LOOK OUT FOR FIRE.

To Theater Owners, Managers and Whom it May Concern: This is to certify that I have equipped the Windsor theater in this city with the Lindgren stationary chemical fire engine. After examining the same, I am fully satisfied, and after repeated tests of the Lindgren stationary chemical fire engine, and upon the recommendation of the insurance under-writers, I have no hesitation in pronouncing it the cheapest and most powerful, as well as perfect fire protection for theaters ever invented. In my opinion every theater and opera house in the United States, as well as Europe, should be equipped with these chemical fire engines, and thus save the loss of life and thousands of dollars in property. Respectfully, H. L. GOLDY, Owner Windsor Theater, Chicago, Ill.

See What a Practical Fireman Says.

Tacoma, Wash., Sept. 19, 1889. To Whom it May Concern: This is to certify that I, George A. Burbank, witnessed on the 19th of September, 1889, a chemical engine test to-day, and as I have witnessed a great many such chemical tests in New York City, Boston, Chicago, and other large cities in the East, I hereby state that it was the quickest and most satisfactory test, and was also pronounced so by two of our countrymen and all the citizens present, and I will also state that the time of applying the chemical was left entirely to me and I did not give the word until the fire was well started. In other tests I have witnessed they have always put the chemical on the minute the fire was started and water would answer just as well, as there was no time for the engine to start and the wood not charred, and I take great pleasure in recommending the "Lindgren" as far superior to any other "Chemical" engine on the market. (Signed) GEORGE A. BURBANK, Secretary Paid Fire Department, and Director of the Northwestern Fire Association. Was last year Secretary of the Northwestern Firemen's Association.

The Above engines are made in one, three and five-gallon sizes for hand use; sixty-gallon single tank on two wheels, two eighty-gallon tanks on four wheels, sixty, one hundred, three hundred and five hundred-gallon stationary; other sizes made to order. For further particulars, call on or write to Z. T. WRIGHT, Foot of Morrison Street, Portland, Or. Who also handles many first-class specialties including the Advance threshers, engines, self-feeders and band-cutters, horse-powers, marine machinery, laundry machinery, C. S. Bell's farm, church and school bells, Canton steam pumps, Trahern well pumps, all kinds, William Powell brass goods, Dolph's laundry machinery, blacksmith forges and drills, Advance Perfection axle, coach and compression grease, self-lubricating ball bearings, pumps, injectors, inspirators, Shipman and Acme coal oil engines, iron pipe and fittings, wrenches of all kinds, oil cups and the best grease cups and lubricants in America, the new Marsh steam pump, the best and cheapest.

A Complicated Marriage.

A double marriage was celebrated in Omaha the other day. Both couples had been married to each other once before and had afterwards inter-married between themselves, and a third double marriage restored them to their normal married condition. It seems that the two young couples settled down in the same neighborhood and commenced house-keeping and soon became very intimate. Finally the husband in one family and the wife in the other became jealous and accused their respective spouses of being too intimate with each other. They made it so hot for the accused ones that the suspected lady went back to her mother and the husband down at the other house packed himself up and slid out for Kansas. The deserted complainants then applied for divorce, got them, and proceeded immediately to marry each other for consolation. Then the runaways drifted together and were married in their turn. About a year after, each of the parties to the new contracts cooled off and found that the last marriages were incompatible, and they were again divorced. Now the original pairs have been reunited, and to show there is no malice they were married in the same house, at the same date, by the same clergyman, and made a good time of it together. It was a Nebraska reunion.

Buchien's Armea Salve.

JAMES MEANS' \$3 & \$4 SHOES

"Such has been the recent progress in our branch of industry that we are now able to afford that the James Means' \$3 Shoe is in every respect equal to the shoes which only a few years ago were retailed at eight or ten dollars. If you will try on a pair you will be convinced that we are not exaggerating. Ours are the original \$3 and \$4 shoes, and those who imitate our system of business are unable to compete with us in quality of factory products. In our lines we are the largest manufacturers in the United States. Shoes from our celebrated factory are sold by wide-awake retailers in all parts of the country. We will place them easily within your reach in any State or Territory if you will invest one cent in a postal card and write to us."
