#### History of Bummers-

Verily there is nothing new under the sun. Even the word "bummer" is ancient if not honorable. Says American Notes and Queries: This is usually considered to be an Americanism. But, like many other Americanisms it of an old English word, bummaree, which may be found in the "English Market By laws" of over two hundred years ago. In the London Publick Intelligencer of the year 1660 it appears in several advertisements. Bummaree meant a man who retailed fish by peddling outside of the regular market. These persons were looked down upon and regarded as cheats by the established dealers, hence the name became one of contempt for a dishonest person of irregular habits. The word first appeared in the United States during the 50's in California, and traveler eastward until during the civil war it came into general use.

Vast silver mines have been discovered in India. So the old land will not only be a competitor of the United States in wheat, but also in one of the precious metals

\*Competition is the Life of Trade," and if you have not seen our latest improved goods you not imagine how lively trade is, or how increased and competitors have to work to keep within sight of us your retailer for the JANES MEANS SA SHOE, or the JANES HEANS \$4 SHOE. according to your needs.

Positively none genuine unless having our name and price stamped plainly on the soles. Your retailer will supply you with shoes so stamped if you insist upon his doing so; if you do not insist, some retailer will coar you into buying inferior shoes upon which they make a larger profit.

Such has been the recent progress in our branch of Industry that we are now able to affirm that the Iames Means, \$1 Shoe is in every respect equal to the shoes which only a few years ago were retailed at eight or ten dollars. If you will try on a pair you will be convinced that we do not exagerate. Ours are the riginal \$2 and \$3 Shoes, and those who imitate our system of business are unable to compete with us in quality of factory products. In our lines we are the largest manufacturers in the United States. One of our traveling salesmen who is now visiting the shoe retailers of the Pacific Coast and Rocky dountain Region writes from there as follows:

"I am more than satisfied with the results of my trip. I have thus far succeeded in placing our full ine in the lands of 'A No. 'I dealers in every point I have visited." He goes on to say, "This is a splendid region for us to sell shoes in, because most of the retailers are charging their customers at retail about double the prices which the shoes have cost at wholesale. The consequence is that the people who were shoes are paying six or seven dollars a pair for shoes which are not worth as much as our JAMES MEANS 'S3 and S4 SHOES. Our shoes with their very low retail prices stamped on the soles of every pair are breaking down the high prices which have higher to relied in the retail markets here, and when a retailer puts a full line of goods in his stock they at once begin to go of like hot cakes, so great is the demand for them."

Now, kind reader, just stop and consider what the above signifies so far as you are concerned. It usures you that if you keep on buying shoes bearing no manufacturers' name or fixed retail price stamped in the soles, you cannot tell what you are getting and your retailer is probably making you pay double what your shoes have cost him. Now, can you affined to do this while we are protecting you pay double what your shoes have cost him. Now, can you affined to do this while we are protecting you pay stamping our name and the fixed retai
