

Constipation

Demands prompt treatment. The results of neglect may be serious. Avoid all harsh and drastic purgatives, the tendency of which is to weaken the bowels. The best remedy is **Ayer's Pills**. Being purely vegetable, their action is prompt and their effect always beneficial. They are an admirable Liver and After-dinner pill, and everywhere endorsed by the profession.

"Ayer's Pills are highly and universally spoken of by the people about here. I make daily use of them in my practice." — Dr. I. E. Fowler, Bridgeport, Conn.

"I can recommend Ayer's Pills above all others, having long proved their value as a cathartic for myself and family." — J. T. Hess, Leithsville, Pa.

"For several years Ayer's Pills have been used in my family. We find them an effective remedy for constipation and indigestion, and are never without them in the house." — Moses Green, Lowell, Mass.

"I have used Ayer's Pills for liver troubles and indigestion, during many years, and have always found them prompt and efficient in their action." — L. N. Smith, Utica, N. Y.

"I suffered from constipation which assumed such an obstinate form that I feared it would cause a stoppage of the bowels. Two boxes of Ayer's Pills effected a complete cure." — D. Burke, Saco, Me.

"I have used Ayer's Pills for the past thirty years and consider them an invaluable family medicine. I know of no better remedy for liver troubles, and have always found them a prompt cure for dyspepsia." — James Quinn, 30 Middle St., Hartford, Conn.

"Having been troubled with constiveness, which seems inevitable with persons of sedentary habits, I have tried Ayer's Pills, hoping for relief. I am glad to say that they have served me better than any other medicine. I now arrive at this conclusion only after a faithful trial of their merits." — Samuel T. Jones, Oak St., Boston, Mass.

ASTORIA RAILWAY SURVEYS.

Permanent Location Made—The Line Passes Through Some Very Rich Country.

The two corps of engineers in charge of assistant E. E. Cooper and K. A. Habersham have completed the permanent location of the Astoria and South Coast railway from Astoria across the coast range to Nehalem valley, at Jewell, via the seaside for forty miles, on which division eighteen miles have been constructed, waiting the rails to arrive at Portland on Saturday, and there are now working 257 white laborers on the grading to the Willamette valley. F. E. Habersham, the chief engineer, completed his preliminary survey from Jewell to Vernonia parallel with the meanderings of the Nehalem river for thirty-two miles, but as this latter line is too long and is subject to winter freshets, which rise thirty-six to forty-two feet above the Nehalem river, they will carry down the track, Mr. William Reid, the president, prefers a higher grade and a shorter line, and consequently ordered a new survey across the country from Jewell, via Deep creek, and another from Jewell via Buston's creek to Vernonia.

To accomplish this object, Mr. Reid left last Friday overland, via Cornelius, with chief engineer Habersham and assistant engineer Cooper and guides. Mr. Reid returned yesterday and was interviewed by an Oregonian reporter. He reports that a favorable route was obtained, shortening the line from Astoria to Forest Grove eight miles and opening up an entirely new country, heavily timbered with cedar, fir and maple. He traveled on foot for twenty-three miles continuously through what he claims is the thickest and richest timbered region in the world; where forest fires have never entered, the soil, even to the mountain tops, being free of rock and splendid for dairy and grass land when the timber is removed. He claims that when the Astoria and South Coast road is opened to a connection with the Oregon & California road, the latter will carry to Portland and to the various towns in the Willamette valley on the standard and narrow gauge lines the whole timber—cedar, fir and maple—required for western Oregon, at cheaper prices than it is possible elsewhere, while one-half of the lumber to be manufactured on those timber regions will be exported to Astoria, shipped in seagoing vessels to China, South America and Australia.

The highest elevation of the Astoria and South Coast railway in the Nehalem valley will be 900 feet, while the summit between it and the Willamette valley is crossed by a new divide at an elevation of only 1,225 feet, without a tunnel. The grade will be 1 per cent. in favor of the traffic to Astoria and only 2 per cent. on the divide to the sea. The main line will strike the seaside at a point 100 miles from Portland, thence fourteen and one-half miles more, including seaside extension, carries the road to Astoria itself across Young's bay. The new survey runs through seven miles of coal and ironstone lands and through a limestone bed and good freestone. The ironstone assayed 57 per cent. of iron.—Oregonian, 7.

Slumberless.
Narcotics and sedatives murder sleep; the unnatural stupor is soon followed by ill effects. Simmons Liver Regulator removes the cause of restlessness and sleeplessness by regulating the bowels, by establishing good digestion and by quieting the nerves.

"I have been a great sufferer from dyspepsia and loss of sleep. As soon as I feel the least nervous I take a dose of Simmons Liver Regulator, and sleep all night."
Mrs. K. BRYANT,
Griswoldville, Ga.

The Kansas sugar-raisers are quite sanguine that in a few years all the sugar needed in the west will be produced in that state.

Jumping At Conclusions.

The London Observer says, with an air of superior wisdom, that Russia could not sell to the United States anything that did not belong to Russia. The application of this principle to present affairs means that if Russia did not exercise jurisdiction over Behring sea at the time of the sale of Alaska to the United States she could not sell such right of jurisdiction to the United States. But the fact is that during the several hundred years in which Russia had claimed jurisdiction over Behring sea, no nation had undertaken to dispossess her. At this day she exercises over the western half of the sea the right she sold over the eastern half. The Observer refers to a protest against Russia's claim to Behring sea issued under President Pierce's administration. It is admitted that there have been arguments against the Russian claim, but they have amounted to nothing. The claim was not abandoned, and not many years after Pierce denounced it the United States government bought it.
