ASTORIA, OREGON: TUESDAY, JULY 23, 1888.

THE *Alta* correctly maintains that politics is...

It is announced that, after all, Bayard is not going to be married. The ex-secretary never was much at diplomacy.

Over at Seattle when the enterprising burglar's not a burgling he loves to lie a bawking in the sun, and the Seattle cops are running him in numerously.

COLORADO is going to establish a home for indigent printers. Good! Keep one ward for the indigent and oft indignant print who monkeys and makes sense with and of the idiotical copee.

SINCE October, 1888 there has been an increase of three feet in the depth of water on the bar. So says the official government chart, corrected to June 26th, 1889. The jetty is already doing its work.

THE "one hundred beautiful young ladies" who appear in the "Twelve Temptations," at Portland, receive salaries of \$5 each per week. And yet people prate about the immorality of the stage. Low wages are the parents of much immorality among all classes.

The Philadelphia *North American* advises all people to look before they drink. It is a very good suggestion. Had it been heeded, so many of Philadelphia's prominent citizens would not be going around now with eroded throats, the result of mistaking the ammonia bottle for their morning medicine.

The efficacy of whiskey for snake bites received its vindication the other day in Mohawk valley, Nevada. The child of senator Emmitt was bitten three times in the face by a snake, whereupon a timely ministrations of whiskey, which is always handy in Nevada, saved the child's life. What would have become of that infant in a prohibition state?

ASTORIA wants no silly "boom" such as has proved a boomerang to so many aspiring towns. She needs no such transitory device. But she does want the development of considerable energy. Faith without works is dead. Knowing we have superior location and the natural resources is secondary only to demonstrating the fact. A little energetic showing is in order.

DENOMINATIONAL journalism on the Pacific coast does not appear to be an unqualified success. The latest issue of the California *Christian Advocate* prints the plaintive plea:

Between May 1st and August is the time of great scarcity of money in this office. Our accounts for the *Advocate* are all out. We have used up all our reserves. Things look blue. We need money every day. Our workmen must be paid. We do not buy paper on credit. Our friends could greatly relieve the situation by paying up now every dollar they can.

A YEAR or so ago Kansas City Missouri, was the liveliest city in the United States. It had a great boom and thousands of people settled there. Real estate sold for gilt edged prices. Splendid business blocks sprung up as if by magic. People were wild then. To-day they are long faced and sad. The town is as "dead as a door nail." The boom has collapsed and all the rustling real estate agents have moved to other towns. While going about the city a visitor notices many low lots and many amusing signs nailed over them. One of them reads:

DROP A LOAD OF EARTH IN HERE AND SEE THE LOT FILL UP.

CHRIS. BUCKLEY, the Democratic boss of San Francisco, is in New York and is living in great style at one of the fashionable hotels at the expense of \$250 a day. Mr. Buckley was once a sort of general rouabout in a San Francisco saloon. What an inspiration is his career to the young men of the country! By getting a saloon of his own, by securing the control of the offices of a large city, by making every clerk in such offices divide his salary, by levying \$200 upon every teacher at the price of her employment in the public schools, by controlling a legislature and selling it out to men who want bills passed or defeated, almost any young man will rise to fame as Buckley has, can afford to make tours to Europe, live at the Hoffman House in New York at an expense of \$250 a day, and in many other ways get a great deal out of life.

Telephone Lodging House. Best Beds in town. Rooms per night 50 and 25 cts., per week \$1.50. New and clean. Private entrance.

Wenhard's Beer. And Free Lunch at the Telephone Saloon, 5 cents.

## Specials to The Astorian.

A Silly Quarrel About Some Grease, Leads to a Probable Fatal Assault.

PORTLAND, July 22.—Two Alaska Indians came down on the steamer *Idaho* and got on a big spree here yesterday.

At Albina, Gus Peterson, Charles Dams and William Morgan were arrested to-day by deputy United States marshals Myers and Roberts for selling the Indians liquor.

C. A. Gove administrator of the Jas. Stephens estate began suit for \$113,000 to-day against Henry Jones formerly Mr. Stephens confidential agent.

ALL ABOUT TWO BARRELS OF GREASE. Last Saturday Jno. Quinlan, cook on board the British ship *Scottish Glen* assaulted and almost fatally injured the master of the vessel, Capt. Wm. Whiteford. The details of the affair are as follows: When the vessel left Liverpool, Quinlan was engaged to come to this port as cook, he was as usual in shipping circles to have all the grease which was fried out of the meals for his own. When the vessel got to Portland he had saved up two barrels of material. Last Saturday he effected a sale of them to a local tradesman. When the dealer went down to the ship after his newly purchased goods he found one barrel out on the deck and the other was being rolled off the vessel. The captain came out of the cabin just at that juncture, and ordered the men to desist from rolling the kegs out. When Quinlan said he owned them and would roll them out if he d—d pleased. Captain Whiteford, who is a very old man, then approached Quinlan, who became so thoroughly enraged that he struck the master a terrible blow just below the heart felling him as he would a hatched ox. The captain lay in unconscious state for some time. Dr. C. W. Wheeler found him to be in a critical condition. Quinlan was at once arrested, but will have no examination till it is known whether or not captain Whiteford is dangerously hurt.

The injured man, besides being old has, for years suffered from heart disease, which fact it is said, his assailant well knew, and struck him there on account of that weakness. Quinlan did not take away the barrels of grease.

JUDGE COOLEY'S TRAVELS. WASHINGTON, July 22.—Judge Cooley, chairman of the interstate commission, is on his way to the Pacific coast on business connected with the commission. He has gone via the Northern Pacific railroad, and expects to reach Spokane Falls, W. T., on the 24th inst. and Portland, Or., one week later. Thence he will proceed southward as far as Los Angeles, Cal., and continue his investigations. He will be gone until the fall.

MONEY FOR THE CREEK INDIANS. WASHINGTON, July 22.—Treasurer Moore, speaker of the house McIntosh and chief Cashman of the Creek Indian nation have had a long conference with secretary Noble. Their mission is to secure \$400,000 from their fund in the treasury for per capita distribution among their 14,000 members. They claim they need it badly. This fund now amounts to over \$3,000,000, exclusive of what they will receive under the Oklahoma appropriation. Noble has taken the subject under consideration, and if the law permits him to order this payment he will probably do so.

COMPLAINT OF CANADIAN MILLERS. TORONTO, July 22.—Canada will not alter her hour duties till the next session of parliament early next year. Canadian millers complain of a discrimination in favor of the United States, whose millers export flour to Canada and against Canadian millers who import wheat from the states.

THE LATE PRIZE FIGHT. PURVIS, Miss., July 22.—Several aides and abettors of the late prize fight, including referee Fitzpatrick, Dan Remaid and Charles W. Rich, the owner of the fighting grounds, were arraigned and released on bail to appear at the next term of court. Charges will be preferred against sheriff Coward for accepting a bribe.

THE M'DERMOTT RESERVATION. WASHINGTON, July 22.—Secretary Proctor having recommended that the reservation at Fort McDermott, Nev., be restored to the public domain, being no longer required for military purposes, President Harrison has issued a proclamation carrying into effect secretary Proctor's recommendation.

THE ENCAMPMENT AT MILWAUKEE. KANSAS CITY, July 22.—Major Warner, commander-in-chief of the Grand Army of the Republic, has issued a general order in which he urges all Grand Army of the Republic posts in the country to send as large delegations as possible to the National Encampment at Milwaukee.

The Verdict Unanimous. W. D. Sult, Druggist, Bippus, Ind., testifies: "I can recommend Electric Bitters as the very best remedy. Every bottle sold has given relief in every case. One man took six bottles, and was cured of Rheumatism of 10 years' standing." Abraham Hare, druggist, Belleville, Ohio, affirms: "The best selling medicine I have ever handled in my 20 years' experience, is Electric Bitters." Thousands of others have added their testimony, so that the verdict is unanimous that Electric Bitters do cure diseases of the Liver, Kidneys or Blood. Only a half dollar a bottle at J. W. Conn's Drug Store.

Meals Cooked to Order. Private rooms for ladies and families at Central Restaurant, next to Foard & Stokes.

Ludlow's Ladies' \$3.00 Fine Shoes; also Flexible Hand turned French Kids, at P. J. GOODMAN'S.

Tender, Juicy Steak at Jeff's.

## Bearing the Alaska Pack.

Much interest is now centered in the Alaska pack, and both canners and buyers are waiting next advices from that district. A letter received by a prominent house in the salmon trade in this city came to hand yesterday, which is important as an indication of what is being done in Alaska. The letter bore date of June 24th, and came from Kayak Island, opposite the mouth of Copper river and near Prince William sound. It was carried to Juneau by a small schooner engaged in Indian trading near Copper river. At and near this point there are located four canneries, viz: Peninsular Packing and Trading company. Central Alaska Packing company. Pacific Packing company. Pacific Whaling and Fishing Company.

From the first two canneries mentioned shipments of salmon have been expected daily. The letter referred to says the vessel will not get away before July 25th, and possibly not then. In place of a 10,000 case pack for the Peninsula Packing Co., and of 7,500 for the Central Alaska Co., up to July 1st, there had been put up to June 24th 1,500 cases and 700 cases respectively. This is the most discouraging information that has come from the northern fisheries this season.—S. F. Grocer and Country Merchant, 19.

The Albany and Astoria Railroad. The surveyors of the Albany and Astoria railroad have now reached a point six miles north of this city. There are fourteen men in the party, under surveyor W. B. Barr. They have heretofore made this city their headquarters, but they have now supplied themselves with tents and equipment and will camp along the route. This company means business and will expend several thousand dollars in surveying the route this summer. "Albany to Astoria" is their motto, and when to the \$1,000,000 capital stock of the company is added the backing of which they have assurance, the project will prove to be no idle undertaking.—Herald.

AN UGLY DISCOVERY. A Report That Should Be Read. "A recent analysis in Philadelphia by a celebrated chemist of ten popular brands of sarsaparilla discloses the astonishing fact that these ten samples of blood purifiers (7 contained in the aggregate sixteen different minerals, eleven of which were active poisons. Iodide of potash was discovered in every sample, mercury was found in all but two, while arsenic existed in six of the ten brands. Not one brand was the pure article."

A reporter took the above clipping to E. W. Joy, the manufacturer of Joy's Vegetable Sarsaparilla. Mr. Joy exhibited no surprise. He said druggists knew it. He said he long ago saw the crying need for a safe and absolutely pure vegetable preparation of Sarsaparilla, hence his was named Joy's vegetable sarsaparilla, because it contained nothing but pure sarsaparilla, combined with the pure juices of California's vegetable alternatives. Unlike potash sarsaparilla, it does not force impurities through the skin but stimulates the various secretory organs, thereby correcting functional derangements and eliminating all impurities through the natural channels.—San Francisco Examiner.
