No One Need Remain A Dyspeptic.

"I have been suffering for over two years with Dyspepsia. For the last year I could not take a drink of cold water nor eat any meat without vomiting it up. My life was a misery. I had had recommended Simmons Liver Regulator, of which I am now taking the second bottle, and the fact is that words cannot express the relief I feel. My appetite is very good, and I digest everything thoroughly. I sleep well now, and I used to be very restless. I am fleshing up fast; good strong food and Simmons Liver Regulator have done it all. I write this in hopes of benefiting some one who has suffered as I did, and would take oath to these statements if desired."

A RESERVOIR RUNS AWAY.

The reservoir at Roanoke, Va., mysteriously sank on the night of Dec. 1. There were 1,500,000 gallons of water in the reservoir in the morning. Now there is nothing but a yawning abyss to be seen. The hole in the bottom of the basin is about fifteen feet in diameter, and there are large cracks in the earth extending in every direction. The water disappeared within five minutes. The Roanoke water works company's reservoir is located on Mill mountain, about two miles south of the city. The two immense basins were only completed in the latter part of the past summer, at a cost of $50,000. They are immense holes dug in the mountain's side, large enough to hold 1,500,000 gallons of water each. They were tamped with white clay and lined with brick laid with cement, after which a heavy coat of the best cement that could be procured was worked over the inside of the brick wall. The work was superintended by Howard Murphy, of Philadelphia, a hydraulic engineer of long and successful experience.

Vice president Trout, when asked what he thought was the cause, said it was evidently due to caverns in that section.

DO NOT SUFFER ANY LONGER.

Tired feeling, dull headache, pains in various parts of the body, sinking at the pit of the stomach, loss of appetite, feverishness, pimples or sores, are all positive evidence of poisoned blood. No matter how it became poisoned it *must* be purified to avoid death. Acker's English Blood Elixir has never failed to remove scrofulous or syphilitic poisons. Sold under positive guarantee by J. W. Conn, Druggist.

Catfish are charged with injuring the salmon fishery of the Sacramento by feeding on the spawn. The catfish is a poor substitute for the salmon. The fish commissioners should take care in propagating one species they do not destroy a better. Who would put a pike in a trout pond?—*S. F. Bulletin.*

My Poor Back!

That "poor back" is held responsible for more than its share of the sufferings of mankind. If your dog bites a man who kicks it, do you blame the dog? On the same principle the kidneys utter their protest against nervousness, impure blood, and resulting constipation. These force them to do extraordinary work in ridding the system of the poisons which are the result of effete matter retained in the blood. Then the sufferer says the back aches; the kidneys are diseased. "Not yet;" but they will be unless the nerves are strengthened, the blood purified, and the constipation removed. These are the causes of kidney troubles, and Paine's Celery Compound removes them quickly. With its tonic, purifying, and laxative effect, it also strengthens the weak kidneys, making it almost infallible in curing all diseases of the nerves and kidneys. If your hopes of cure have not been realized, try Paine's Celery Compound; it gives perfect health to all who complain of "their poor backs." *Price $1.00.*
