

The Daily Astorian.

ASTORIA, OREGON: SUNDAY, SEPTEMBER 1, 1889.

THE machinery and materials for government work at Yaquina bay, were shipped over the Canadian Pacific.

PRESIDENT HARRISON says he has not yet decided upon calling an extra session of congress.

THE tin mines of the Black Hills, Dak., are beginning to attract general attention. It has long been doubted if we had any good tin ore in this country, but these new mines are likely to rival those of Cornwall and Bolivia and Peru.

EXTRACTS published from time to time in THE ASTORIAN, show that our valley neighbors are fully awake to the necessity of securing connection with the railroad now building from Astoria. We can assure our neighbors that we mean business this time; that road is going to be built, and it is of more importance to the Willamette valley and western Oregon than anything else now before the public. It means a new era for this state, and will add value to every quarter section from the Snake river to the sea.

It is a fact worth thinking about in all its bearings that over 22,000,000 acres of United States soil are owned by citizens of European countries. This vast acreage owned by aliens is equal to nine states of the size of Massachusetts. The alien English landlords in Ireland, who are properly charged with responsibility for nine-tenths of the miseries and oppressions endured by the Irish people, do not own half as many acres there as alien Europeans own in this country. It is time congress did something decisive in the way of legislating the large alien land syndicate off American soil.

The subjects considered at the conference at San Francisco, which closed yesterday, and which was attended by an Astoria delegation composed of five members, were:

The permanent establishment of ocean mail steamship lines on Pacific ocean routes, and the liberal compensation of ocean mails on said lines, by steamships available for war and transport purposes.

The application of the interstate commerce law to the American carrying trade of the Canadian Pacific railway, or the abolition of the bonding system for railway carriage through foreign territory.

The maritime defense of Pacific coast ports.

An ocean telegraph cable to Australia via Pacific islands.

The energetic construction of the Nicaragua canal as a means of national defense and commercial development.

The encouragement of maritime commerce and increased energy in the construction of a navy.

A Railroad Meeting.

All citizens of Hillsboro and vicinity who are interested in securing the terminus of the Astoria railroad at or near Hillsboro, are hereby requested to meet at the court house in Hillsboro on Monday evening next, at 7:30 p. m. Representatives of the railroad company have been invited to be present. The railroad is going to be built. We want the terminus and must have it. To receive this we must be up and doing, and must make a strong pull, and a pull all together.

S. T. LINKLATER, President Board of Trustees. Clipped From Last Thursday's Hillsboro Independent.

AN UGLY DISCOVERY. A Report That Should Be Read.

A recent analysis in Philadelphia by a celebrated chemist of ten popular brands of a sarsaparilla discloses the astonishing fact that these ten samples of blood purifiers (7) contained in the aggregate sixteen different minerals, eleven of which were active poisons. Iodide of potash was discovered in every sample, mercury was found in all but two, while arsenic existed in six of the ten brands. Not one brand was the pure article.

A reporter took the above clipping to E. W. Joy, the manufacturer of Joy's Vegetable Sarsaparilla. Mr. Joy exhibited no surprise. He said druggists knew it. He said he long ago saw the crying need for a safe and absolutely pure vegetable preparation of Sarsaparilla, hence his was named Joy's vegetable sarsaparilla, because it contained nothing but pure sarsaparilla, combined with the pure jaliscof California's vegetable alternatives. Unlike potash sarsaparilla, it does not force impurities through the skin but stimulates the various secretory organs, thereby correcting functional derangements and eliminating all impurities through the natural channels.

San Francisco Examiner.

Some Fortunate Speculations.

The Reith Bros. have been exceedingly fortunate in their speculations in Tacoma dirt. They have more than doubled their money on nearly every transaction, and Thursday, it is said, Eugene made a deal which has eclipsed them all. He bought a piece of property for \$8,000, and before the day closed was asked by a would be purchaser to set his own price on the dirt. "I have no price," answered Eugene. "I will give you \$24,000 for the bargain," said the man, but Mr. Reith kept the property in spite of this tempting offer. East Oregonian.

All the patent medicines advertised in this paper, together with the choicest perfumery, and toilet articles, etc., can be bought at the lowest prices, at J. W. Conn's drug store, opposite Occident hotel, Astoria.

Specials to The Astorian.

PORTLAND, Aug. 31.—Lee Lung, the Chinaman whose wife eloped with another man taking \$1,000 in coin, had the case against her dismissed, saying he loved her so well he would cause her no trouble.

Four prisoners, Arthur O'Neill, Sam Sheldon, J. Wilson, and Thomas Barry broke from the county jail this morning and escaped. At 5 o'clock this morning ex-policeman Maher who has been at work in the court house assisting in making repairs there went into Judge Catlin's office where he found a square hole 11 by 12 inches cut through the floor in an ante room as clean as if the work had been done with a fine saw. He came to the conclusion that there had been a jail break and aroused jailer Hoxie. No blame can be attached to the custodian of the prison. Fault lies with those whose duty it is to provide a safe place of detention for criminals.

J. F. Warren, chief of police of Spokane Falls arrived here this morning from California, having in custody Robert Inglis of that city. Inglis was employed as assistant to Harry Hayward who had charge of the distribution of relief funds sent there. The embezzled amount is estimated at from \$300 to \$500. He was arrested at Chico, last Tuesday and is now confined in the city jail here. He will be taken home to-morrow morning. Chief Warren when he arrives at Spokane Falls will have travelled somewhat over 2,000 miles. As he has not been very hard at work of late he is greatly enjoying his trip. He reports business at Spokane livelier than it has ever been before. A great number of working men are daily coming in, all of whom immediately secure employment.

COLLECTION OF DUTIES. WASHINGTON, Aug. 31.—The secretary of the treasury has issued an order to collectors of customs referring to erroneous classifications made by them in the interest of seizures made under a department circular of January 29, 1887. It appears that many articles are imported through the mails, the classification of which is not well defined, and collectors have released them upon the payment of a fine equal in amount to the duty. This is considered by them as proper, without due regard to classification. Collectors are enjoined to study carefully the classifications, so as not to release goods for less than is due for them under the tariff schedule.

THE VERDICT UNANIMOUS.

W. D. Sult, Druggist, Bippus, Ind., testifies: "I can recommend Electric Bitters as the very best remedy. Every bottle sold has given relief in every case. One man took six bottles, and was cured of Rheumatism of 10 years' standing." Abraham Hare, druggist, Belleville, Ohio, affirms: "The best selling medicine I have ever handled in my 20 years' experience, is Electric Bitters." Thousands of others have added their testimony, so that the verdict is unanimous that Electric Bitters do cure diseases of the Liver, Kidneys, or Blood. Only a half dollar a bottle at J. W. Dyspepsia

Makes many people miserable, and often leads to self-destruction. Distress after eating, sour stomach, sick headache, heartburn, loss of appetite, a faint, "all gone" feeling, bad taste, coated tongue, and irregularity of the bowels, are the more common symptoms. Dyspepsia does not get well of itself. It requires careful, persistent attention, and a remedy like Hood's Sarsaparilla, which acts gently yet efficiently.

It tones the stomach and other organs, regulates the digestion, creates a good appetite, and, by thus overcoming the local symptoms, cures the headache, and refreshes the tired mind. "I have been troubled with dyspepsia. I had but little appetite, and what I did eat distressed me, or did me little good. After eating I would experience a faintness, or tired, all-gone feeling, as though I had not eaten anything. My trouble, I think, was aggravated by my business, painting, and from being more or less shut up in a room with fresh paint. Last spring I took Hood's Sarsaparilla, and it did me an immense amount of good. It gave me an appetite, and my food relished and satisfied the craving I had previously experienced." GEORGE A. PARKER, Watertown, Mass.

N. B. If you decide to take Hood's Sarsaparilla do not be induced to buy any other.
