

The Daily Astorian. ASTORIA, OREGON: SATURDAY AUGUST 21, 1889.

ISSUED EVERY MORNING. (Monday excepted.) J. F. HALLORAN & COMPANY, Publishers and Proprietors.

Terms of Subscription. Served by Carrier, per week, 15 cts. Sent by Mail, per month, \$2.00. One year, \$20.00. Free of postage to subscribers.

The Astorian guarantees to its advertisers the largest circulation of any newspaper published on the Columbia river.

Two ships are reported outside, with pilots Doig and Wood aboard.

The Mid is told that fall fish is to be packed at Pillar Rock and Clifton.

Considerable spring pack Columbia river salmon is being shipped east, overland.

The British bark Tythons 22 days from San Pedro arrived last evening in ballast.

The four masted schooner Novelly arrived at Knappton yesterday to load lumber.

More visitors have been in Astoria this summer than at any time for the past six years.

The stockholders of the Clatsop county road and construction company, will meet on October 2nd.

The date of the next meeting of the Columbia Waterway association will be announced in a few days.

The steam schooner Augustus arrived down from Portland yesterday, and will sail for Tillamook to-day.

The young folks are busy getting books and school supplies for the beginning of school next Monday.

Sheriff H. A. Smith went to Westport yesterday and attached the logging camp of Grant and McFee at Blind slough.

Sun rises, 5:20; sets, 6:40; days length, 13 hr. 20 m.; the days now shrinking 3 minutes in length, each succeeding 24 hours.

Messrs. Frischkorn and Bichol are going to put up smoked salmon at Cathlamet. Several salmon of Portland is going to pack sturgeon there.

The weeping skies and sighing zephyrs are sending a good many up from the beach. Down there the swallows homeward fly and the roses cease to bloom.

Angus Gor has purchased Mr. J. Bergman's interest in the butchering and meat market business, and the firm after to-morrow will be Christiansen & Gor.

Hon. O. A. Bowen, of Skamokawa, W. T., was in the city yesterday. Mr. Bowen was one of the men who made the constitution of Washington and was prominent in that body.

Chief engineer Weeks has had a hydrant put in on Flavel's corner next to the First National bank, connected with the fire pump so that the boys can practice with the required pressure.

The Geo. H. Mendell arrived down yesterday with three barges loaded with rock for the jetty. The Cascades has been repaired, and will be down to-day with three barges loaded with rock.

A private dispatch to THE ASTORIAN from Yagima received yesterday afternoon says: "The schooner Roseana came ashore here last night, about two hundred yards from the wreck of the Yagima City. All hands walked ashore."

W. H. Parker, the railroad contractor, came down from Portland yesterday and goes to Skippon this morning. He has LeFevre's contract in addition to his own, and has about 37 1/2 miles of road now to clear, from the present starting point out Lewis and Clarke's.

Robert Ingalls, of Spokane Falls has been arrested at Chico, Cal., on a charge of stealing relief supplies. He had charge of the supplies and large quantities disappeared. Suspicion pointed to him, and a night was appointed for investigation, but before it came he had disappeared. It is claimed that he started a grocery store and restaurant with stolen supplies and also sold large quantities to merchants at Spokane.

At the Republican convention of Washington county held last Thursday, at Skamokawa, O. A. Bowen, H. M. Montgomery and J. G. Megler were elected delegates to the Republican convention, to be held at Walla Walla next Thursday. J. G. Megler was nominated for member of the legislature, and H. M. Montgomery for county clerk. Both gentlemen are well and favorably known, and deserving of the positions for which they have been named.

Stop for a moment you business man who never advertise in your local paper and ask yourself how long you would do business in the town if there was no paper published in it. Then acknowledge that you are indebted to your newspaper for every issue printed whether your ad. is in it or not. For if the editor is enterprising he keeps the business activity of the town constantly before the people, and in this way your business is advertised free, and there is a class of business men who are willing to enter into a good paying business by applying at this office from 10 to 2.

Melons of Every Variety. One thousand Melons will be sold to-day at very low prices, at Thompson & Ross.

Telephone-Lodging House. Best Beds in town. Rooms per night 50 and 25 cts., per week \$1.50. New and clean. Private entrance.

Ladlow's Ladies' \$300 Fine Shoes, also Flexible Hand turned French Kids, at P. J. GODMAN'S.

Try My French Nougat. N. J. BERGMAN, Mikado.

Good Business Chance. A good man with some capital to invest can hear of a good chance to enter into a good paying business by applying at this office from 10 to 2.

Tender, July Steak at Jeff's.

OF GREAT IMPORTANCE. The Channel In Front of The City.

Endangered by Fish Traps In The Stream.

In the early summer, the attention of Senator John H. Mitchell was directed to the increasing number of fish traps in the river, and, incidentally, the large number of traps in Baker's Bay.

Upon receipt of sundry letters, Senator Mitchell, who was in Washington, D. C., promptly brought the matter to the attention of the War Department, and Major W. A. Jones, corps of U. S. engineers, was instructed to make personal inquiry and examination and submit report.

This he did. Upon the eve of Senator Mitchell's departure from Portland for here last Thursday night, he received the following, which is self-explanatory.

FROM THE ACTING SEC'Y OF WAR. WAR DEPARTMENT, WASHINGTON CITY, August 23rd, 1889.

Sir:—Referring to your letters of May 7th and June 21st last, inclosing communications from Alex. Sutton, secretary Columbia River Fishermen's Protective Union, and J. H. D. Gray, both of Astoria, Oregon, regarding the obstructions in Columbia river and Baker's bay by the promiscuous placing of fishtraps or pound nets, I have the honor to state that the matter was referred to Major W. A. Jones, corps of engineers, the officer in charge of the improvement of the lower Columbia river, and to enclose a copy of his report on the subject for your information.

Very respectfully, R. MACFEELEY, Acting Secretary of War.

Hon. John H. Mitchell, United States Senator, Portland, Oregon.

The enclosure referred to, embodies the report of Major W. A. Jones. That gentleman, it will be remembered, was here this summer and made a careful and exhaustive study of the entire subject.

In a previous report based upon a previous visit he had expressed an opinion relative to the traps in Baker's bay, and to which he refers in the report published below.

Through the courtesy of Senator Mitchell THE ASTORIAN is enabled to publish Major Jones' report on this matter. It is enclosed to that gentleman in the letter published above, received by him last Thursday, and is as follows:

MAJOR JONES' REPORT. U. S. ENGINEER OFFICE, PORTLAND, Oregon, August 10, 1889.

Respectfully returned to the chief of engineers: I have already reported on this matter (See report dated December 21, 1887.)

In again presenting it reference is made to this report and also to the U. S. C. and G. S. map herewith, which shows the entrance to the Columbia river, Baker's bay, and the estuary of the river, which is the principal field of the fishing operations referred to within.

Since this report was made many more traps have been placed, notably those whose location is shown on this chart. They are so placed as to rest on the shallow water on the face of the shore or shoal and extend out substantially at right angles into depths varying from 12 to 18 feet at low tide. The rise and fall of the tide is fully shown on the chart.

These traps act as permeable dikes, and cause considerable deposition in their vicinity. They thus tend to cause increased scour in the channel in front of them. In Baker's bay, however, they have been so promiscuously placed as to prevent the formation of a definite channel, and hence there has been extensive shoaling over the whole area of the bay.

Further more, as a direct consequence of the reduction in the volume of water passing through this bay, Sand Island has been extensively built up on the northward and its limits in this direction are now substantially as indicated in red on the chart.

Another effect that may result from building up the face of shores and shoals, and the consequent restriction of the adjacent channels is the diversion of said channels to other localities.

I consider the channel which passes in front of Astoria, and forms the harbor of that city to be in considerable danger from this cause. The water now flows past Astoria in three main channels, the north, the middle and the south. The latter being the Astoria channel. There is a possibility that if this should become restricted, one or both of the others would become enlarged from additional scour, the condition being the result in a considerable reduction in the depth of the Astoria channel at its present shallowest portion, opposite upper Astoria.

I have formerly expressed the opinion that the shoaling of Baker's bay will have a beneficial effect upon the ship channel across the bar at the mouth of the river, now undergoing improvement. From the foregoing I reach the conclusion that no traps should be allowed upon the shoals or islands outside of Baker's bay. That all such be declared obstructions to navigation, and that the proper legal steps be taken to protect the navigation interests of the United States in the matter.

Acknowledgment is here made of the reference to me of a letter of June 21st, 1889, from Senator J. H. Mitchell, with inclosed letters from state senator, J. H. D. Gray, upon this same subject. These letters are herewith as an inclosure. I should like to state before that the trap on the south face of Sand Island, referred to in Mr. Sutton's letter, is not there now.

W. A. JONES, Major of Engineers.

In a conversation with the editor of this paper yesterday afternoon, Senator Mitchell expressed his realization of the importance of this question to Astoria.

Elsewhere will be found some editorial remarks upon the subject.

TO DISPEL COLDS. Headaches and Fevers, to cleanse the system effectually, yet gently, when costive or bilious, or when the blood is impure or sluggish, to permanently cure habitual constipation, to awaken the kidneys and liver to a healthy activity, without irritating or weakening them, use Syrup of Figs.

Moving! The Red Store must vacate the premises on the first of next month, and as it is cheaper to sacrifice than to move Goods, we will sell everything on hand, including fixtures, at your own price. Remember the place! The Red Store.

Notice. The Main Street House affords good accommodations at \$1 per day. Regular boarders, Single Rooms, \$5.50 per week. Two persons occupying one room, \$5 per week. Day board, per week, \$4.

C. R. F. P. U. A meeting of the members of the Columbia River Fishermen's Protective Union will be held at their reading room on Tuesday September 3rd, 1889, at 7:30 P. M.

KNUX LARSEN, President. GEO. JOHNSON, Secretary.

SENATOR MITCHELL'S VISIT.

Down At The End of The Land.

A Hasty But Pleasant Inspection.

Senator John H. Mitchell, Oregon's trusty representative, arrived from Portland yesterday morning, and was met and warmly greeted. There is probably no section of the state where Senator Mitchell would find more firm friends and adherents, than Astoria.

Like all of our visitors he wanted to go down to the jetty, and see what progress was being made in the great work at the mouth of the river. To him the visit was not one of curiosity but of the greatest interest. He and his colleague Hon. J. N. Dolph have worked hard in the senate as has representative Hermann in the house to secure adequate appropriation for this great work, so important to the people of Oregon and Washington, and whenever they come here they want to see how the money is being expended and what progress is being made, that they may make faithful personal report to their brother congressmen at the national capital.

It was the original intention to have the senator take the government steamer Geo. H. Mendell, which had previously been placed at his disposal by Major J. H. Handberg, but an accident to the Cascades requiring that the Mendell should take the former's place somewhat disarranged the programme.

However the difficulty was quickly overcome by the courtesy of M. E. Caldwell, who promptly placed his pretty little steamer, the Wenona, at the disposal of senator Mitchell and party, numbering about a dozen gentlemen who left the city at 8:30.

The mist was trailing their gray garments through the woods and over the waters and the smooth surface of the floating clouds as the boat steamed down to Ft. Stevens' wharf.

"What are these numerous poles sticking up here and there?" asked Senator Mitchell of an Astorian representative. "Fish traps," was the answer. "And that row over there?" "Fish traps," "And that other cluster here, this way?" "Fish traps." "Is it possible?" said the senator.

Arriving at the wharf a busy scene presented itself. Engines snorting, trains rumbling, derricks creaking, and huge stones swinging from the barges to the track.

Sup't. Hegardt, and his able assistant J. W. Stoneman, soon had the party hoisted on terra planks, and from there to the train, and then came the unique experience of a ride out on the foaming billows, over the great gray heaving sea, the roar of the train, the click of the rails and the rattle of the wheels, being drowned in the great sympathy of old ocean, the tramping of the surf, and the hammer of the numerous waves.

Here and there a halt was made to enable Senator Mitchell to note the modus operandi; the laying of the mattresses, the dumping of the rock, the structure of the fascines; then on to the front, where a braver party was having a picnic with the ocean waves and sending down into the sand beneath the rushing water, great masts by means of the hydraulic derrick.

Then back, on board the Wenona, across the bay and up to the Occident, where the senator and a party of six invited guests sat down to an elaborate dinner.

"I am perfectly satisfied with the progress of the work," said Senator Mitchell: "the last time I was here it wasn't very enlightening, but now, everything is going on so well, and there is such manifest progress that one feels encouraged in making a renewed effort for further appropriations. I am glad that senators Allison, Pugh, and Hoar were here and visited that great work and that members of the lower house have also seen it. It is so much easier to explain a thing to a man if he has once seen it. Demands are so vast and the work is so extensive so much to do and so little time to do it in; the business at Washington is so enormous and diversified, that it is hard to do justice to all the questions and matters that come up for recognition."

"With this matter of river and harbor improvements, so much indifference exists caused by ignorance of the necessity of the work and the magnitude of the interests involved, that I am doubly glad that some of my eastern and southern colleagues have been with us here, to speak of what they know, and testify to that which they have seen."

"I would be pleased to have the river and harbor bill reported on by the committee, discussed by both houses and settled earlier in the session, and hope that there may be an improvement in this regard next year, but the volume of public business is yearly so great that it seems impossible."

After dinner the senator was driven around Smith's Point and shown the site for the railroad bridge across Young's bay. He was very much interested in Astoria's railroad, and her flattering future, and when told that at no distant day he could get his ticket at Washington, D. C., clear through to Astoria, he fervently hoped that such might be an accomplished fact.

He was driven back to the city at 5:30, and till the Telephone left at 8 o'clock, was busy shaking hands with hundreds who called to pay their respects to a man who has always worked hard in his high place in the United States senate, for the best interests of the intelligent constituency he so faithfully represents.

He left up river at 10 o'clock and goes to the Sound to visit a married daughter who resides at Tacoma, and thence to Seattle where his son is a rising young lawyer; from thence he goes to Canton, Ohio, where another married daughter, Mrs. Judge Foster, resides. From there Senator Mitchell goes to the old home,stead in Pennsylvania to visit his aged mother and thence to Washington, to be in his seat in the senate of the United States, when it meets in special session, which he thinks will be about the first week in November.

What Alert H. & L. Has To Be At. At a trial running race last evening, the recently organized hook and ladder teaming team ran 100 yards, with the hook and ladder truck, and raised a ladder and had a man suspended from the top round in twenty-two seconds. The best time recorded in the northwest on this feat is twenty-one seconds.—Tacoma Ledger, 29.

A Safe Investment. Is one which is guaranteed to bring you satisfactory results, or in case of failure a return of purchase price. On this safe plan you can buy from our advertised Druggist a bottle of Dr. King's New Discovery for Consumption. It is guaranteed to bring relief in every case when used for any affection of Throat, Lungs or Chest such as Consumption, Inflammation of Lungs, Bronchitis, Asthma, Whooping Cough, Croup, etc., etc. It is pleasant and agreeable to taste, perfectly safe, and can always be depended upon.

Trial bottles free at J. W. Conn's Drug Store.

Coffee and cake, ten cents, at the Central Restaurant.

Go to Jeff's for Oysters.

PERSONAL MENTION.

W. B. Chase, of Corvallis, returned home on the Telephone last evening.

F. D. Winton and Miss Birdie Winton went to Portland on the Telephone last evening.

Mrs. Capt. West Whitcomb left on the Telephone last evening to reside in Portland.

Messrs. E. A. Noyes and H. J. Wherity returned from sporting elk in the region of Saddle mountain yesterday.

A GREAT SURPRISE.

For some time there has been a rumor afloat that an artistically illustrated weekly journal is to be published on the Pacific coast, and now to our great surprise, it takes definite form in an announcement by the publisher of the West Shore that he will issue the first number of such a journal on the 14th of September.

Fifteen years ago Mr. Samuel began the publication in Portland of a feeble monthly paper which has steadily grown until it has reached the proportions of the handsome West Shore Magazine as we know it to-day, and now he takes a bold step forward and establishes a weekly journal which will be maintained at the highest standard of illustrated weeklies in the country. It will require the expenditure of much money and labor to render the venture successful, but the West Shore, with its splendid equipment, long experience and established position, will be able to succeed where most others would fail. Special attention will be given to graphic illustrations of events happening on the Pacific coast, and the topics of special interest to our people. Its numerous and excellent illustrations will be the chief feature, and these will increase in number as the journal becomes settled in its groove. Such an undertaking certainly recommends itself very highly to every citizen, and its success will be a direct benefit to every section of the west. The price will be 10 cents a copy, or \$4.00 a year.

Look Out For The Scoundrel. Last Thursday afternoon a rough looking man about six feet tall rang the door bell at the boarding house of Mrs. S. Duggan at the corner of West 9th and Cushing Court streets. The wife of H. K. Wilkins, a carpenter, answered the ring, when he asked the lady if she wanted her fortune told, she answered "No," when the man said: "Hold out your hand," which the lady did. He then requested her to tie a piece of red thread around his finger which she did, after making some cabalistic signs he pulled a revolver from his pocket and told the lady to give him her money. She replied, "I have only twenty-five cents." He said, "That won't do all you have, or I am likely to hurt you." This so frightened the lady that she gave the would-be fortune teller a \$20 gold piece, all the money she had, when he immediately left the house. There was nobody in the house at the time. Mrs. Wilkins was so scared that she didn't inform her husband of the occurrence until noon yesterday, when he at once informed the officers of the robbery. It is said that this creature has been in the habit of going from house to house, asking the inmates if they didn't want their fortunes told. If Chief Barry gets his vitus clampus on him it won't be hard to tell his fortune.

Warm weather often causes extreme tired feeling and debility, and in the weakened condition of the system, diseases arising from impure blood are liable to appear. To gain strength, to overcome disease, and to purify, vitalize, and enrich the blood, take Hood's Sarsaparilla.

Call at the Mikado for fine Caramels. Will Close At 8 P. M.

On and after September 1st, 1889, the undersigned agree to close their places of business at 8 P. M., until further notice—Saturday evenings excepted.

C. H. Cooper, S. Schiassell, I. Cohn, C. H. Wagner, J. Thlenhart & Schoene, Parker & Hansen, J. Olier, Carnahan & Co., S. Danziger, J. P. Hynes, Ford & Stokes, Gillett & Bailey, P. A. Stokes, D. G. Jones, Thompson & Ross, Wilson & Fisher, C. H. Hays, E. R. Haves, Jno. Hall, Thrall & Sherman, M. W. Barry, A. V. Allen, Mrs. Rappleyea & Co., Mrs. H. A. Dorley, Mrs. M. Anstinson.

BEST IN THE WORLD.

Further Great Cures of Skin Diseases by the Cuticura Remedies.

Buy one year and a half off. Face and body in a terrible condition, being covered with sores. Sulphur springs did not cure. I have been completely cured with sores. I took him to the Massena Sulphur Springs, but he did not improve any. I was then advised to try the Cuticura Remedies, which I did. He took one and a half bottles of the CUTICURA RESOLVENT, when his skin was as smooth as could be, and is to-day. I used the CUTICURA on his sores and the CUTICURA SOAP in washing him. He is now five years of age, and all right. The other case was a dissonant and burning which was cured by washing with the CUTICURA SOAP and rubbing in the CUTICURA. RESOLVENT, when his skin was as smooth as could be, and is to-day. I used the CUTICURA on his sores and the CUTICURA SOAP in washing him. He is now five years of age, and all right. The other case was a dissonant and burning which was cured by washing with the CUTICURA SOAP and rubbing in the CUTICURA. RESOLVENT, when his skin was as smooth as could be, and is to-day.
