

The Daily Astorian.

ASTORIA, OREGON:

THURSDAY, OCTOBER 17, 1889.

Of the 121,499 Indians credited to the Dominion of Canada by the latest census returns, 38,222—nearly 32 per cent.—belonged to British Columbia.

MINNEAPOLIS claims a population of 235,000, the estimate being based on the directory published in July of this year. St. Paul's latest count is 193,000.

It is stated that the Northern Pacific was recently offered \$1,500,000 for its express business, and that the offer was subsequently increased to \$2,000,000, but the company declined to sell.

JACKSON county's assessment for 1889 is \$2,274,909. This is what makes an honest assessor tired. On the same basis Clatsop county's assessment would be \$1,000,000, instead of \$6,000,000.

NORTH DAKOTA has for a seal the device of an Indian chasing a buffalo. As an example of ancient times this may do, but as an indication of the present or the future it is an impossibility as far as the buffalo is concerned.

"POLITICIANS' ink" has been invented by an ingenious Parisian. This ink is warranted to fade and entirely disappear from the paper within a week, so that no compromising correspondence may be preserved to injure or hamper the writer and receiver.

Warm weather often causes extreme tired feeling and debility, and in the weakened condition of the system, diseases arising from impure blood are liable to appear. To gain strength, to overcome disease, and to purify, vitalize, and enrich the blood, take Hood's Sarsaparilla.

Ohio valley glass packers get \$1.50 per day, and Pittsburgh hands \$2.

A SERIOUS BLUNDER.

A lady nearly prostrated by a Patent Medicine.

A lady well-known in the Western Addition has been a great sufferer for years with indigestion and dyspepsia. Struck with the fatalism of the "Joy's Vegetable Sarsaparilla," she sent for a bottle. The druggist, not having it, talked her into taking another sarsaparilla. As the leading sarsaparilla uses mineral blood purifiers, the effect of the emptying of the bowels into a stomach already distressingly delicate was disastrous, almost prostrating her before the mistake was rectified. She then called upon Mrs. Fowler, of 27 Ellis street, whose name was among those cured by Joy's Vegetable Sarsaparilla. Mrs. Fowler said it was true that it had cured her. Again reassured, the vegetable compound was sent for and gotten. The gentle action of its vegetable stimulants upon the liver, kidneys and digestive organs, and its warm stomach tonic, were the very things needed, and she began improving and was her old self within a fortnight. This sounds like fiction, but the names can be given if necessary.—San Francisco Examiner.

Cadets at West Point receive \$540 a year.

The Verdict Unanimous.

W. D. Salt, Druggist, Bippus, Ind., testifies: "I can recommend Electric Bitters as the very best remedy. Every bottle sold has given relief in every case. One man took six bottles, and was cured of rheumatism of 10 years' standing." Abraham Hart, druggist, Belleville, Ohio, affirms: "The best-selling medicine I have ever handled in my 20 years' experience, is Electric Bitters." Thousands of others have added their testimony, so that the verdict is unanimous that Electric Bitters do cure diseases of the Liver, Kidneys or Blood. Only a half dollar a bottle at J. W. Conn's Drug Store.

Telephone Lodging House. Best Beds in town. Rooms per night 50 and 25 cts. per week \$1.50. New and clean. Private entrance.

Try the Chase & Sanborn Seal Brand coffee—best in the market—at Thompson & Ross.

Ludlow's Ladies' \$3.00 Fine Shoes; also Flexible Hand Turned French Kids, at P. J. GOODMAN'S.

Coffee and cake, ten cents, at the Central Restaurant.

Go to Jeff's for Oysters.

All the patent medicines advertised in this paper, together with the choicest perfumery, and toilet articles, etc., can be bought at the lowest prices, at J. W. Conn's drug store, opposite Occident hotel, Astoria.

To the Members of Seaside Lodge No. 12 A. O. U. W.

The North Pacific Exposition Association has generously set apart and designated Wednesday, October 23rd to be known as A. O. U. W. day, when workmen and their families will be admitted to the Exposition buildings at special rates.

Members of Seaside Lodge No. 12, desiring to avail themselves of the opportunities offered, will gain all information desired by attending Lodge meetings between now and the date above mentioned.

Children Cry for Pitcher's Castoria

CATARRH.

Symptoms, Effects, Treatment And Cure, by Drs. Darrin, The Electric Physicians.

Among the chief chronic diseases, which affect the human frame, catarrh is the most prevalent, most offensive, most productive of discomfort, and a variety of distressing and dangerous complications. Its earliest and most prominent symptom is a discharge from the head, varying in its nature in different cases, and even in the same individual at different times. It may be a thin, colorless, acrid fluid, or a glairy, starch like substance. Generally, however, it is thick, purulent or mucopurulent matter, either ash-colored, greenish-yellow, or of a deep green tint, occasionally streaked or flecked with blood. So copious and offensive is the discharge in many cases that patients express the belief that their heads are one "mass of corruption."

"HAWKING."

Much of the discharge passes backward, either dropping in the throat or collecting as a tough, viscid, tenacious phlegm, behind and above the soft palate to the passage between the throat and head. Its lodgment embarrasses respiration and creates a constant and irresistible desire to relieve the discomfort by drawing the offensive substance into the throat by a loud insuflation through the nose, so as then to be able to eject it by a disagreeable "hawking."

OFFENSIVE BREATH.

In the more advanced stages the discharges are generally of an offensive odor, causing great annoyance not only to the patient himself, but to his friends and the public in general. This annoyance from the odor becomes almost beyond endurance, especially when the disease assumes the form of ozena, and the delicate bones of the nose becomes diseased.

DEFORMITY OF THE NOSE.

In cases where the bones of the nose become diseased, not only is the offensiveness of the breath greatly increased, but there is a liability to serious personal deformities, among which are flattening of the nose.

BAD EFFECTS OF CATARRH.

The swallowing of catarrhal secretions deranges the functions of the stomach, causing indigestion and loss of appetite and health. Debility, paleness, lassitude, headache and disturbance of mind soon follow. In some instances the mental affection is one of irritability, the patient being unduly annoyed by all the little perplexities of life. In others the prominent feeling is that of melancholy or depression of spirits, when the invalid can see no hope in the future for himself or his affairs. Catarrhal deafness is almost sure to follow in a majority of cases.

CONSUMPTION AND DEATH.

Catarrhal affections, unchecked by treatment, are prone to extend by continuity of surface along the natural air passages to the substance of the lungs, thus causing consumption and death. In this connection it should also be remembered that the air which enters the lungs of a catarrhal patient is, every breath of it, poisoned by exhalations from the foul secretions, of the diseased surface. By such air the blood cannot be properly purified, and made fit to impart healthy vigor in its unending circuit to all and every part of the animal mechanism. One would suppose that this consideration alone would be sufficient to induce every person thus afflicted, to make early application for relief.

TREATMENT AND CURE.

By the medical and electric system of treatment, which Drs. Darrin have adopted and pursued for years with uniform success, a complete and permanent cure of this repulsive disorder can be effected. This they have demonstrated in thousands of cases, representing the disease in every form and all its various stages of development. Their applications are made to reach the diseased parts in the most direct and positive manner, instantaneously penetrating every cell and cavity of the head, communicating with the nostrils, and subjecting every portion of the membrane to the healing action of the remedy employed, with the most beneficial result, and without causing the least pain or unpleasant sensation. The affected cavities are thoroughly cleansed from the ineradicable morbid matter, the offensive smell is removed and relief from other troublesome symptoms is almost immediately experienced. The discharge soon diminishes, irritation is allayed, the inflammation subsides, ulcerations are made to heal, and finally a radical and permanent cure is effected.

TERMS FOR TREATMENT.

Invariably in advance. When hundreds (and many of them living a day's journey or more from the city) call on the doctors every day, it would be impossible to do a trust business with some, and do justice by all. The doctors have therefore decided to adhere strictly to the advance payment system, as the only true way of practicing their profession with the least possible trouble to themselves and patients. All should therefore note this in contemplating a visit to them. There terms of treatment, however, are so low as to be within the reach of all, and are made according to the time or number of treatments required.

The only difference between Drs. Darrin's terms and other physicians is that the former are in advance, while the other is surely due very soon after, whether a cure has been effected or not.

None will please call for speculation or idle curiosity, as hundreds are compelled to go away without seeing the doctors. This might, to a great extent be avoided, were it not for the fact that some delight in telling long stories.

DRS. DARRIN'S PLACE OF BUSINESS.

Drs. Darrin can be consulted free at 235 Fifth street, corner of Main, Portland. Office hours, from 10 to 4 o'clock daily; evenings, 7 to 8, Sundays, 10 to 12. All curable chronic diseases,

loss of manhood, blood taints; syphilis, gleet, gonorrhoea, stricture; spermatorrhoea, seminal weakness, or loss of desire of sexual power, in man or woman, catarrh and deafness, are confidentially and successfully treated. Cures of private diseases guaranteed, and never published in the papers. Most cases can receive home treatment after a visit to the doctors' office. Inquiries answered and circulars sent free.

ALLEGED INCOMPETENCY

Of Superintendent at The Locks.

From the tenor of correspondence to The Dalles Times-Mountaineer regarding the government work in that vicinity, things are run rather laxly in that department. Says the correspondent:

"We took a walk over the works, and among other things we saw a chisnel so called, stone was cut, a hole was dug, a foundation of fine cut stone was laid, barrels of cement, at \$5 per barrel was used, and the whole was condemned. Thirty-two thousand dollars sunk in the arrangement, and now they are letting the earth cave in upon it. As the boss of the stone yard remarked to a prominent citizen the other day, 'they are ashamed of the d-d thing, and are letting it cave in to hide their work.' I imagine he hit the truth about as near that time as he ever did in his life before."

"About three years ago after they had completed the plans for the gates they were confronted with the idea that when the water rushed in it would cause the boat to tip up on one side. They then endeavored to contrive a machine which they thought would cause the water to run the entire length of the lock thus raising the boat level as the lock filled. Said machine is now back of the canal in the woods where it can be seen any day. Ignorant of a fact known to my average school child twelve years of age, viz. water will seek its own level."

"There is a law stating that eight hours shall be considered a day on government works. How well this law is observed. Last winter the workmen went down into the canal groping their way in the dark and stumbling over rocks and other debris in the endeavor to reach their destination. There they would have to stay stamping their feet to keep them from numbing with the cold, or worrying around in the drizzling rain until daylight came in. At night darkness came about five o'clock then would come another time of waiting, the workmen not even daring to take advantage of the light to put their tools away. All this time that embodiment of ignorance would be hovering near fearful lest they should cheat the government of a few minutes time wholly useless to it."

A Woman's Discovery.

"Another wonderful discovery has been made and that too by a lady in this county. Disease fastened its clutches upon her and for seven years she withstood its severest tests, but her vital organs were undermined and death seemed imminent. For three months she coughed incessantly and could not sleep. She bought of us a bottle of Dr. King's New Discovery for Consumption and was so much relieved on taking first dose that she slept all night and with one bottle has been miraculously cured. Her name is Mrs. Luther Lutz. Thus writes W. C. Herick & Co., of Shelbyville, N. C.—'Get a free trial bottle at J. W. Conn's Drug Store.'

ADVICE TO MOTHERS.

MRS. WINSLOW'S SOOTHING SYRUP should always be used for children teething. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for diarrhoea. Twenty-five cents a bottle.
