AN INFRACTION OF LAW.

GOV. PENNOYER is a zealous official. quick to resent any infraction of the law. THE ASTORIAN directs in this most public manner, the attention of his excellency to the Democratic Times, a newspaper published at Jacksonville, in this state. In the display advertisement half a column in length, of the Louisiana state lottery. Advertisements of this lottery are prohibited by law in this state. Such advertisement is an infraction of law.

Governor Pennoyer will receive this copy of THE ASTORIAN to-morrow afternoon. He will either do one of two things-verify or ignore this charge. Being so earnest an advocate of law it is intensely probable that he will verify it by inspection. Having done so, he will probably deem it his duty to begin the proper legal proceedings. The penalty is very plain. pool to Portland. In November of 1888 The proprietor of our esteemed contemporary is financially responsible.

PROF. THURSTON, of Cornell university, in an article in the North American Review, expresses the opinion that the steam engine is still capable of vast improvement; that the next generation will see the American continent spanned by flying trains in two days, and that ships of 20,000 tons will be propelled at the rate of 40 miles an hour.

The Congars Made Them Stop.

H. Devol and H. Jeldness went up to confine him. The attorney-general in the Cascade mountains a week ago says he would be liable to release on looking for timber land. Last Thursday night about half past eleven as they crossed a creek a mile and a half

hundred yards distance from the fire.

A SERIOUS BLUNDER.

A Lady Nearly Prostrated by a Pat-ent Medicine.

A lady well-known in the Western Additio has been a great sufferer for years with indigestion and dyspepsia. Struck with the testimonia' praising Joy's Vegetable Sarsaparilla, she sent for a bottle. The druggist, not having it, talked them into taking another sarsaparilla. As the leading sarsaparillas use mineral blood purifiers, the effect of the emptying of iodide of potash into a stomach already distressingly delicate was disastrous, almost prostrating her before the mistake was rectified. She then called upon Mrs. Fowler, of 327 Ellis street, whose name was among those cured by Joy's Vegetable Sarsaparilla. Mrs. Fowler said it was true that it had cured her. Again reassured, the vegetable com-pound was sent for and gotten. The gentle action of its vegetable stimulants upon the liver, kidneys and digestive organs, and its warm stomach tonics, were the very things needed, and she began improving and was her old self within a fortnight. This sounds like fiction, but the names can be given if necessary .- San Francisco Examiner

AN OFFICIAL DECISION. Washington, Aug. 20.—The attor ey-general has decided that captain Duvergier, who was convicted of kill-ing consul Stanwood at Audakabe some time ago, cannot legally be brought to this country to serve out his sentence of ten years. There are no means of confining Duvergier at Tamatave, and it was found necessary to take him away from Madagascar a writ of habeas corpus if brought here. During former administrations, prisoners sentenced by consular courts from their intended camping ground, they were startled by the yells of congars. There must have been a whole family of the brutes for the howls came from different directions at the same time.

Here the two were at midnight in the heart of the woods far away from any human habitation and without any more formidable weapon than an ax and a pocket knife each. They jumped from their horses, struck matches and made a fire in a few minutes. This stopped the noise and they were no more disturbed during they were no more disturbed during time, thus imposing the necessary the night. If suc-cessful, this victory for the cause of civflization, it is considered by the Cardinal and Pope Leo, would be the cardinal and Pope Leo, would be the greatest triumph ever achieved by the Catholic church, would endear it to the affections of many now alienated from its teaching and prestage, and would do much toward creating a general desire for the restoration of its temporal power.

Here is a description of a base ball game culled from the base ball colimns of the Chicago Herald:
