J. F. HALLORAN & COMPANY, Publishers and Proprietors.

ASTORIAN BUILDING, - - CASS STREET. Terms of Subscription.

Served by Carrier, per week 15 cts. Sent by Mail, per month 50 cts.

THE ASTORIAN GUARANTEES to its advertisers the largest circulation of any newspaper published on the Columbia river.

Tin plate is slow of sale in San Francisco at \$5.25 a box.

The Lurline leaves for Portland at nine o'clock this morning.

It is reported that J. R. Frierson, well known here, died last week in San Francisco.

And now the rush for timber land is toward the upper and middle Nehalem, and many are headed that way.

Mrs. E. W. Tallant received yesterday afternoon the sad news of the death of her mother at Nantucket, Mass.

Special meeting of Ocean Encampment No. 13, I. O. O. F., to-morrow evening at 7:30. Business of importance.

Sam'l Elmore returned yesterday from an extended visit to his father, who has almost completely recovered his health.

The O. R. & N. Co.'s new \$25,000 boat building at Portland, for the upper Willamette, will only draw thirteen inches.

Stephen Butts and R. Searcy, are putting in a large fish trap just below Warrior rock, near the foot of Sawvie's island.

A two year old deer at Bergman & Co.'s attracted considerable attention yesterday. It came from Gray's River, and is a little beauty.

The Walluski is still carrying railroad iron and has 600 tons more to deliver, which, at the dock, is done at the rate of one rail a minute.

Albany and Corvallis youths have established a new industry. They capture and ship to Arizona Chinese pheasants, where they are worth \$6 apiece.

John Jones, is building a slat-trap and will locate it at the Tall Timbers, 1 1/2 miles above Paget island. C. Driscoll is putting in a trap a short distance above Westport slough.

Mr. and Mrs. Flanders, of Crooked creek, and Mr. and Mrs. Goldbeck, of this city, are all happy over the arrival, at their respective homes, of a baby boy last Thursday night.

The Cathlamet Gazette says that the majority of the logging men will begin operations in a few weeks, and some of them are now making preparations to commence work at once.

The Wizard Oil concert troupe will be here this week. They are going to try and beat the Astoria city hawkers' license by selling song books for a dollar and "give the medicine away."

Parties on the Cowitz are out and injured by the drought this winter. They spent several thousand dollars putting in a boom for logs, but the rains didn't come and the logs are still non est.

The genial Tom Crang, pilot on the Telephone, is out \$60—two 20's and two 10's, which were stolen from his trousers pocket last Friday night. Tom doesn't know who the thief was, but the money is gone.

From the number of tin cans being manufactured in the several canneries, it looks as though all hopes of catching a few salmon in the Columbia the coming season had not been wholly abandoned.

The Albany Democrat thinks: "If Salem, Albany and McMinnville want a route to the sea at Astoria they should get in and take Sherman in his march to the sea as an example. He did something beside talking."

Col. A. H. Stone, of Knappa, directs attention to the fact that since Harrison's inauguration there has been no mail received at Knappa. And Knappa, too, gave Harrison 31 majority. Republics are, indeed, ungrateful.

The O. R. & N. lay off gives the other boats on the river about as much work as they can get away with. The company say they are making money by not running their boats on the lower Columbia: the other boats certainly are.

Layman's high license law fixes license for the sale of spirituous and vinous liquors in less quantities than one quart at \$400 a year, and for malt liquors in the same quantity at \$200 annually. It is now in force. It does not apply to incorporated towns.

Capt. Dan Graham, master of the bar tug Escort No. 2, came in yesterday afternoon, from the ofing, where in two hours time, with three lines, he and two others aboard caught 125 fine fish. The water there is teeming with fish just begging to be hauled aboard.

Says the Albany Herald: After carefully reviewing the situation of the railroad construction proposed by

the lines mentioned it is a safe prediction that within two years the cars of the Chicago & Northwestern will be running from Albany to Astoria and to Yaquina.

In the justice court yesterday the case of the state vs. Edith Holmes, charged with larceny of \$80 from Chas. White, was dismissed. Charles had \$80 when he entered the domicile and nary a cent when he emerged: he isn't as rich by \$80, but he knows a heap more than he did.

Last night Sheriff Smith telegraphed that he had arrested Jno. Langley, better known as "Biddy Doyle," and will bring him down to-day. The aforesaid is wanted here on a charge of embezzlement, and will have a chance to explain matters before Justice May to-morrow.

The following from the Coos bay News of the 6th, will not meet with unanimous assent here: "Notices, issued by the Columbia river fishermen's protective union, were posted in town last week, advising fishermen and others not to go to the Columbia river, as there is a surplus of labor there now."

A prominent physician of this city of wide obstetrical observation states that singularly enough, so far as he knows, ever since the November election, all the boy babies born here and hereabouts have Republican parents and all the girl babies born since that event have Democratic parents. He says he can't understand it. Who can? It passeth all understanding.

Col. Jas. Taylor yesterday celebrated his 80th birthday. Coming here in 1847, at the age of 38, he has been for forty-two years a prominent resident of Oregon, and is to-day as active and energetic as many a man not half his years. He was yesterday the recipient of many cordial greetings on the rounding to completion of eighty years of an honorable and useful life.

In the Congregational church, morning theme, "Thou wilt keep him in perfect peace whose mind is stayed on Thee," in the evening a sacred concert. In the Presbyterian church morning theme "The More Noble," in the evening song service, address "John Knox." In the Methodist church, morning theme "An easy religion," song service in the evening, address "Surprises of judgement," Congregational singing.

Gentlemen of the city council, if you have time take a walk to-day and look at the "streets." Your attention is gently directed to Benton, Main, First, Second, West 6th and the "roadway." God moves in a mysterious way his wonders to perform, and if some Higher Power didn't regard Astoria with considerable friendliness several Astorians would long ago have been bit intirely in going over that miserable bit of ancient history known as "the roadway."

The strike on the O. R. & N. boats on the Sound is reported to be at an end. On the river the O. R. & N. officials have issued an order rescinding wages 10 per cent, but the men decline to go back to work at the old figures, asking for an increase, so that the deadlock still continues. Captains of tow boats who were getting \$100 a month, ask \$125; mates on all the boats getting \$60 ask \$75; pilots getting \$75 ask \$100; engineers on Willamette boats getting \$90 ask \$100, and second engineers on all the boats getting \$60, ask \$75. As compared with elsewhere these are low wages and justified by the arduous character of the work.

There is big money to be made just now off the mouth of the river. There are several shoals or beavies or flocks or schools or groups or runs of seal, genuine far seal about fifteen miles outside, and there is quite a little fleet out there tending to them. Yesterday there were two schooners previously reported, and a third, the Penelope, with 151 skins aboard. The Penelope is an American schooner of Shanghai, fourteen days from San Francisco. The two pilot schooners are out along with the three sealing schooners, but up to last accounts had no seals. At present pilotage outlook, it would be a paying business for the boys to get some ammunition and have a crack at those same seals. Every seal of them is worth from \$5 to \$8.

The Nehalem Coal company held a meeting in Portland last Tuesday. The claims are situated in T. 4 N., R. 4 W., and on secs. 2, 10, 14, 15, 22, 23, 26, 27, 34 and 35, and cover an area of about 7,000 acres. The coal measures consist of six true veins or seams, with numerous smaller ones. The dip or pitch of coal is 10 to 40 degrees, course 76 degrees east. The quality is semi-bituminous, and equal to any mined on the Pacific coast. The formation is good and solid, with sandstone roof and bottom. The coal can be mined for 75 cents per ton and put on cars. And can be opened either by shaft or tunnel. Plenty of fine timber suitable for logging, and streams large enough to float logs are found, and a railway can be built to the mines either from Scappoose and connect with the Northern Pacific or Columbia river, or one can be built from Forest Grove, a distance of thirty miles. There are, says the World, probably 50,000,000 tons of saleable coal in the fields already taken up.

According to the Pendleton Tribune the locomotive engineers and firemen on the O. R. & N. lines were about to strike even before the cessation of work on the river and sound division. The Pendleton Tribune of the 1st, says: Trouble is brewing among the engineers and fireman on the line of the O. R. & N. company. On Monday last a grievance committee appointed by the engineers and fireman, went to Portland to confer with Assistant Manager Cookingham and other officials of the road, in the hope of reaching some satisfactory

conclusion regarding their complaints. It is understood that both engineers and fireman are dissatisfied with the extra work forced upon them and this with other complaints has led to a threatened revolt. The situation is said to be of a serious nature and unless some satisfactory arrangement is agreed upon a general strike will be ordered, embracing not only the O. R. & N. road but its connections. One of the engineers stated this morning that the men intended to stand firm and secure their demand or a strike would be inaugurated that would be as extensive and complicated as that of the C. B. & Q. road. The conference at Portland is still in progress and it is hoped that an understanding will be reached without the men being ordered out on a strike.

Latest From Samoa. The following cipher dispatch is the latest procurable from Samoa. It is said to be correct, but the statements are exaggerated. The wires seemed to be working badly toward the last, and the whole thing appears somewhat disconnected.

Who is Your Best Friend? Your stomach of course. Why? Because if it is out of order you are one of the most miserable creatures living. Give it a fair, honorable chance and see if it is not the best friend you have in the end. Don't smoke in the morning. Don't drink in the morning. If you must smoke and drink wait until your stomach is through with breakfast. You can drink more and smoke more in the evening and it will tell on you less. If your food ferments and does not digest right,—if you are troubled with Heartburn, Dizziness of the head, coming up of the food after eating, Bilioueness, Indigestion, or any other trouble of the stomach, you had best use Green's August Flower, as no person can use it without immediate relief.

At the Congregational Church. There will be a sacred concert at the Congregational church to-night, when the following numbers will be given: 1—Anthem, "Come Weary Souls." 2—Hymn, Creation. 3—Solo, selection. 4—Hymn, Jewett. 5—Solo, selection. 6—Hymn, "Lux Benigna." 7—Anthem, High in the Heavens. 8—Doxology.

CAPTAIN PAUL BOYTON.

The Famous Swimming Expert Here.

A hearty looking ruddy faced man is Capt. Paul Boyton who came down on yesterday morning's boat. He is unequalled for water journeys in the world's history, and is at home on the surface of the stormiest ocean. He has crossed the English channel, floated on the German ocean or the North sea, gone up and down the Atlantic coast, the Gulf of Mexico and in his rubber suit bids defiance to storm. He has saved innumerable lives and has a bushel of decorations stowed away sent him by kings and princes in grateful acknowledgement for having rescued their subjects in various parts of the world from drowning.

His mission here, is of a practical nature. He wants to get three car loads of sea lions and seals, some mink, otter, mountain lions, and other animal trio-a-brac, for Lincoln Park Chicago, the New York Central Park and the Philadelphia Zoo. He wants anyone who can get hold of a seal or sea lion to keep him and he will pay for the animal.

He is going down to the Seaside, and expects between the month of the Necanicum and Tillamook head to secure all the seals he needs. He wants to put them into stout boxes, with lattice work overhead, and a little water in the boxes and carry them on the cars, feeding them a little fish on the way.

He has a trainer who trains the seals and teaches them all manner of cute tricks. On his visit to the shores of the North sea last year he brought back a large number of seals, and was then commissioned to come to Astoria and get some seals from this vicinity.

The last time the writer met Capt. Boyton, prior to yesterday, was in July 1874, at Cape May, New Jersey. Since then he has been on every body of water of any prominence in Europe and America and thinks this northwest country unequalled in point of grandeur and scenic beauty.

He will go down to the beach on Tuesday, with a complete outfit and will be blessed with ordinary luck, be able to take back with him some specimens of the giant phoece.

Your Attention is Invited.

As the season for house repairing is now on I wish to state that I have extended my stock of wall paper to more than double the size of last season. My stock ordered of 1888 goods consists of 8,380 double rolls not including borders and decorations. As my stock is selected from goods of sixteen manufacturers I feel confident I can show a superior line, a greater variety than has ever been exhibited in Astoria. Hand work, flitting, flowers, etc., painting on ceilings before or after paper is put up. Linocusta walton furnished and finished in metals or colors. Papier mache decorations furnished and finished in latest styles. Call and examine my stock of wall paper.

Respectfully, B. F. ALLEN.
