The correct answer to the question "Who is going to have the Astoria collectorship?" appears as far distant as ever.

One of the first things this national administration should do is to give us a reliable mail service to and from Alaska.

"The fact that you have to take out a license to sell liquor proves that it is wrong to keep a saloon." "Well, I had to take out a license in order to get married. Perhaps you'll tell me there was something wrong in that?"

The city council, at its next meeting, will probably levy a tax for the current year. The tax roll was turned over some time ago, but, so far, it has not been equalized. The equalization board will meet next Monday.

J. H. Syron, of Polk county, is perhaps the oldest man in Oregon. If he should live until September 25th he will be 100 years old. His hair is white as snow. He is an early riser and retains a surprising amount of vigor. He spends his time generally in walking and reading.

Supt. Jackson and twelve men are busy surveying lines at Smith's Point, and will soon begin platting the property into lots and blocks. As soon as that work is done a portion of the property will be put on the market. An avenue 125 feet wide is among the projected improvements.

Col. Jas. Taylor and wife will next Monday evening at their hospitable residence celebrate their golden wedding anniversary, fifty years of happy married life. The event will be a notable one, and will be doubtless an occasion of congratulations on the part of a large number of citizens.

Olson, Andrew Asp and Harry Bell, have renounced all allegiance to sundry European princes and potentates, and have taken the oath of citizenship during their intention to become citizens thereof.

The times says that in Jackson county the streams everywhere are lower than ever known in the history of that section since first settled by white men, at this season of the year. Rogue river itself is but a mere creek compared with its usual June volume, while Bear creek is well high dry, and the lesser tributaries are but reminiscences of water courses.

The timber land in northwestern Oregon is being gobbled up at a very rapid rate. The *Tillamook Headlight* and *Columbia* list to hand this week have 200 timber notices: here are 65 solid sections, and thousands of dollars are being put into this species of property, and in a year or two more, if it keeps on at the present rate there will be very little left.

Word has been received says the *Mist*, that Mrs. F. A. Lamont, who is at Ilwaco for her health, is in a critical condition. Her foot is no better, and the Astoria doctors recommend amputation, as the only means of saving her life, and another examination and consultation was to take place this week, when a decision will be arrived at in her case. Captain Lamont left Monday for Astoria to be with Mrs. Lamont, who has been taken to that place.

Under no circumstances should a personal warfare be waged in newspaper columns. The public takes no interest in private grievances, and their airing is generally to the injury of the paper. Subscribers don't pay their money to read war unscrupulous and mean a contemporary is, and the papers that indulge in violent tirades soon realize their error in reduced subscription lists and decreased receipts. The paper that first publishes the news in a condensed and authentic form is the one that American people want to read.

Yesterday afternoon Mr. J. O. Hanthorn was passing the Occident hotel with an envelope containing \$18.05 in his hand, when a gust of wind struck him and lifted his hat from his head. On the impulse of the minute he raised his hand to save his hat, when the envelope containing the coin dropped and burst, the money rolling in all directions. He managed to gather all but a twenty dollar and a five dollar piece, which went through the cracks in the road into the bay. Mr. Hanthorn will give a nice little reward for the return of the coin.

The Astoria Real Estate company filed articles of incorporation yesterday, J. H. D. Gray, J. W. Gearhart and H. F. Prael, incorporators. The object and business is to buy, sell, hold and lease real estate, and to do a general collection, insurance and commission business. The principal office is Astoria, Oregon, the amount of stock is \$20,000, divided into 200 shares of \$100 each. The duration of the corporation is perpetual. The company, of which Hon. J. H. D. Gray is general manager, and E. C. Lewis is secretary, has opened an office in Cass street, one door south of the Odd Fellows' building, and is ready for business.

Mr. Kelley, of the firm of Kelley, Dunne & Co., of Portland, appears to be a gentleman whose soul is consumed with caring care regarding Astoria's prosperity. He was loudly proclaiming his disbelief in Astoria's railway prospects yesterday morning, and offered to bet a \$75 suit of clothes that the railroad from here to connection in the Willamette valley would not be made in the stipulated time. The offer was promptly taken by G. Wingate who knows a good thing when he sees it, and the bet was duly recorded. If Mr. Kelley wants to duplicate that bet he can be accommodated. The writer would just as soon have Mr. Kelley pay for a \$75 suit of clothes for him as anybody else.

ALREADY KNOWN AND STATED.

But Pleasant Enough to Be Repeated.
The following is from yesterday's *Oregonian*:
Mr. William Reid, president of the Astoria and South Coast Railroad company, informs an *Oregonian* reporter that the Pullman Car company of Illinois, yesterday completed the first five freight cars, standard gauge, twenty tons capacity, for the Astoria and South Coast road, which were shipped to St. Louis, there to be loaded with rails for Astoria. Other twenty freight cars, twenty five tons capacity, are now under construction by the Pullman company, to be finished on the 28th of July and then sent to St. Louis for the rails there, and the remaining five flat cars will reach St. Louis from Pullman on the 8th of August. These cars are marked "Astoria & South Coast Railway," and will bring with them all the rails necessary to lay the track from Young's bay to the Ocean house. The locomotive No. 1 was inspected yesterday at Danville, Ill., and will reach Astoria in fourteen or sixteen days.

The company has now under consideration an offer of 1,000 tons of fifty-pound steel rails from Chicago, to complete the road from Young's bay into the heart of the city of Astoria and extend the line southward from the ocean shores to a fine timber region. Two surveying parties have been formed by F. E. Habersham, the engineer. One leaves this morning to locate the line from the Ocean house, and the other leaves on Monday to locate that portion from the Willamette valley across the coast range to Astoria. The first excursion coach is to arrive at Astoria about the end of August, and whenever the first ten miles beyond the Ocean house have been surveyed by the engineers, the construction company will commence work on the grading. As the rails have to wait for the Astoria railway company's flat cars to be constructed at Pullman, in order to bring these rails overland in that company's own cars, it is not expected to arrive at Astoria until the end of August, and whenever the first ten miles beyond the Ocean house have been surveyed by the engineers, the construction company will commence work on the grading. There was a frog who lived in a spring. He caught such a cold that he could no longer sing.
Poor, unfortunate, Batrachian! In what a sad plight he must have been. And yet his misfortune was one that often befalls singers. Many a once tuneful voice among those who belong to the "genus homo" is utterly spoiled by "cold down" whenever the cold winds, or both combined. For the above mentioned "croaker" we are not aware that any remedy was ever devised; but we rejoice to know that all human singers may keep their heads clear and throats in tune by a timely use of Dr. Sage's Catarrh Remedy and Dr. Pierce's Golden Medical Discovery, both of which are sold by druggists.

If a melon sounds "pank" when hit by the knuckles, an expert says, it is ripe.
A Sound Legal Opinion.
E. J. Sturbridge Munday Esq., County Atty., Clay Co., Texas says: "I have used Electric Bitters with most happy results. My brother also was very low with Malarial Fever and Jaundice, but was cured by timely use of this medicine. Am satisfied Electric Bitters saved his life."
Mr. D. L. Wilcoxson, of Horse Cave, Ky., adds a like testimony, saying: "He bravely believes he would have died had it not been for Electric Bitters. This great remedy will ward off, as well as cure all Malaria Diseases, and for all Kidney, Liver and Stomach Disorders stands unregarded. Price 50 cents and \$1. at Jno. C. DeWent's."

ITCHING AGONIES.
Every Night I Scratched Until the Skin was Raw.
Body covered with scales like spots of mortar. An awful Spec- tale. Doctors useless. Cure hopeless. Entirely cured by the CUTICURA Remedies in five weeks.
I am going to tell you of the extraordinary change your CUTICURA REMEDIES performed on me. About the 1st of April last I noticed some red pimples like coming out all over my body, but thought nothing of it until some time later on, when it began to look like spots of mortar spotted on, and which came off in layers, accompanied with itching. I would scratch every night until I was raw, then the next night the scales, being formed meanwhile, were scratched off again. In vain did I consult all the doctors in the country, but without avail. After giving up all hopes of recovery, I happened to see an advertisement in the newspaper about your CUTICURA REMEDIES, and purchased them from my druggist, and obtained almost immediate relief. I began to notice that the scales gradually dropped off and disappeared one by one, and have been fully cured. I had the disease thirteen months before I began taking the CUTICURA Remedies, for it was either five weeks or five months before I was cured. My disease was eczema and psoriasis. I recommended the CUTICURA REMEDIES to all in my vicinity, and I know of many great many who have taken them, and thank me for the knowledge of them, especially mothers who have babies with scaly eruptions on their heads and bodies. I cannot express in words the thanks to you for what the CUTICURA REMEDIES have done to me. My body was covered with scales, and I was an awful spectacle to behold. Now my skin is as nice and clear as a baby's."
