JOHN HAHN.

COULD HAVE BEEN RICH,
But Didn't Embrace His Opportunities.
Harvey Brace resides in Lincoln county, and is interested with his brother in a sawmill in Idaho. He went to Spokane Falls in 1879, and worked for A. M. Cannon, at the sawmill in that city. Mr. Cannon was at that time also running a small store and times were hard and money scarce. Hon. James N. Glover, who had come in advance of all the others, and who had stood his ground through many a dark hour prior to the arrival of many of the present residents, was making a manly struggle to build up and maintain the little town by the falls, but all were poor, for money was scarce and the prospect not as bright and certain as it is to-day by any means.
After Harvey Brace had worked for Mr. Cannon for some time he drew his pay one day and was told by Mr. Cannon that although his services were valuable he guessed he would have to let him go unless he would take half his future compensation in town lots. As the sale for lumber at the mill was limited Mr. Cannon explained that he could not see his way clear to pay him \$5 a day in cash, and that was the pay he was getting. The town lots Mr. Cannon desired to let him have were along Riverside avenue, where the principal business is now transacted upon that street. Corner lots were \$50 and inside lots were placed at \$25. Mr. Brace thought this was pretty high for these lots, and did not feel that he could afford to work on such terms. He thought it would pay him better to go out into the farming country and get him a piece of land, and this, he perhaps, what most men would have thought at that time.
The lots which Mr. Brace could have bought at \$25 each in 1879, and which he refused at that price, are now worth about \$50,000 each. If he had concluded to "blow in" half his salary on these lots, he would have earned at least three or four of them each month. And if he had held onto them until now, this would have made his half salary realize him about \$150,000 each month.
A CHILD KILLED.
Another child killed by the use of opiates given in the form of soothing syrup. Why mother give their children such deadly poison is surprising when they can get the relief of its peculiar troubles by using Acker's Baby Soother. It contains no Opium or Morphine.
Sold by J. W. Conn, Druggist.
Quail and jackrabbits are about to take possession of Jefferson City, Missouri.

WE CAN AND DO

It is a positive cure for syphilitic poisoning, Ulcers, Eruptions and Pimples. It purifies the blood, cures and thoroughly builds up the constitution. J. W. Conn, Druggist.

LOOK OUT FOR FIRE.
To Theater Owners, Managers and Whom it May Concern:
This is to certify that I have equipped the Windsor Theater in this city with the Lindgren stationary chemical fire engines. After examining all other systems of fire protection, and after repeated tests of the Lindgren stationary chemical fire engine, and upon the recommendation of the insurance under-writers, I have no hesitation in pronouncing it the most powerful, as well as perfect, fire protection for theaters ever invented. In my opinion every theater and house in the United States, as well as Europe, should be equipped with these chemical fire engines, and thus save the loss of life and thousands of dollars in property.
(Signed) H. I. GOLDY,
Owner Windsor Theater, Chicago, Ill.

See What a Practical Fireman Says.
Tacoma, Wash., Sept. 19, 1889.
To Whom it May Concern:
This is to certify that I, George A. Barbank, witnessed the exhibition of the Lindgren chemical engine test today, and as I have witnessed a great many such chemical tests in New York City, Boston, Mass., and other large cities in the East, I hereby state that it was an excellent and most satisfactory test, and was also pronounced so by two of our compeleons and all the citizens present, and I will also state that the time of applying the chemical was left entirely to me and I did not give the word until the fire was well started, for in other tests I have witnessed they have always put the chemical on the minute the fire was started and water would answer just as well, as there was nothing but the flame started and the wood charred, and I take great pleasure in recommending the "Lindgren" as far superior to any other "Chemical" engine that I have ever seen.
(Signed) GEORGE A. BARBANK,
Secretary Paid Fire Department,
Director of the Northwestern Fire Association.
Was last year Secretary of the Northwestern Fireman's Association.
The above engines are made in one, three and five-gallon sizes for hand use; sixty-gallon single tank on two wheels; sixty-eight-gallon tanks on four wheels; sixty-one hundred, three hundred and five hundred-gallon stationary; other sizes made to order.
