. that a railroad be built to Couer d'Alene and that the company establish a towage service at the mouth of the Columbia. The company will do both, and there is reason for congratulation. Now if the terminal company will provide facilities for handling freight, every reasonable request will have been complied with.

 From The "Julia Pearl."  
 KARLUK, Kodiak Island, Alaska, Saturday, April 28th, 1888.  
 To Whom It May Concern:  
 We, the undersigned, through personal observation, do hereby assert that Charles A. Treanor, master of the unfortunate bark *Julia Foard*, wrecked at this place yesterday, made every exertion possible for a seaman, to save his vessel and cargo, and honorable mention should be made of the heroic manner in which he saved the lives of his people, after there was no further hope of saving either ship or cargo. And we, each and collectively, wish to state that nothing was lost through bad management of any description whatever, and that he was the last to leave his ship, at the peril of his own life.

**A Toothsome Dish.**  
 A well-known congressman has become somewhat famous among his colleagues as being the author of the following salad, which he recommends to his friends as being the most toothsome thing imaginable at late breakfast; Sank a salted mackerel over night. Then boil it twenty minutes, drain, remove all the bones and shred the fish. Add to it three hot boiled potatoes and mix together; season with a liberal quantity of Tobacco pepper sauce, white pepper and a suspicion of anchovy paste. Wash, drain and dry a crisp head of lettuce; dress it with plain salad dressing. Arrange the whole leaves on a plate, put a teaspoonful of the mixture on each leaf, fold it up and eat it with your fingers. In the language of the Hon. Timothy J. Campbell, "Boys, it's great."—N. Y. Sun.

**Manmoth Trees.**  
 On Lewis and Clark river about ten miles up and just above tide water, only fifteen miles from Astoria, stands a spruce on the north side near the river, measuring forty feet four inches in circumference, ten feet from the ground and above the brace roots, it is at least one hundred feet to where it forks. The forks are too large for saw logs. There's enough lumber in it to fence around forty acres, build a dwelling, a barn and enough stove wood to last a year. I measured it with Neal Wilson to help. It's been standing guard over that historic river and every change in its course of life, ever since a hundred years before the landing of the pilgrims.

**Is Consumption Incurable?**

 Jesse Middleton, Decatur, Ohio, says: "Had not been for Dr. King's New Discovery for Consumption I would have died of Lung Trouble. Was given up by doctors. Am now in best of health." Try it. Sample bottles free at J. C. Dement's Drug Store.
