ASTORIA, OREGON: WEDNESDAY.....

AS IT GOES

On her last trip down the s'teamer Oregon took to San Francisco, arriv-The O. R. & N. Co., gets \$2.50 a ton dent. to take this Oregon wheat to San Francisco. This \$2.50 a ton is paid it be loaded foreign in San Francisco, tion. Under a different system that 1,000 tons of wheat and 100 other 1,000 ton cargoes would be loaded at Astoria, and the profit, for of course there is a profit, would be divided between the O. R. & N. Co., Portland and Astoria. Under the present system the commerce of the Columbia is wrongfully diverted. THE ASTORIAN in commenting on these matters always states exact facts: it chooses its words and says nothing that is not capable of direct proof, or that admits of successful contradiction.

Such firms as Balfour, Guthrie & Co., can write ordering THE ASTORIAN discontinued, all they like. THE As-TORIAN does not concern itself as to their patronage, and any one who does not desire to subscribe for this paper as a business proposition and for the information it contains need not do so. THE ASTORIAN has no feeling in the matter, beyond desiring to show that the existing system of shipping grain is not on public business principles. It is slightly surprised that those in Portland who know better and who are acquainted with who it was that stated "that no supthe facts should aid in perpetuating so unjust and unbusiness like a system. They aid it by silence, as much as by sarcastic reference or caustic contradiction, at the same time knowing that what THE ASTORIAN asserts is the exact truth.

A CASE IN POINT.

One of the industrial wonders of this wonderful state, says the Oregonian, is why it will not pay to make butter in Oregon, while it pays to ship the article into the state from California and Iowa. The shutting down of the McMinnville creamery a few days is noted. The Reporter of that town says the market is overstocked to an alarming degree and that several thousand pounds of a first-class product now on hand cannot be disposed of except at a loss. Will some sagacious middleman tell the public why this is thus, as neither the producer at

Now, as all the world knows, the palace at Monaco stands on a great rock overhanging the Mediterranean. Mr. Bennett's yacht lay near at hand, and, after the quarrel, he went on board and spent the night in steaming up and down in front of the castle with the foghorn blowing every other minute. The disturbed prince next morning made testifies: "I can recommend Electric Bitters as the very best remedy. Every bottle sold has given relief in every case. One man took six bottles, and was cured of Rheumatism of 10 years' standing." Abraham Hare, druggist, Bellville, Ohio, affirms: "The best selling medicine I have ever handled in my 20 years' experience, is Electric Bitters." Thousands of others have added their testimony, so that the verdict is unanimous peace with his old friend, and Mr. Bennett returned to Monaco

THE Rothschilds, who control the northern railway of France, state that the six days' system has been extended and will be extended still further. The directors state that they intend to exercise their right of censorship over the immoral literature sold by Hatchette's on the railway bookstalls. The six-days week will yet be the watchword of labor through-out the world. It will be rather odd

IN SOLEMN CONCLAVE.

The following is from yesterday's Oregonian: A regular meeting of the board of trade

A regular meeting of the board of trade was held last evening, president Donaid Macleay in the chair.

The matter of the libeling of the ship Borrowdale for pilotage and the effort being made by the pilots to perpetuate the old rates came up for consideration.

Mr. McKee said that if the O. R. & N. Co. did not wish to fulfill their contract

the old rates came up for consideration.

Mr. McKee said that if the O. R. & N.
Co. did not wish to fulfill their contract
with the board, they would be placed in
a most awkward position.

Some discussion followed, and the
failure of the O. R. & N. to have a tug at
the bar was considered a violation of
their agreement, which was a matter of
deepest interest to the board.

The matter of appointing marshals for
this city and Astoria, to look after sailor
boarding-houses, also came up for discussion. It was stated that no support
could be looked to from Astoria in carry
ing out the law in this matter.

The marshals will, however, be state
officers, and can enforce the law at Astoria as well as here.

toria as well as here.

It was finally decided that a committee
be appointed, to report the names of two
persons suitable for marshals, and also an attorney be employed by the board to supervise and direct these officers, and, also to look after the suit against the Borrowdale, and a motion to that effect was carried.

It would be interesting to know port could be looked to from Astoris in carrying out the law in this matter," and what were his grounds for uttering such gratuitous insult. It seems impossible for our Portland brethren to discuss commercial mat-ters without a little side whack at Astoria, and they always make themselves ridiculous.

HE SENT IT EAST.

For a year I was troubled with pains in my back and side, and headaches, the result of liver and kidney trouble. I was attracted to Joy's Vegetable Sarsaparilla. by the startling testimonials in the papers. They seemed so practical I was induced to try it, knowing that as it was purely vegetable, it would do no harm. It acted as a gentle laxative. After the second bottle my pains and aches disappeared. It did so much for me that I sent several bottles to my family in New Jersey, who also took it with the most
