

The Daily Morning Astorian.

VOL. XXXIII. NO. 108.

ASTORIA, OREGON, SATURDAY, NOVEMBER 9, 1889.

PRICE FIVE CENTS

Long-Standing

Blood Diseases are cured by the persevering use of Ayer's Sarsaparilla.

This medicine is an Alterative, and causes a radical change in the system. The process, in some cases, may not be quite so rapid as in others; but, with persistence, the result is certain. Read these testimonials:—

"For two years I suffered from a severe pain in my right side, and had other troubles caused by a torpid liver and dyspepsia. After giving several medicines a fair trial without a cure, I began to take Ayer's Sarsaparilla. I was greatly benefited by the first bottle, and after taking five bottles I was completely cured."—John W. Benson, 70 Lawrence st., Lowell, Mass.

Wonderful Results.

Another marked effect of the use of this medicine was the strengthening of my sight.—Mrs. Carrie Adams, Holly Springs, Texas.

"I had a dry scaly humor for years, and suffered terribly; and, as my brother and sister were similarly afflicted, I presume the malady is hereditary. Last winter, Dr. Tyron, of Ferdinand, Fla., recommended me to take Ayer's Sarsaparilla, and continue it for a year. For five months I took it daily. I have not had a blemish upon my body for the last three months."—T. E. Wiley, 141 Chambers st., New York City.

Ayer's Sarsaparilla,

PREPARED BY Dr. J. C. Ayer & Co., Lowell, Mass. Price \$1; six bottles, \$5. Worth \$5 a bottle.

A Trip to Cook's Inlet.

Last Thursday, a Cathlamet Gazette representative had the pleasure of running across Wm. Arnold of Humes' cannery, who gave us a very interesting account of what he saw, heard and did on his trip to Alaska, from which he had just returned. Mr. Arnold said:

"We left San Francisco, March 25, and after an uneventful voyage, we arrived in Cook's Inlet, about a month later.

Our cannery, belonging to the Cutting Packing Co., was the only one in the Inlet and packed 33,000 cases of salmon, besides setting some 200 barrels of herring. We had a splendid run of fish, and could have put up many more cases, had not the vessel that was bringing us our tin get disabled, which compelled us to close down after running just two months and a half. The Alaska salmon will average larger than those of the Columbia river, but are not as fat and will not weigh as much. We had a crew of 107 Chinamen in the cannery, and on our return journey home, the schooner that we were in got disabled soon after leaving Kodiak, and in order to get at the leak, 629 cases of salmon and 200 barrels of coal, that was being taken to San Francisco for analysis, were thrown overboard to the fishes. After an immense deal of labor the leak was partially stopped, and by keeping the pumps constantly going we were able to keep her afloat. After a very exciting experience of 23 days, we arrived safely in San Francisco.

At one time we thought we must surely go down, with the waves breaking over us every minute and the water gaining in the hold, inch by inch. After getting the leak partially stopped the captain called the passengers together and asked whether he should make for Port Townsend, or keep on their course. The latter motion prevailed as before shown.

On the passage down, six Chinamen died from the effects of opium. As one after the other died, they were placed in a large box made of heavy tin and hermetically sealed up, like so many salmon in a case. The company would have forfeited a \$1,000 bond, if they had thrown them overboard. As the company undertook to bring them back, dead or alive.

There is a large deposit of anthracite coal near the cannery, which is pronounced by experts to be equal to any in the world. One vein was found to be twelve feet in depth and the supply seems utterly inexhaustible. It is only a question of time when capital will develop these coal mines and supply our cities with the best coal extant. At present these coal lands are untraveled.

This is one of the best countries in the world for sportsmen. Bear, moose and reindeer abound. While there I killed seven bears, one of which weighed 700 pounds.

The weather where we were varied very much. One day it would be warm and bright and the next day cold and disagreeable, and to make matters worse, mosquitoes by the million. During the time we were there it was light all the time, but in the winter it gets dark very early. The coldest weather they have is in December, when the thermometer reaches 50 to 60 degrees below zero and the winter lasts for half the year.

The timber around Cook's Inlet is small and scrubby, and would average, say two feet in circumference and about forty feet in height, and is not of much value.

The ground is rich and will grow vegetables of all kinds. The planting is done in April and May, and by August the crops are matured. I saw cabbages, potatoes and other vegetables growing nicely.

Alaska is one of America's richest possessions and only needs the touch of capital to unfold its manifold riches. I expect to return in March."

Children Cry for Pitcher's Castoria

When Baby was sick, we gave her Castoria. When she was a Child, she cried for Castoria. When she became Miss, she clung to Castoria. When she had Children, she gave them Castoria.

The Washington legislature has organized at Olympia, holds daily sessions, and is anxiously awaiting President Harrison's proclamation admitting the forty-second state into the Union.

If your hair is turning gray, restore it to the hue of youth by the use of Ayer's Hair Vigor. The best hair preservative.

SIMMONS' LIVER REGULATOR

Nothing like it. Its peculiar efficacy is due as much to the process and skill in compounding as to the ingredients themselves. Take it in time. It checks diseases in the outset, or if they be advanced will prove a potent cure.

No Home should be Without It.

It takes the place of a doctor and costly prescriptions. All who lead sedentary lives will find it the best preventive of and cure for Indigestion, Headache, Biliousness, Piles and Mental Depression. No loss of time, no interference with business while taking. For children it is most innocent and harmless. No danger from exposure after taking. Cures Colic, Diarrhoea, Bowel Complaints, Feverishness and Febrile Colds. Invalids and delicate persons will find it the mildest aperient and tonic they can use. A little taken at night insures refreshing sleep and a natural evacuation of the bowels. A little taken in the morning sharpens the appetite, cleanses the stomach and sweetens the breath.

A PHYSICIAN'S OPINION. "I have been practicing medicine for twenty years and have never been able to put up a vegetable compound that would, like Simmons' Liver Regulator, promptly and effectively move the Liver to action, and at the same time aid (instead of weakening) the digestive and assimilative systems of the system."
L. M. HENSON, M.D., Washington, Ark.

Marks of Genianness: Look for the red Trade-Mark on front of Wrapper, and the Seal and Signature of J. H. Zedlin & Co., in red, on the side. Take no other.

Price 25c.

The bottom has fallen out of the Oklahoma boom with a nauseating thud. Eighteen lumber yard discontinuances at Guthrie are reported one week in a bunch. The slogan of the first was "Oklahoma or bust;" now the cry is "Get out of Oklahoma or bust." It was quite evident from the start that the prospective lumber demand in Oklahoma was being wildly overestimated.

Shortness of Breath. DR. PLINT'S REMEDY should be taken at once when slight exertion or a hearty meal produces shortness of breath or a pain in the region of the heart. Send for treatise, free. Mack Drug Co., N. Y.

WHAT WOMEN WEAR.

Ten Tips on How to Look Your Best.

Heliotrope will be the color of the winter in all the beautiful old tints and many new ones from blue and dahlia through violet and reddish purple and Persian mauve.

Far bands will be extensively used on cloth and gowns this winter.

High collars are again in vogue in spite of the indications during the summer that a change to low-cut necks was to be made.

Wraps are very short in the back and long, sometimes reaching the bottom of the skirt, in front.

The distinguishing characteristic of head covering is looseness of crown and a corresponding depression of trimming for bouquets and largeness of shape and generosity of garniture for hats.

Brads is still very much used to decorate carriage and walking costumes. The heavy Russian brads seem to be preferred this season.

Brilliantine will be a popular dress fabric the coming season. The new brands are silk finished and fall in lustrous folds, which qualify renders them particularly suitable for straight skirts and directoire redingotes.

Pretty afternoon dresses of cashmere and camel's hair are made very effective by the use of velvet or heavily-rippled ribbons, these being more favored for such decoration than moire or fancy ribbons of any sort.

The girl who has not got some kind of a fur cape now is behind the procession.

A graceful garment, quite new in style, to be worn over an accordion-plaited house dress, is made of velvet, lined with either a contrasting or harmonizing color. It has a square front and is sleeveless, and is finished with long directoire coat tails at the back. It is called the "directoire slip," and put on over a dainty gown a rich effect is given at moderate expense, for the slip can be made of five yards of velvet.
