

The Astorian

ASTORIA, OREGON: FRIDAY, JULY 20, 1888.

ISSUED EVERY MORNING. (Monday excepted.)

J. F. HALLORAN & COMPANY, Publishers and Proprietors.

ASTORIAN BUILDING, - - - CASS STREET.

Terms of Subscription. Served by Carrier, per week, 15 cts.

The Astorian guarantees to its advertisers the largest circulation of any newspaper published on the Columbia river.

The Jas. Drummond is loading salmon for Liverpool.

Frank L. Parker has been appointed a notary public.

Jacob Kamm talks of sending the United over on the Sound.

The state baseball tournament began at Baker City yesterday.

The Telephone starts on the Cathlamet excursion at 8:30 this morning.

There is no finer fresh meat on the coast than that supplied by the Astoria meat markets.

The Astorian buys and pays for more telegraph than any other newspaper in the state, outside of Portland.

McKee Rankin and his company in their great play of "The New Danites" at Ross's opera house next Monday night.

County warrants issued prior to July 15 1888 are payable with interest to date at county treasurer DeWent's office.

Strangers and visitors to the city are always welcome at the Y. M. C. A. rooms, where they will find the latest leading newspapers, magazines, etc.

Some time ago Prineville concluded it needed a minister, and advertised for one, and a minister saw the advertisement and went there and filled a long felt want.

The Tillamook Headlight is reliably informed that Messrs. Kinney Bros., of Astoria, have completed all arrangements for building a cannery at Goose point.

Jack Depauper, a former conductor on the Oregon & California road, and who was injured in the mishap near Dunsmuir last fall, has sued the company for \$25,000.

George Marshall of San Bernardino, Cal., died of smallpox last Wednesday night at Miller's station, a few miles north of Albany. No other cases are reported.

The Corvallis Times complains that Mongolian pheasants are getting alarmingly thick in that section. It is said that one covey will eat and destroy more grain than a hog.

Timber cruisers are out in every direction looking for and locating timber land. Some of them are employed by eastern capitalists. Others are eastern capitalists themselves.

There was a pleasant social and supper at Liberty hall last evening under the auspices of the Y. M. C. A., and a literary entertainment of unusual merit, the evening being enjoyed by all present.

Several Astorians are pleased to know that McKee Rankin is to appear here, having seen him elsewhere. He is considered to be a great actor. Reserved seats may be had at the New York Novelty store to-morrow.

Mat Stevens was accidentally drowned near the middle sands yesterday. He was aged 28 years. It is not known if he had any relatives here. Any one knowing anything of his people should address Wm. Hendren, this city.

Blackberries have arrived. Plums, nectarines, apricots and other fruit are plenty, of fine flavor, and ridiculously cheap. Oregon is favored in having two fruit seasons, one when early California fruit is received, and later when our own unrivaled Oregon fruit is ready to eat.

The new recruits for the Salvation army need vocal practices. Their street singing of evenings is woefully out of tune. The way they squawk "if you're not a lover of the Lord" will make nobody want to go to Heaven when they die, if that is a specimen of the celestial melody.

In the vicinity of the hospital T. J. Patton has been making a nuisance of himself, and his actions got so intolerable that he was yesterday afternoon arrested upon a charge of insanity, which is about the most charitable construction that could be put on his pranks. He will be examined to-day.

G. W. Ross, of Ross Bros., proprietors of the opera house, desires to say that he has been to considerable trouble and expense in securing McKee Rankin and his troupe, and other first class entertainments and is willing to leave it to the judgment of the Astoria public as to the quality and standing of the attractions he secures for the theater.

Uncle Billy Chanee has many droll tales of early times on this coast, and though he makes no effort to show it, he is really one of the most authentic living sources of information about early times in this state. No event worth remembering since '53 has occurred between the Siskiyou and the Olympic range that he does not remember and can accurately recall.

The Oregon is due from San Francisco this morning with the following passengers: J. Green and wife and sister, J. L. Doyle, E. A. Parsons, A. J. Childs, S. Hamilton and wife, Dr. Slater, A. T. Begley, Rev. T. F. Lawrence, J. E. Rhodes, E. B. Webber, Miss O. Lieb, W. A. Blackney, E. J. Thomas, Mrs. S. Smith, H. Gerson, M. Nunan, J. W. Scott, M. Johnson.

The Pacific base ball club met at the Hook and Ladder rooms last evening and effected an organization, electing P. W. Weeks, president and manager; P. S. Cook, secretary, and H. Hughes, field captain. The members are, P. W. Weeks, Harry Hughes, P. S. Cook, W. Binder, A. W. Meany, M. Warren, Geo. Noland, John Hay, Del Ferguson, Jno. Grant.

Reem Kanaga returned from Portland yesterday. He still keeps that black band on his Harrison hat and says it isn't the band that distinguishes the politics of the wearer; it is the color of the hat. The Cleve-land hat is a nutria brown; the Harrison hat is a pearl gray; one can wear a broad black band of any texture on either hat, and it will still be a Harrison hat or a Cleveland hat.

Tuesday evening, says the Oregonian, thirty salmon were taken out of the Clackamas river, at the hatchery, to ascertain if they were ripe enough for stripping. It was found that it will be two weeks yet before the eggs can be used. The salmon, which contained about 100,000 eggs, were then returned to the river. Prof. Livingston Stone, who is in charge of the hatchery, says that it is the intention to begin taking eggs about August 1.

For some time past an individual named Giuseppe Giovali has been grossly insulting L. Serra and wife, and uttering abusive and obscene language at every opportunity. Yesterday afternoon Serra, stung with the taunts of Giovali, seized a revolver and fired twice at him. They were both taken in charge by chief Barry, Serra promptly giving bonds for his appearance in the justice court this afternoon. Giovali was locked up, and will be given a hearing this afternoon.

A lady, who evidently understands what she is talking about, says that a kiss on the forehead denotes reverence for the intellect; a kiss on the cheek, that the donor is impressed with the beauty of the lips is a token of love. Kissing the hand of another expresses willingness to serve her; but kissing your hand to another is a love-token, signifying that you would kiss her with your best affection and grace if she were near enough. Dye's mind that now.

In the justice court yesterday Henry Peters, who has been fishing a cannery boat for the Astoria Packing Co., was arraigned and convicted of having taken eight salmon to a whiskey scow and sold the salmon. He was given 5 days in the county jail. Then Robert Harrison, of the firm of Harrison & Butts, proprietors of the whiskey scow was put on his defense, and upon examination on a charge of receiving stolen property, was held in the sum of \$400 to await the action of the next grand jury.

"Ought young girls to read the daily newspapers" is the title of a brochure read by Dr. W. T. Harris, of Concord, Mass., at the teachers' national convention in San Francisco. Why certainly—if the old man pays for the paper. But no girl, old or young, should read the daily paper unless she believes that the head of the house whacks up his little old fifteen cents a week. This may not be the stand point from which Doc. Harris treated the subject, but so much in this world depends upon the point of view.

There was a pleasant gathering at the residence of ex-mayor J. C. Trullinger last evening, the occasion being the marriage of his daughter, Miss E. A. Trullinger, to Mr. W. D. Mack, of Chehalis, W. T., the marriage ceremony being performed by Rev. G. D. Hall, pastor of the Congregational church. Mr. and Mrs. W. D. Mack left on the boat last evening on a bridal trip to Victoria, B. C. Their future residence will be at House, and the young couple have the best wishes of a host of friends for a long happy life.

The first carload of fresh halibut sent east from the Sound met with ready sale, as the following from the Boston Traveler shows: "A carload containing 20,000 pounds of fresh halibut in good order arrived in New York Monday, shipped by Solomon Jacobs at Seattle, W. T., June 7th, caught by the schooner Mollie Adams and selling for 12 cents per pound. This is a new venture and will be watched with much interest. It is expected that it will affect the shipments made by halibut syndicates at Gloucester, Mass. Among the members of the concern at Gloucester, it is the general topic."

Mr. C. C. Utzinger of Crookston, Minnesota, a brother of A. W. Utzinger of this city, arrived yesterday. Mr. Utzinger is favorably impressed with Astoria, and may conclude to cast his fortunes with us. He is the mayor of the city of Crookston, a place about the size of Astoria—eight miles from Winnipeg, Manitoba, the center of a fine wheat growing region. The longer Mr. Utzinger stays in Astoria the better he'll like it, and if he abides here a month he'll be writing back to his Crookston friends, "sell the whole business and come out to God's country."

From Maine to California; from the Gulf of Mexico to the frozen regions of the North, politicians are so mixed up that you can't tell whether from which side they come tother. All along since the presidential nominations were made, it has been a prevalent opinion that the republican hat was a pearl plug with a black band and binding to match, and

that the democratic hat was a pearl plug with a black band, and politicians have been recognized accordingly. Now comes the announcement from the largest hat house in America reversing this idea, and later still comes the information from Belva Lockwood that the emblem of her party is a pearl plug hat with a black garter around it.

The following is what Judge Davis, a level headed Illinois man says of the local newspaper. We publish it for the benefit of some who, sponge their reading or are perpetually growing because things are not run to suit them: "Every year every local paper gives for the sole benefit of the vicinity in which it is located. No other agency can or will do this. The local editor, in proportion to his means, does more for his town than any other ten men, and in all fairness, man with man, he ought to be supported, not because you may happen to like him or admire his writing, but because a local paper is the best investment a community can make. To-day the editors of the local papers do the most work for the least money of any men on earth. Subscribe for your local paper, not as a charity, but as an investment."

Notes From Ilwaco.

ILWACO, July 18, 1888. Past two days the thermometer registered 95 in the shade during the forenoon, but dropped considerably in the afternoon. Undoubtedly it's the warmest weather this summer. At the seaside bathing was not only considered fashionable, but deliciously refreshing. Right in town, where bathers are always protected from the rather too cool northwest winds, there was a grand gathering of families, without the assistance of the adult males, on Tuesday afternoon, and they indulged in a good water picnic, utterly regardless of the prevailing fashion in bathing suits and yet most becomingly and modestly attired. A large number of seaside visitors and cottagers are arriving on the Potter every trip. Most of these passengers patronize the beach wagon to reach their destination, owing to the fact that the wagon can take passengers right from the dock, while on the other hand, as the railroad bridge is not quite completed, the cars cannot connect direct with the boat. In a few days however there will be direct communication between cars and boat. The railroad is completed and in fine running order from Ilwaco to within 200 ft. of the Harvest Home hotel grounds to-day. Probably within the next 24 hours the rails will be laid as far as Jenkins at Long Beach—or East Portland camp. A ball at that place on next Saturday evening is announced. As an evidence of prospective prosperity along the beach this summer, it may be mentioned that there is a barber's tent at "Jenkins" and also one at "Stones". When last season it was considered unnecessary to have a shop on the beach.

Several of our pound net men are over to Gray's Harbor looking for locations to continue their vocation this coming fall.

A Warning.

The modes of death's approach are various, and statistics show conclusively that more persons die from diseases of the Throat and Lungs than any other. It is probable that every one, without exception, receives vast numbers of Tubercle germs into the system and where these germs fall upon suitable soil they start to grow and develop, at first slowly and in shown by a slight tickling sensation in the throat and if allowed to continue their ravages they extend to the lungs producing Consumption and to the head, causing Catarrh. Now all this is dangerous and if allowed to proceed will in time cause death. At the onset you must act with promptness; allowing a cold to go without your attention is dangerous and may lose your young life. As soon as you feel that something is wrong with your Throat, Lungs or Nostrils, obtain a bottle of Boecher's German Syrup. It will give you immediate relief.

Clever Escape of An Important Witness.

Singular Accident in a St. Louis Theater.

(SPECIAL TO THE ASTORIAN.)

WASHINGTON, July 19.—The president has approved the agricultural and district of Columbia appropriation bills.

A PROBABLY FATAL ACCIDENT.

ST. LOUIS, July 19.—A peculiar accident occurred at the Standard theater last night resulting in probably the fatal burning of Ed. Hill and M. Dwyer aged 19 and 21 years respectively and the severe injury of several other attaches of theater. The men were engaged in fumigating the theater with sulphuric acid which Hill and Dwyer were pouring from stone jugs. Both jugs exploded at once scattering the acid in every direction and saturating the clothing of both young men and bespattering those near. Hill and Dwyer were nearly crazed with the pain and ran through the streets followed by a crowd until caught by a policeman and taken to the city dispensary where their burns were dressed. In their flight they had torn almost all their clothing off and reached the dispensary nearly nude. The other wounded men were able to go to the dispensary without assistance but they are severely injured.

A SENSATIONAL INCIDENT.

PORT HURON, July 19.—A sensational incident occurred last night following the examination of Fred and Chas. Saunders who were arrested June 9, for smuggling opium. Chas. Label, of Indianapolis, was brought here to testify in the case. It was understood that he had turned state's evidence and testified that several piano boxes of opium had been shipped to him at Fort Wayne and Indianapolis and reshipped by him to San Francisco. Saunders' brothers were held for trial and the bail fixed at \$5,000. District attorney Black and deputy U. S. marshal Stein left for Detroit on the evening train with Label. They had him handcuffed and intended to hold him until trial. When the train was four miles west of this city Label jumped up, ran to the door of the car and made his escape. The train was stopped but too late to be of service as there was a buggy standing near by into which he jumped and drove away at a rapid rate of speed. He drove direct to the bank of the St. Clair river where a boat was waiting for him. He is now in Canada and out of the reach of the United States authorities. He was the only witness against Saunders' brothers and it will be a hard matter to convict them now.

For First Place.

A great amount of political engineering will be done by friends of candidates to secure for their man the first place on the ticket, and the best man will probably secure the second place. Then if endorsed by the majority of the people, the election is assured. Electric Bitters has been put to the front, its merits passed upon, has been endorsed, and unanimously given the first place among remedies peculiarly adapted to the relief and cure of all Diseases of Kidneys, Liver and Stomach. Electric Bitters, being guaranteed, is a safe investment. Price 50c and \$1 per bottle at Jno. C. Dement's Drug Store.
